

A TIME TO CHANGE BATTERIES

On 27 October 2002 the clocks will be turned back from day light savings to standard time.

As the time FALLS back, this would be an excellent time to change the battery in your smoke detector and check to make sure it is in good working order.

Our Fort Sill Community, including DoD Civilians are encouraged to participate in this project.

Remember, a smoke detector is a sound you can live with and if you have a fire emergency--get out and stay out.
