

Watershed Management And Restoration For Springfield And Decatur, Illinois

U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG ®

Location

Illinois River Watershed located near Springfield & Decatur, Illinois

State(s)

IL

Congressional District(s)

IL-17, IL-18

Status

Authorized, but not funded. Project will most likely be addressed as a component of Illinois River Basin Restoration Section 519, WRDA 2000 authority.

Description

Congress has authorized the U.S. Army Corps of Engineers to provide technical, planning, and design assistance to non-Federal interests for watershed management, restoration, and development of projects. The study includes portions of the Illinois River Watershed located near Springfield & Decatur, Illinois. This reconnaissance-level study will determine the extent of the water quality, sedimentation, and agricultural impacts to the water supply for these two urban areas. The study will evaluate the overall degradation of the portion of the watershed in the vicinity of Decatur and Springfield, Illinois. Assistance under this authority may be provided for the purposes of:

- management and restoration of water quality
- control and remediation of toxic sediments
- restoration of degraded streams, rivers, wetland, and other water bodies to their natural condition as a means to control flooding, excessive erosion, and sedimentation
- protection and restoration of watersheds, including urban watersheds, and demonstration of technologies for nonstructural measures to reduce destructive impacts of flooding.

Summarized Project Costs

Federal Cost	\$1,805,000
Non-Federal Cost	\$1,705,000
Total Cost	\$3,510,000
Allocations through FY 2009	\$0
Allocations for FY 2010	\$0
Budget for FY 2011	\$0
Balance to Complete after FY 2011	\$1,805,000

Major Work Item (This Fiscal Year)

FY 2016: None. Likely to be addressed under Section 519 WRDA 2000 authority.
