U.S. ARMY

Approved for Public Release

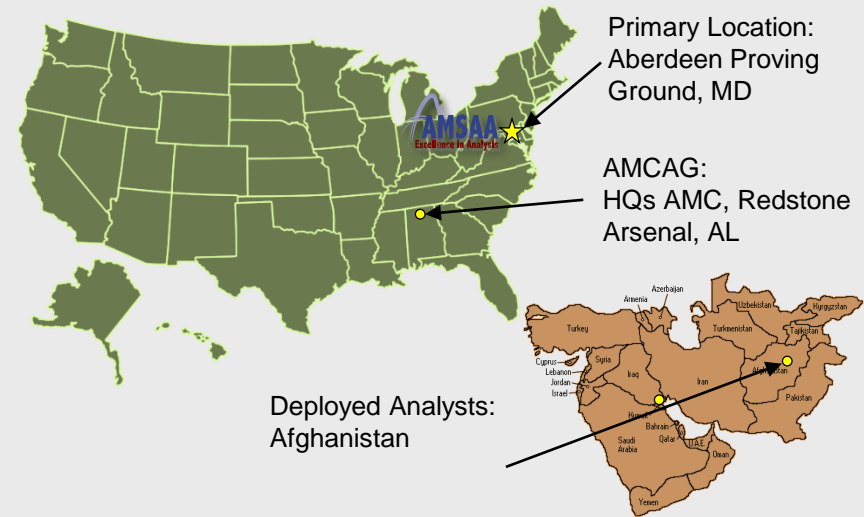

Army Materiel Systems Analysis Activity (AMSAA)

What do We Do?

- AMSAA is a Separate Reporting Activity to the U.S. Army Materiel Command (AMC) comprised of ~300 civilian analysts, engineers, & scientists. AMSAA's primary mission is to conduct analyses across the Materiel Life Cycle to inform critical decisions for current and future Warfighter needs.
- AMSAA develops and applies problem solving tools and methodologies to Army materiel and logistics systems to predict performance, analyze effectiveness, identify shortfalls, compare alternatives, and recommend potential courses of action to appropriate decision-makers.

Where are we Located?

What Talent Do We Look For Most?

- Journeyman level:** Applicants with degrees in areas such as **Math, Engineering, Computer Science, Operations Research, and Physics** who also have on the job training and experience working in these fields.
- Student Interns:** Current students who are enrolled part-time in an accredited college or university, with a GPA of 3.0 or higher, who are pursuing degrees in areas listed above.
- Recent Graduate Interns:** Recent graduates from an accredited college or university who have obtained a Bachelor's degree in areas such as: **Computer Science, Math, Physics, and Engineering.**

What's our Hiring Projections?

- Projected hiring depends on multiple factors such as attrition, retirement eligibility, mission requirements etc.
- 58 new employees hired in the last 3 years.
- 105 employees eligible to retire immediately or within the next 5 years.

For more information about AMSAA:
<http://www.amsaa.army.mil/home.html>

U.S. ARMY

Communications – Electronics Command

What Do We Do?

- **CECOM Mission:** Provide, integrate and sustain C4ISR readiness to enable unified land operations. CECOM is comprised of a dedicated team of trusted professionals, accountable to the nation and committed to enabling of the Command, Control, Computers, Communications, Intelligence, Surveillance, and Reconnaissance (C4ISR) readiness and sustainment in an Expeditionary Army. CECOM provides, integrates and sustains C4ISR readiness to enable unified land operations.
 - APG has approximately 13,000 military, civilian, and contract personnel
 - CECOM Headquarters is located at Aberdeen Proving Ground (APG), MD
 - CECOM provides The Critical Link to sustaining C4ISR systems, equipment and capabilities across the C4ISR domain through providing training; field support for software modifications and software upgrades; logistics expertise; information assurance; joint network capabilities and interoperability certification functions to ensure the right equipment is in the right place at the right time.

What Talent Do We Look For Most?

- Engineering (all disciplines)
- Cybersecurity (Computer Security & Information Assurance)
- Mathematicians/Statisticians
- Safety & Occupational Health
- Health Physicists
- Technical Editors/Writers
- Finance/Accountants
- Information Technology
- Logistics/Supply Chain Management
- Electronic Technicians/Mechanics
- Management and Program Analysts (Business Management)
- Administration and Office Support

Where Are We Located?

CECOM is virtually everywhere – Dots show permanent stationing, stars are overseas deployment.

What's Our Hiring Projections?

- CECOM plans to hire 190 Pathways/Recent Graduate Interns for FY 17
- Positions will be geographically dispersed across CECOM
 - ✓ Aberdeen Proving Ground, MD
 - ✓ US Army Information & Systems Engineering Command, AZ
 - ✓ Tobyhanna Army Depot, PA
 - ✓ Central Technical Support Facility, TX

<http://www.army.mil/CECOM>

CECOM – THE CRITICAL LINK, DRIVING C4ISR READINESS WORLDWIDE

What Do We Do?

Mission: Provide unique infrastructure, engineering expertise and life-cycle technical services to solve Chemical and Biological Defense (CBD) challenges for the Warfighter and the Homeland

Quick Facts:

- Engineering support for more than 40 CBD systems and their components.
- Life cycle engineering support capability from initial design and system development to sustainment throughout the life cycle.
- Industrial Base support for DoD and Army-wide initiatives.
- Development and hosting of web-based software applications for CBD programs

What Talent Do We Look For Most?

- Engineers (all types)
- Non-Engineering Technical
- Business Management
- Information Technology
- Computer Programming
- Finance/Resource Management
- Quality Management Specialists
- Technical Writers

Where Are We Located?

ECBC-RI is one of four ECBC locations. The others are on Aberdeen Proving Ground, MD (main site); Pine Bluff Arsenal, AK; and Dugway Proving Ground, UT.

ECBC-RI is on Rock Island Arsenal, IL with offices in building 62 and a laboratory facility in building 131.

For more information visit: <http://www.ecbc.army.mil>

What's Our Hiring Projections?

ECBC-RI plans to hire over 30 employees over the next five years. We are currently hiring in these areas:

- Engineers
- Computer Programmers
- Administrative Assistants

ECBC-RI participates in programs that offer work experience for college and high school students during the summer. This past summer (Jun-Aug 2016) nine students from five local high schools took part in the Science and Engineering Apprentice Program which provides “hands on” experience in Science, Technology, Engineering, and Math career fields

U.S. ARMY

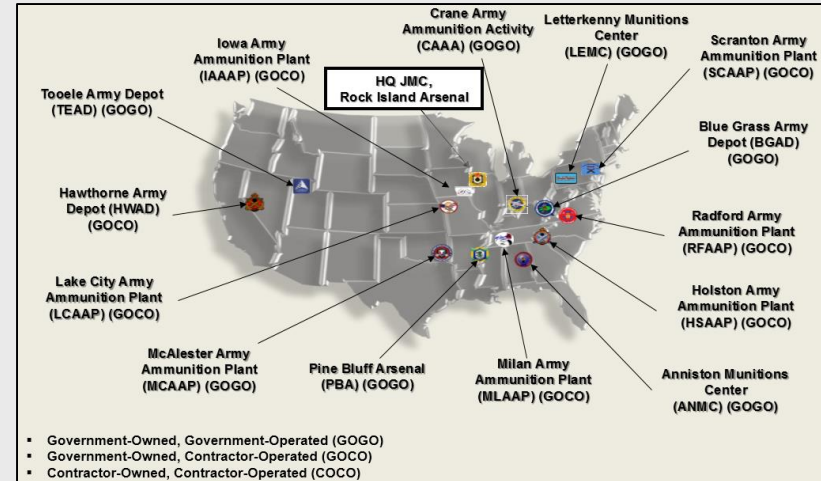

Joint Munitions Command

What Is Our Mission?

- To provide America's joint forces with ready, reliable and lethal munitions at the right place and the right time in a cost-effective manner to enable successful military operations
- JMC stores, distributes, demilitarizes, and produces ammunition for military training and combat.

Where Are We Located?

What Talent Do We Need Most?

- Business Analysis
- Cost Analysis
- Engineering
- Human Resource Management
- Information Technology
- Supply Chain Management
- Program Management
- Business process management & re-engineering
- Production Planning
- Logistics
- Quality Assurance
- Readiness Analysis
- Resource Management
- Strategic Planning

Strong analytical and communication skills are a must!

What Are Our Hiring Projections?

- We plan to hire approximately 100 interns and graduates at multiple locations in the next 2 years.

Be Efficient, Effective and the Best Value in All That We Do!

Logistics Support Activity

What Do We Do?

- Provide timely, accurate, and valuable integrated Life Cycle Logistics, Information, Knowledge, Expertise to enable Army Readiness and Support Unified Land Operations.
- Modern Preventative Maintenance (PS) Magazine
- Provide Worldwide Logistics and Engineering Assistance for Packaging, Storage, Hazardous Materials and Automatic Identification Technology. Deliver Global Readiness Solutions to Army & Joint Warfighter. Provide Enterprise Information Systems migration, Information Technology Solutions, and Data Quality Management.

Where are we Located?

- Redstone Arsenal, AL
- Tobyhanna, PA
- Liaison Officer (Continental United States/Outside Continental United States)

What Talent Do We Look For Most?

- Logisticians (Supply & Maintenance)
- Engineers
- Information Technology Specialists
- Packaging Specialist

What's our Hiring Projections?

Projected hiring depends on several factors:

- Enduring Missions
- Funding
- Attrition

Military Surface Deployment and Distribution Command (SDDC)

What Do We Do?

- Provide global deployment and distribution capabilities to meet our Nation's objectives
 - #1 Priority is Supporting the Warfighter
- Core Capabilities
 - Deployment and Redeployment Support
 - Distribution and Traffic Management
 - Port Operations
- 4 Lines of Business
 - Personal Property
 - International
 - Domestic
 - Transportation Engineering

Where Are We Located?

- Global Focus/Global Footprint
 - The sun never sets on SDDC!
- Active Hiring Locations
 - Beaumont TX
 - Charleston SC
 - Concord CA
 - Germany
 - Kuwait
 - Bahrain
 - Hawaii
 - Italy
