## *TRAINING ITEMS CAPABILITIES AND SCHEDULING INFORMATION*

- HEAT Rollover
- MRAP Rollover
- RVTT
- CDT-MV
- VBS2
- VCTS
- EST 2000

### **-IMPORTANT INFORMATION FOR ALL UNITS -**

All simulators & simulations are contracted supported and operated

**THE CONTRACTOR OPERATES THE SYSTEM NOT YOUR TRAINING!!!**

*They are there to support you Commander's Training Objectives*

**Our IO cannot conduct PMI / it is your unit's responsibility**

All simulators & simulations are available on weekends and weekday. However our contractors are limited to 40 hours per week (Sunday to Saturday). So careful coordination with simulator/simulations POC is very important.

***Failure to coordinate could result in cancellation of training!***

All scheduling is done through the ASA Fort Dix Training Management Division (TMD)

Most "canned" off the shelf scenarios can be accepted up to 14 calendar days out. And for scenarios development our contract staff need 21 calendar days to develop your units specific training scenario(s).

### **TRAIN THE TRAINIER CERTIFICATION**

and familiarization is available on the HEAT, CDT, MET & EST Systems.

## *TRAINING ITEMS CAPABILITIES AND SCHEDULING INFORMATION*

### **ENGAGEMENT SKILLS TRAINER 2000 (EST2000)**

The EST2000 is designed to aid soldiers in the development of weapon engagement skills. The EST2000 has the ability to provide 3 categories of training scenarios which include Marksmanship, Collective, and Shoot-Don't-Shoot.

*Before scheduling please contact TSC I/O at 609-562-6633/4053*

## TRAINING ITEMS CAPABILITIES AND SCHEDULING INFORMATION

### MRAP EGRESS TRAINER (MET)

The Mine-Resistant Ambush-Protected Egress Trainer, or MET, is the military's latest initiative to prepare troops how to react in the event of an MRAP rollover. The MET consists of a vehicle cab mounted to a rotating platform. The device accommodates a crew of five and was specifically designed to train the mandated rollover drills.

*Before scheduling please contact TSC I/O at 609-562-6633/4053*

RFMSS SITE

<https://rfmss.dix.army.mil/dix/pages/login.aspx>

### HMMWV EGRESS ASSISTANCE TRAINER (HEAT)

The HEAT is a crew compartment of a HMMWV mounted to a platform that enables the crew compartment to be rotated 360 degrees and stopped at any angle. The device accommodates a crew of five and was specifically designed to train the mandated rollover drills.

*Before scheduling please contact TSC I/O at 609-562-6633/4053*

## *TRAINING ITEMS CAPABILITIES AND SCHEDULING INFORMATION*

### Virtual Battle Space (VBS – 2)

The VBS-2 is a fully interactive, 3-Dimensional, PC-based synthetic gaming environment suitable for military training and experimentation. The VBS-2 offers both virtual and constructive interfaces into high-fidelity worlds of realism.

*Before scheduling please contact Senior VBS-2 at 609-562-7082/7078*

### Reconfigurable Vehicle Tactical Trainer (RVTT)

The RVTT is a virtual device trainer that allows training to replicate realistic combat environments and scenarios. An entire platoon can train simultaneously on the same mission. The RVTT can be customized to numerous terrain databases in a 360 degree virtual vision.

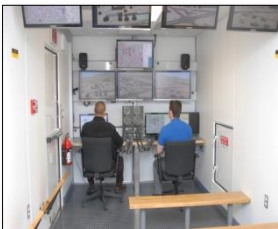

*Before scheduling please contact Operator at 609-562-7080*

## *TRAINING ITEMS CAPABILITIES AND SCHEDULING INFORMATION*

### **Dismounted Soldier Training System (DSTS)**

The first ever fully immersive virtual simulation training for U.S. Soldiers. Each soldier is issued an individual man-wearable immersive training system and an instrumented weapon. Soldiers can see and hear the virtual environment and also communicate with members of their squad, platoon, or company. A soldier uses his body to perform complex motion maneuvers, such as leaning around or crawling under an obstacle, by physically mimicking those actions, or to communicate with others. Motion-tracing captures the soldier's movements. The natural movements of the soldier are translated and used to control the soldier's avatar within the simulation.

***Before scheduling please contact Operator at 609-562-6234/6215***
