RMKS/1. This message is to inform all Department of the Navy (DON) personnel who have security clearance eligibility of the Department of Defense Automated Continuous Evaluation Concept Demonstration (CECD). This initiative which kicked-off in October 2014, is the first phase of the enhanced Department of Defense (DoD) Continuous Evaluation (CE) program implementation.

2. References (a) and (b) mandate that all individuals with security clearance eligibility be continuously evaluated to determine if they meet the requirements to maintain a security clearance. All DON personnel who have security clearance eligibility, regardless of their access to classified information, are subject to CE.

3. Currently, the DoD relies on manual periodic reinvestigations and security incident reporting to address the CE requirements. The CECD is designed to enhance the current DoD CE process by using technology to continuously conduct automated records checks using data from DoD, Government, and commercial sources to identify potential derogatory information that indicates a personnel security concern.

4. Potential derogatory information discovered during CECD will be compiled into a CE report and forwarded to DON Commanders through normal security channels. Commanders will review CE reports and take action following the procedures stated in reference (d), and amplified in reference (f). A Commander*s Guide to Incident Reporting is available at: <http://www.secnv.navy.mil/dusnp/Security/Pages/Default.aspx>. The CE reports for contractors will be sent to the Defense Security Service and, if applicable, the Supporting Sensitive Compartment Information Security Management Office.

5. The point of contact for this effort is Ms. Shirley Maddox-Stubbs, Acting Personnel Security Branch Chief, Security Directorate, DUSN(P), shirley.maddoxstubbs@navy.mil.

6. Released by Ray Mabus, Secretary of the Navy.//
