MEMORANDUM FOR DISTRIBUTION

SUBJECT: Evaluation of Infrastructure Support to Integrated Tactical Warning Attack Assessment Ground Based Radars (Project No. D2015-DISPA1-0132.000)

We plan to begin this project in March 2015. The evaluation's objective is to determine whether the materiel condition of the ground based radar sites is adequate to perform and sustain their required capabilities. Specifically, we will examine the infrastructure, current maintenance, planned or required upgrades, funding, and management of the radar sites. We will consider recommendations from management on additional or revised objectives.

We will perform this evaluation at offices within the Office of the Secretary of Defense and DoD component organizations. Site visits will be conducted at the Joint Chiefs of Staff, US Strategic Command, Headquarters US Air Force, Air Force Space Command, and the radar sites. We may identify additional locations during the project.
