CREATE USER ACCOUNT

Your CCR username will not work in SAM. You will need a new SAM User Account to register or update your entity records. You will also need to create a SAM User Account if you are a government official and need to create Exclusions or search for FOUO information.

REGISTER/UPDATE ENTITY

You can register your Entity (business, individual, or government agency) to do business with the Federal Government. If you are interested in registering or updating your Entity, you must first create a user account.

SEARCH RECORDS

All entity records from CCR/FedReg and ORCA and exclusion records from EPLS, active or expired, were moved to SAM. You can search these records and new ones created in SAM. If you are a government user logged in with your SAM user account, you will automatically have access to FOUO information.

WHAT IS SAM?

The **System for Award Management (SAM)** is a **Federal Government owned and operated** free web site that consolidates the capabilities in CCR/FedReg, ORCA, and EPLS. Future phases of SAM will add the capabilities of other systems used in Federal procurement and awards processes.

You do not need to do anything in SAM at this time, unless a change in your business circumstances requires updates to your Entity record(s) in order for you to be paid or to receive an award or you need to renew your Entity(s) prior to its expiration. SAM will send notifications to the registered user via email 60, 30, and 15 days prior to expiration of the Entity. To update or renew your Entity records (s) in SAM you will need to create a SAM User Account and link it to your migrated Entity records. You do not need a user account to search for registered entities in SAM by typing the DUNS number or business name into the search box.</p>

Nur wenn alle 3 Einträge – S.A.M., D&B & NCAGE – gleich und in allen 3 Datenbanken vorhanden sind, kann eine Registrierungsüberprüfung in 2-3 Tagen abgeschlossen werden.

The screenshot shows the web portal for the Defense Logistics Agency's Business Identification Number Cross-reference System (BINCS). The page header includes the DLA logo and the text "DEFENSE LOGISTICS AGENCY Defense Logistics Information Service BINCS - Business Identification Number Cross-reference System". A navigation menu on the left lists "BINCS Home", "FAQ", "Disclaimer", "Search", "Links", and "Contact". The main content area is titled "BINCS Search" and contains the following text:

The data contained herein is for [informational](#) purposes only. If your company is listed with incorrect or incomplete data, please [Contact](#) us at once so we can correct the information.

GUIDELINES FOR SYSTEM USAGE:

The data contained herein is government owned information, and as such may not be reused or marketed for commercial use.

- Searches are for free, however DLA Logistics Information Services reserves the right to restrict access if unreasonable use of the system is made.
- Tailored data extracts are available to government agencies requiring additional information. An example of this type of extract would be all CAGE Codes within a specific ZIP Code. Also, a compact disc (CD) containing all the CAGE Codes is available for purchase. The title for this CD publication is the H Series. There are a variety of other publications on this disk, such as Federal Supply Classification, Federal Item Name, etc. To subscribe for publications email: subscriptions@dla.mil. For additional information on either product, US Government agencies should direct their queries to <http://www.logisticsinformationservice.dla.mil/cdrom.asp> (or [Contact](#) us).
- Now you're ready to start your search.

The search form includes the following fields:

- CAGE:
- DUNS:
- Company:
- State:
- Phone:
- Zip:
- SIC:
- SIC, State:
- JCP CERT#:

Buttons:

You may perform a wildcard search on a company name by placing a "?" after the name. BINCS will search by each individual word (up to three words). Example: WOOD WORKING? The partial company name must contain at least 3 characters in addition to the "?" The company name field will ignore common words such as "the" and "and." Example: ASP?

The phone number must contain at least 6 digits. The phone number field must include the area code and the exchange code. Example: 616555

When entering Company or SIC you may further narrow the search by selecting the corresponding state field. Searching by the state alone does not constitute valid search criteria.

NOTE: Using partial searches will increase processing time and may time out the page.

Nun sollten sie ihre Firmen-Daten zu ihrem NCAGE oder ihrer DUNS Nr. sehen.
Sollte dieser Eintrag nicht mit ihren jetzigen Firmen-Daten übereinstimmen oder gar nicht zu sehen sein, bitte beim Logistikamt der Bundeswehr (für Deutsche Firmen) – siehe Seite 12 - Webseite:
<http://www.nato.int/codification/> - melden und korrigieren lassen. Die Übertragung auf die DLA Seite dauert circa 2-3 Tage.
