ABOUT US

Evans Army Community Hospital is part of the Fort Carson U.S. Army Medical Department Activity (MEDDAC), a premier system of health providing services to more than 72,000 Soldiers, Family members and retirees in the Front Range. Evans provides a full range of services for patients, from routine primary care to sophisticated, high-tech speciality care.

All of our enrollees are assigned a personal Primary Care Manager at one of our Family Medicine Clinics or Medical Homes. Each of them operate on the Patient-Centered Medical Home model. This concept puts the beneficiary at the center of a core health care team. Working in tandem with the beneficiary on a personalized health plan, the PCM and his/her core health team provides or arranges for necessary care in a timely manner.

Visiting Hours & Security

All exterior public building entrances are locked at the end of the duty day. To enter the hospital after hours or on the weekend, use the west entrance. Our Family Care Ward has open visiting hours.
