130227-N-TO330-087 AYASE, Japan (Feb. 27, 2013) – Aviation Maintenance Administrationman 2nd Class Brandon Phillips (center) of Electronic Attack Squadron (VAQ) 141 is thanked by Masanobu Mikami (left), a representative of the Ogami Community at Naval Air Facility (NAF) Atsugi Headquarters. Phillips began to clean the street leading from the installation's main gate to a nearby park as part of his Sunday routine. Mikami wanted to personally ensure that Phillips knew of Ogami's appreciation for his personal endeavor in keeping the community clean. NAVY COLLEGE OFFICE ATSUGI

Tuition Assistance:

DOD MOU: As of 1 March, colleges that have NOT signed the DOD MOU, Navy TA will not be paid to that college. If you continue taking classes with a college that has not signed the DOD MOU you must use funding other than TA for it. A listing of postsecondary institutions that has signed the MOU is available at www.dodmou.com.

TA is now being authorized based on term/class start dates within a rolling 4 week window. TA that is not Command approved prior to the course start date will not be approved by the Virtual Education Center (VEC). It is highly recommended that TA applications be submitted as far in advance as possible to ensure funding. TA applications can be submitted a year in advance as you don't have to wait to finish a course before submitting a new application. Last year the Navy had \$90 million dollars to fund TA but only \$60 million this year. Therefore the sooner you get your TA request in the more likely it will be funded.

Emergency Management

It is still winter! Will NAF Atsugi have any more snow?

Winter storms can affect everyone, even those who usually experience mild winters. They can range from a moderate snow over a few hours to a blizzard with blinding, wind-driven snow that lasts for several days. The extreme cold and heavy snowfall that accompany winter storms can be debilitating and dangerous. Heavy snowfall can be blinding for drivers and dangerous for those it traps indoors.

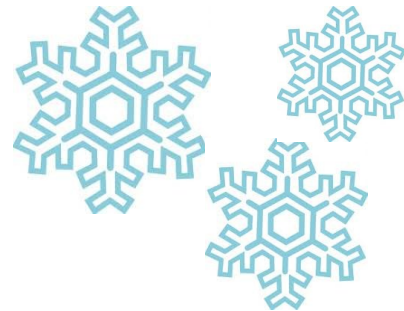

Be informed and know winter storm terminology:

- **Freezing Rain**—Freezing rain is rain that freezes when it hits the ground. The ice may coat roads, walkways, trees, and power lines.
- **Sleet**—Sleet is rain that freezes into ice pellets before it reaches the ground. Sleet can cause moisture on roads and cause them and walkways to freeze.
- **Winter Storm Watch**—A winter storm is possible. Stay tuned to radio or TV for more information and instructions.
- **Winter Storm Warning**—This is when a winter storm is occurring or will occur soon.
- **Blizzard Warning**—This is when considerable amounts of snow with sustained winds or frequent gusts up to 35 mph are expected to prevail for at least three hours. Visibility is reduced to less than a quarter mile.
- **Frost/freeze Warning**—This is when below-freezing temperatures are expected.

NAF Atsugi might not normally experience blizzards, but do you know what to do if you do get caught in one, maybe if you went skiing in Nagano?

If you are **trapped** in your car by a blizzard:

- Pull to the side of the road and put the hazard lights on.
- Remain in the vehicle, where rescuers are most likely to find you.
- Run the engine for ten minutes every hour to keep warm.
- Exercise to maintain body heat, but do not overexert yourself.
- Drink fluids to avoid dehydration.
- At night, take turns sleeping and turn the inside light on.
- Be careful not to waste battery power.
- If you are stranded in a remote area, stomp large block letters in an open area that spell “HELP” or “SOS.”
- Leave the car on foot only if absolutely necessary and the blizzard has passed.

SECURITY

Defense Biometric Identification System —Registration is in Building 20, PASS & ID office, Monday—Friday from 8 a.m. to 11 a.m. and 12:30 p.m. to 4 p.m. Military personnel and their dependants including civilians with CAC ID cards must register in the DBIDS system in person at Pass and ID Office. Currently the Pass and ID office is the only location that has the capability to register personnel into the system. For more information, call 264-3627/8305.

The New Issued Japanese Driver's License alone is not valid to gain access to the installation. Bearer needs to provide (Kisai Inji Hyo) which can be obtained at local police stations. Otherwise a passport, alien registration or Jyuki Net-to card must be presented for verification of nationality. For more information call pass and ID at 264-3805/2212.

FIRE & EMERGENCY SERVICES

The recent night club fire in Brazil serves as a grim reminder of how fast and unexpected a tragedy can strike. When in a nightclub, or other large gathering places, two things you can do to improve your chance of surviving a dangerous situation are being prepared and reacting quickly.

Preparing:

- Know where the exits are, and not only the main entrance you came in. When first going into a club, theater, restaurant, department store, etc., look around and find the exits. Make sure the exits are not blocked, locked, chained, etc.
- Look at the ceiling for sprinklers. Does the facility have sprinklers? If a nightclub or theater does not have sprinklers, it is recommended to go to a different club or theater (one that does have sprinklers). A fire sprinkler system will greatly increase the chance of avoiding a disaster and can literally make the difference between living and dying.
- How is the size of the crowd? If it feels too crowded, it probably is and you should avoid it. Overcrowding has been a contributing factor for a large number of deaths in many nightclub fires.
- If it seems the club will be using any type of fireworks indoors, it is strongly recommended to leave. Indoor fireworks have been the cause of many nightclub fires resulting in multiple deaths.

Reacting:

- The most important rule in any emergency is to react immediately. If the fire alarm goes off, evacuate right away; time is critical. Do not hesitate; do not look around to see what everyone else is doing. In many emergencies, you have less than a few minutes to evacuate. In one well documented nightclub fire, there was only 90 seconds from the moment the fire started until it was too late, resulting in 100 deaths (that club did not have sprinklers).
- If you discover a fire, or see smoke, activate the fire alarm and evacuate. When the fire department arrives on the scene, notify them of the nature of the emergency.
- Go out the nearest exit available. Most people will go to the main entrance where they came in, which will result in a large crowd and a delay in exiting.
- Do not try to put out the fire, let the club staff respond to the emergency; your focus should be on evacuating the building.

The Fire Department is available to assist you with any questions or concerns you may have with regards to fire and life safety. Please call 264-3250 if you have any questions.

Attention Parents

CNRJ Japan has recently experienced two fires from children playing with matches & lighters.

Please help us to prevent further incidents by observing the following safety tips for everyone:

1. Store matches and lighters out of children's reach and sight, preferably in a locked cabinet.
2. Never use lighters or matches as a source of amusement for children; **THEY WILL IMITATE YOU.**
3. If your child expresses curiosity about fire or has been playing with fire, calmly but firmly explain that matches and lighters are tools for adults only.
4. Use only lighter designed with child-resistant features. Remember child resistant does not mean child proof.
5. Teach young children and school age children to tell an adult if they see matches lighters.
6. Never leave matches or lighters in a bedroom or any place where children may go without supervision.

Commissaries support Military Saves Week

*By Cherie Huntington,
DeCA public affairs specialist*

FORT LEE, Va. – Savings generated by commissary shopping is why the Defense Commissary Agency is a partner of the 11th annual Military Saves Week campaign that encourages military families to avoid debt and build savings. The campaign, “Set a goal, make a plan, save automatically,” runs Feb. 25-March 2 and reflects DeCA’s everyday action of delivering savings on groceries.

“Since we sell at cost in delivering the benefit, shopping your commissary saves you money automatically,” said Joseph H. Jeu, DeCA director and CEO. “We’re proud to partner with Military Saves to help our customers save money and, in turn, reduce debt.”

Not only does consistent commissary shopping score savings of 30 percent or more, Jeu said, but savvy shoppers know that using coupons achieves even higher savings.

“Think of coupons as cash,” he said. “And now, the commissary offers the Rewards Card to deliver even more savings via coupons for download onto your card.” At last count, more than 150 coupons were available; new coupons are posted as soon as they become available. Patrons can sign up to receive an email alert when new coupons have been posted to the site. Sign up is available at http://www.commissaries.com/rewards_subscribe.cfm.

Since the card’s debut in August 2012, more than 2.6 million coupons have been downloaded by commissary shoppers.

Military Saves is part of the Department of Defense’s Financial Readiness Campaign to persuade, motivate and encourage military families to save money every month. The Military Saves website offers great tips on saving and living well but spending less. Not surprisingly, many of the ideas call for grocery shopping with economy in mind, and the commissary can make that simple. Here are a few tips from the website:

- **Tip 1:** Bring lunch to work (savings estimate: \$3 daily). No matter what your preferences for lunch, the commissary can help keep the lunch box interesting as well as economical. Maybe you eat light – fresh, crisp veggies for munching; bagged salad; yogurt or energy bars. Or maybe you prefer hot meals in lunchtime portions – frozen entrees or heat-and-eat items to store in a desk drawer. The commissary can save you 30 percent or more on your brown-bag grocery shopping.
- **Tip 2:** Eat out two fewer times a month (savings estimate: \$30 monthly). Shopping at the commissary for easy, economical meals at home not only saves you money, but the leftovers compound the value by providing future ready-to-heat meals. Whether your menu includes salad and hamburgers, hearty soup or multi-course meals, keep this in mind: It might cost you \$25 to eat out but as little as \$5 to eat in.
- **Tip 3:** Shop with a list, and stick to it. The savings could be hundreds of dollars. People who shop with a list and buy little else spend much less money than those who decide what to buy when they get to the store. You can plan your trip, tailored to your specific commissary, with the easy “Create a Shopping List” tool found on the front page of www.commissaries.com.
- During Military Saves Week and throughout February, commissaries around the world support the campaign by providing information on personal financial awareness and preparing nutritious meals for less.

Customers can join Military Saves via Facebook, Twitter, Web page and monthly newsletter. Visit <http://www.militarysaves.org> for more information.
