Logistics Assistance Program (LAP)

- The Logistics Assistance Program:
 - Proponent of The Department of the Army, G4
 - U.S. Army Materiel Command (AMC) is delegated as lead agency and with command responsibility
 - [U.S. Army Sustainment Command \(ASC\) is delegated lead for program execution and management.](#)
- ASC LAP Dir, in coordination with the Life Cycle Management Commands (LCMCs) provides personnel to support the AFSB/AFSBn/LSE/BLST/LST network, with Logistics Assistance Representatives (LARs) located worldwide at major installations, posts, camps, or stations.

Key Points

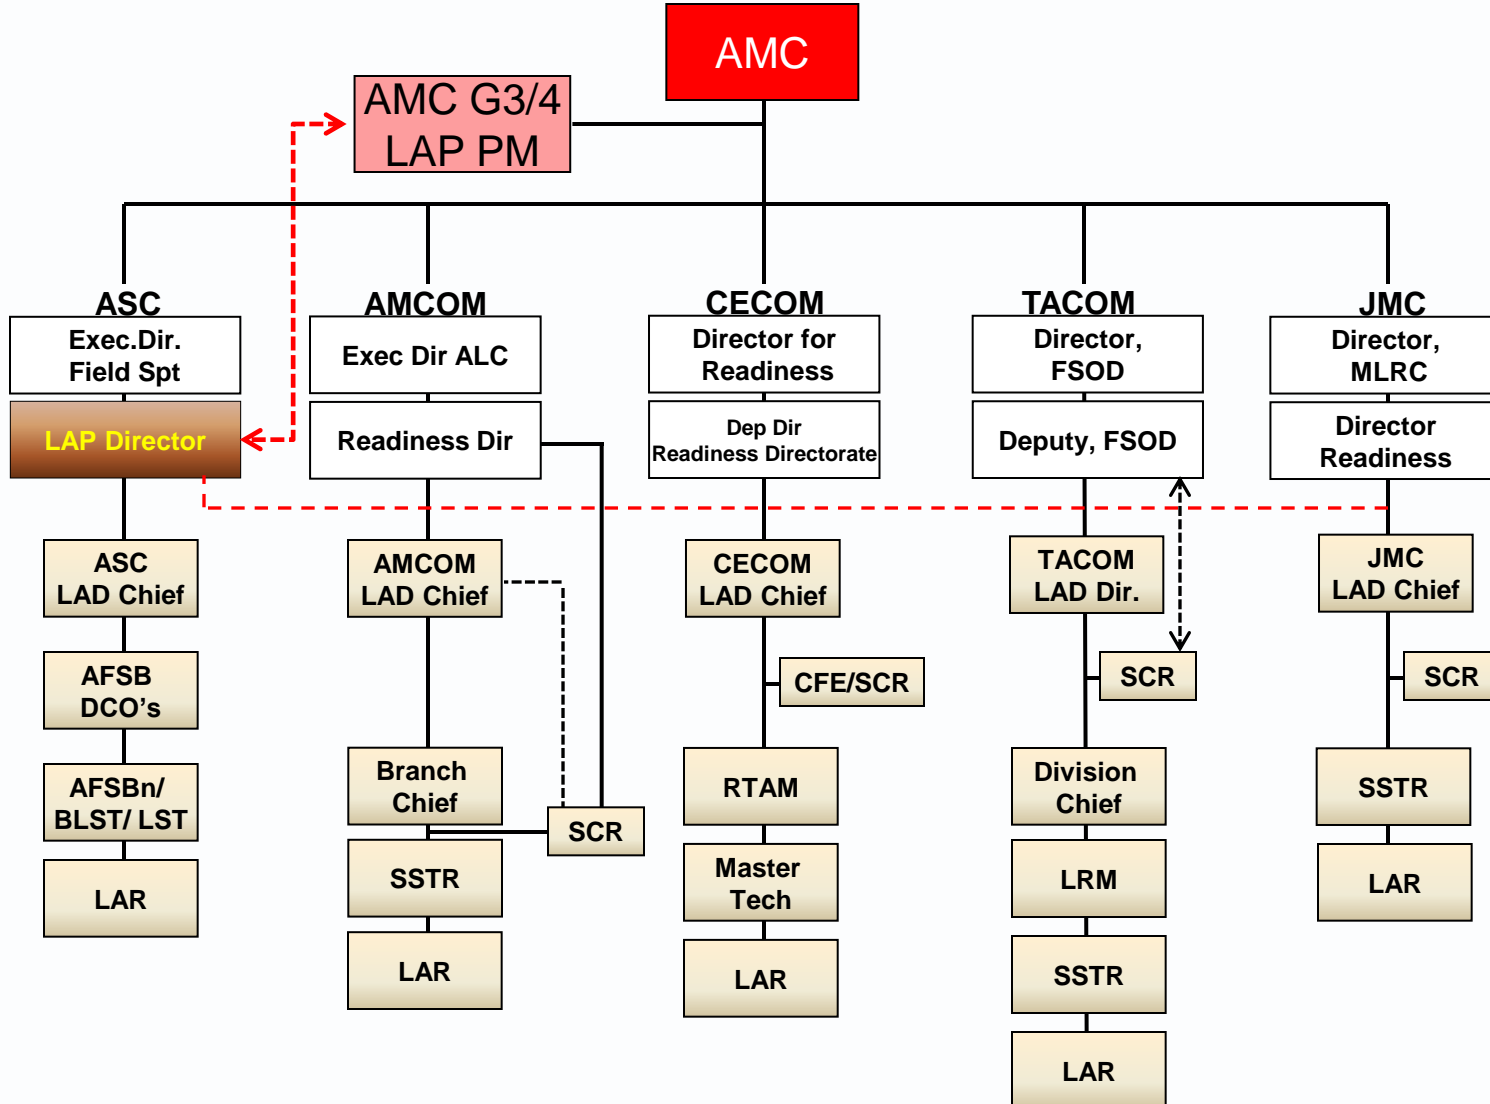

- LAP personnel are essential to AMC's mission in the field. (***First Responders***)
- We serve as the focal point for integration of AMC Materiel Enterprise to Combat Commanders.
- Embedded with each AC Brigade Combat Team and Combat Aviation Brigade, AFSBn and AFSB.
- Our essential mission will endure beyond current contingency operations and provide the tactical link to the operational force.
- LARs provide early detection and resolution of logistics related problems that have an **adverse impact on unit readiness.**
- Providing expertise to the Army as the Army transitions "***Back to the Basics***" for sustainment of a CONUS based deployable Army
