

Commanders Redeployment Safety Tools

Combat Readiness Safety Center, Family Readiness Group (FRG), and MWR produced information. Presentation is designed to build awareness of hazards that can befall single Soldiers during off-duty activities.

A presentation package to assist brigade and battalion commanders in making every Soldier aware of the off-duty hazards they may face, to include upon redeployment.

Products that are meant to bolster your commands existing safety program by providing information on topics which Soldiers, family members, and civilians may enjoy during their off-duty time during cooler months of the year.

A one-stop shop and resource to obtain current, timely, and accurate information concerning family safety.

A one-stop shop resource to obtain current, timely, and accurate information concerning current safety campaigns, initiatives, ARAP program, Accident Reporting, and Best Practices to name a few.

[Leaders Accident Risk Assessment for Individuals](#) - The Leader's Accident Risk Assessment of Subordinates is a tool to help Leaders identify individuals in their formations who are at risk for an accident. As Leaders, identifying and knowing those Soldiers who are high risk is essential to successful engagements to prevent accidents. Be a Leader and be engaged.

[Accident Risk Assessment for Individuals](#) - The Accident Risk Assessment for Individuals is a self-awareness tool designed for individual awareness. By completing this assessment, you will learn the factors responsible for your accident risk. You can control and mitigate some of these risk factors and for others, your chain-of-command can help. Complete the assessment and see what your risk is of having an accident and what you can do to reduce the risk. It might change your life; it might save your life.
