

## Combat Lifesavers Course (CLC)

ATRRS Title: Combat Lifesavers Course – 06 Edition

ATRRS Course: CLC-06

Course Length: 4.0 Days

Description: This is a four day course that covers the FY2010 requirements for the issuance of the CLS certification for non-medical personnel. The new standards include the following coursework:

1. Introduction to the Role of the Combat Lifesaver
2. Care Under Fire
3. Tactical Field Care
4. Controlling Bleeding
5. Opening and Managing a Casualty's Airway
6. Treating Penetrating Chest Trauma
7. Initiating a Field Medical Card or Tactical Combat Casualty Card
8. Requesting Medical Evacuation
9. Tactical Casualty Movement
10. Evacuating a Casualty Using a Litter

This course carefully balances classroom instruction and hands on application. As a culminating event, students will complete a written examination and participate in a combat trauma lane under direct supervision of a fully qualified combat medic. This experience will allow students to gain confidence in their newly acquired skills and knowledge, which will help them further understand their role as contemporary combat lifesavers

**Requirements: Students must not be on a temporary medical profile or permanent profile which will prevent full participation in the course.**
