

SECTION 592 – WRDA 1999, AS AMENDED

ENVIRONMENTAL INFRASTRUCTURE

MISSISSIPPI

**MODEL AGREEMENT
FOR
DESIGN
ASSISTANCE**

(WORK PERFORMED BY NON-FEDERAL SPONSOR)

**SEPTEMBER 2, 2005
REVISED - NOVEMBER 19, 2005
REVISED – JANUARY 22, 2009**

APPLICABILITY. – The attached model agreement is one of six models for the provision of environmental assistance to non-Federal interests in Mississippi pursuant to Section 592 of the Water Resources Development Act of 1999, Public Law 106-53, as amended (Section 592) projects. The following descriptions of the six models are provided to assist in determining the correct model to be used for your project. None of the models discussed below should be used for the provision of environmental infrastructure assistance pursuant to any other authority. Models for the provision of environmental infrastructure assistance pursuant to other authorities can be found in the approved model section of the PCA Web page. If there is no approved model posted in the approved model section of the PCA Web page that is applicable to your particular environmental infrastructure authorization, the District Project Delivery Team should consult with the appropriate HQ RIT for guidance on drafting the appropriate agreement.

Section 592 Non-Federal Design – The attached model should be used for Section 592 projects when the sponsor requests design for the project be undertaken in the agreement and the sponsor will be performing the work on the project. The Federal share will be provided in the form of reimbursement. Since this agreement is limited to design, compliance with all applicable environmental laws and regulations is not required prior to approval and execution of the agreement.

Section 592 Non-Federal Construction – Use only for Section 592 projects when the sponsor requests construction of the project be undertaken in the agreement and the sponsor will be performing the work on the project. The Federal share will be provided in the form of reimbursement. An agreement using this model may not be approved and executed prior to compliance with all applicable environmental laws and regulations including, but not necessarily limited to, the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321-7370e) and Section 401 of the Federal Water Pollution Control Act (33 U.S.C. 1341).

Section 592 Non-Federal Design and Construction – Use only for Section 592 projects when the sponsor requests both design and construction of the project be undertaken in one agreement and the sponsor will be performing the work on the project. The Federal share will be provided in the form of reimbursement. An agreement using this model may be approved and executed prior to compliance with all applicable environmental laws and regulations including, but not necessarily limited to, NEPA (42 U.S.C. 4321-7370e) and Section 401 of the Federal Water Pollution Control Act (33 U.S.C. 1341). However, the necessary compliance with all applicable environmental laws and regulations will be performed during the design portion of the agreement and must be completed prior to initiation of construction.

Section 592 Federal Design – Use only for Section 592 projects when the sponsor requests design for the project be undertaken in the agreement and requests the Government to perform the work on the project. Optional language is included in the model addressing if the sponsor wants to perform some of the design. Since this agreement is limited to design, compliance with all applicable environmental laws and regulations is not required prior to approval and execution of the agreement.

Section 592 Federal Construction – Use only for Section 592 projects when the sponsor requests construction of the project be undertaken in the agreement and requests the Government to perform the work on the project. Optional language is included in the model addressing if the sponsor wants to perform some of the construction. An agreement using this model may not be approved and executed prior to compliance with all applicable environmental laws and regulations including, but not necessarily limited to, NEPA (42 U.S.C. 4321-7370e) and Section 401 of the Federal Water Pollution Control Act (33 U.S.C. 1341).

Section 592 Federal Design and Construction – Use only for Section 592 projects when the sponsor requests both design and construction of the project be undertaken in one agreement and requests the Government to perform the work on the project. Optional language is included in the model addressing if the sponsor wants to perform some of the design or construction. An agreement using this model may be approved and executed prior to compliance with all applicable environmental laws and regulations including, but not necessarily limited to, NEPA (42 U.S.C. 4321-7370e) and Section 401 of the Federal Water Pollution Control Act (33 U.S.C. 1341). However, the necessary compliance with all applicable environmental laws and regulations will be performed during the design portion of the agreement and must be completed prior to initiation of construction.

NOTES. – The following pages (iv – x) contain numbered notes to assist in drafting an agreement for your project using this model. Throughout the model agreement, there are references to the numbered notes (example: [SEE NOTE – 7]) to direct you to the appropriate note that provides explanation and guidance on use of optional language or information required to fill in the blanks. Several of the notes are general in nature and

should be reviewed and discussed with the sponsor during preparation of the draft agreement for your project.

OPTIONAL LANGUAGE. – The use of optional language allows the model to be applicable to a larger universe of projects. Many of the numbered notes (example: [SEE NOTE – 6]) require you to choose between multiple versions of language or to choose whether or not to include a paragraph, sentence, or phrase depending on the specifics of your project. In many cases optional language to address a concept, such as the sponsor performing non-Federal design and construction work, is required in numerous locations throughout the agreement. Each of these locations has been identified with numbered notes; however, it is important to ensure that, if the optional language addressing a certain concept is included in one location, it is also included in all other appropriate locations. Correct use of the optional language is not considered a deviation from the model.

BLANKS. – There are numerous locations where information specific to your project is required to fill in a blank. All of the blanks must be filled in, except the date in the first paragraph, prior to forwarding the agreement for review. Including the information required to fill in a blank is not considered a deviation from the model.

DEFINED TERMS SHOWN IN ITALICS. – Throughout the agreement the terms defined in Article I are shown in italics. Do not remove any of the *italics* from the agreement.

NOTES:

1. FORMAT. - Remove the cover pages, notes section, all bold type references to notes, and any bold type text from the agreement prior to forwarding for review. Reminder: Do not remove any of the *italics* from the agreement.

2. MULTIPLE SPONSORS. - In the event there are two or more entities serving as the sponsors for the project, and there is no division of responsibilities between or among them, the agreement can be modified to identify all the entities collectively as the “Non-Federal Sponsors”. However, it should be explained to all entities that the term “Non-Federal Sponsors” is construed to hold multiple sponsors jointly and severally responsible for compliance with all agreement obligations. The changes outlined below are required to identify all entities collectively as “Non-Federal Sponsors” and are not considered a deviation from the model.

A. Modify title to include name of each entity serving as a sponsor.

B. Modify first paragraph to include name of each entity serving as a sponsor. (Example: ... Magoffin County Fiscal Court represented by the Magoffin County Judge and the City of Salyersville, Kentucky represented by its Mayor (hereinafter the “Non-Federal Sponsors”))

C. Change “Non-Federal Sponsor” to “Non-Federal Sponsors” throughout the agreement. There are several paragraphs where this change will require additional grammatical changes immediately following the phrase “Non-Federal Sponsors” to reflect multiple sponsors (i.e. “its” to “their” or “assumes” to “assume”, etc.).

D. On the signature page, a separate signature block will be required for each entity serving as a sponsor.

E. A separate Certificate of Authority will be required for each entity serving as a sponsor.

F. A Certification Regarding Lobbying must be signed by each signatory to the agreement.

3. GOVERNMENT REPRESENTATIVE. – Insert the title of the Government representative signing the agreement. Do not include the name, only the title. (Example: U.S. Army Engineer, Mobile District)

4. REFERENCE TO NON-FEDERAL SPONSOR. - Use “Non-Federal Sponsor”, “Local Sponsor”, “State”, “County”, “Commonwealth”, “Territory” or other identifier as preferred by the sponsor in the parenthetical phrase and consistently throughout the agreement. This change is not considered a deviation from the model. If this change is made in one location, ensure that all other locations are similarly changed.

5. NON-FEDERAL SPONSOR REPRESENTATIVE. – Insert the title of the sponsor’s representative signing the agreement. Do not include the name, only the title. The title shown for the sponsor’s representative should match the title shown on the signature page and should be preceded by “the” or “its”, as appropriate, to match the title of the sponsor’s representative. (Example: the Mayor)

6. PRE-AGREEMENT DESIGN WORK. – Only design performed by the sponsor prior to the effective date of the agreement should be considered as pre-Agreement design work. The reasonable costs of pre-Agreement design work shall be included in total design costs which have not been included in any other agreement for the project but not to exceed 6 percent of total construction costs of the project. If the sponsor wants to include costs for pre-Agreement design work, then all language on pre-Agreement design work should be included in the agreement.

A. For each location where optional language or an optional paragraph(s) is provided, include the optional language after the colon or the entire paragraph(s), as applicable, only if the sponsor is requesting costs for pre-Agreement design work be included in total design costs.

B. The 6 percent limitation applies only to pre-Agreement design work. Any costs for design performed subsequent to execution of the agreement for the project should not be included in the amount subject to the 6 percent limitation.

7. DESCRIPTION OF THE PROJECT. – The input required for the description of the project is described below.

A. Describe the project features to be designed pursuant to this agreement in detail sufficient to avoid any confusion over what is or is not included. If the project features to be designed pursuant to this agreement are an element of a countywide or statewide environmental infrastructure system, only the features to be designed in this agreement should be included in the description of the project.

B. The title and date of the decision document that describes the project to be designed should be included (such as Scope of Work, Feasibility Report with Engineering Appendix, General Reevaluation Report, etc.). Also include the title of the approving official (such as Assistant Secretary of the Army (Civil Works); Chief of Engineers; Commander, _____ Division; or Commander, _____ District) and the date of approval. The civilian format for any dates included in the agreement should be used. (Example: January 22, 2004)

C. For any projects where the proposed work is design for reconstruction, repair, or rehabilitation of existing environmental infrastructure features, the sponsor must verify in writing if it was constructed through any other Federal program and whether OMRR&R was required and that the proposed reconstruction, repair, or rehabilitation is

not normal O&M activities required for the existing environmental infrastructure features. Performance of normal O&M activities should not be considered for implementation under this authority. The letter from the sponsor should be part of the PCA package. If the original construction of the environmental infrastructure feature was performed under a Federal program that required OMRR&R, you should consult with your MSC and your HQ RIT for guidance before proceeding any further.

8. BETTERMENTS. – A betterment is a difference in quality of an element of the project to be designed, not a difference in kind. (Example: install larger size or higher grade pipe than needed to meet Federal standards) The term “betterment” does not include any design for features not included in the definition of the project as defined in the agreement.

9. LIMITATIONS ON REIMBURSEMENTS BY THE GOVERNMENT. - The amount of reimbursement provided pursuant to Article II.C. in any fiscal year is subject to the applicable limitations of Section 102 of the Energy and Water Development Appropriations Act, 2006, Public Law 109-103. The amount of reimbursement made under Article II.C. or IV.C.1. together with the credits or reimbursements proposed for all other applicable programs and projects cannot exceed the total limit indicated in each fiscal year. Each district should verify with your MSC and your HQ RIT to determine if you are impacted by this limitation.

10. ARTICLE II.D. - LIMITS ON FEDERAL PARTICIPATION.

A. CONGRESSIONAL ADD PARAGRAPH – Article II.D.1. - The dollar amount to be included in the first blank should be the amount of Federal funds that have been appropriated for the Section 592 Program, minus any rescissions and reductions for savings and slippages, as of the effective date of the agreement. The dollar amount to be included in the second blank should be that portion of available Section 592 Program funds that the district is projecting to be available for the project in this agreement, as of the effective date of the agreement. The district, through the Design Coordination Team (Article III), shall work closely with each sponsor to plan execution of the project so that useful portions can be designed as funds are made available. The sum of the amount of Federal funds made available for all the Section 592 agreements, including this one, plus the sum of Federal funds made available for overall management of the Section 592 Program, cannot exceed the amount of Federal funds that have been appropriated for the Section 592 Program, minus any rescissions and reductions for savings and slippages, as of the effective date of the agreement, nor can it exceed the current Section 592 Program Limit, unless Congress has authorized an increase in the limit in Act language.

B. SECTION 592 PROGRAM LIMIT – Article II.D.3. - The Government will not issue work allowances for the Section 592 Program beyond the amount authorized to be appropriated in Section 592, currently \$110,000,000.

C. SUSPENSION OF GOVERNMENT PERFORMANCE – Article X.B. - If the Government suspends its future performance responsibilities, including reimbursement,

under the agreement pursuant to Article II.D.2., the sponsor, at its sole discretion, may continue work on the project. However the sponsor should understand that if they continue to work on the project during the period of suspension of the Government's performance responsibilities, such work performed must comply with the conditions of Article II.B. of the agreement to be eligible for inclusion in total design costs and any reimbursement of the Federal share of such work once the Government has resumed its performance responsibilities. If the Section 102 Limit compels the Government to suspend reimbursement, but funds are otherwise available, the Government's performance of its other obligations will not be suspended.

11. ADDITIONAL ITEMS OF COOPERATION. - Include any additional paragraphs in the agreement necessary to reflect special requirements of non-Federal cooperation specified in the decision document upon which the agreement is based. Carefully review the items of non-Federal cooperation in the decision document to ensure that all items of cooperation are covered in the agreement. When including any additional items of cooperation in the agreement, name the responsible party then include the item of cooperation contained in the decision document. (Example: The Non-Federal Sponsor shall ...) Including the additional items of non-Federal cooperation in the agreement is not considered a deviation from the model unless additional language is required elsewhere in the agreement to further address the added item of cooperation.

12. ARTICLE IV.A. – BREAKDOWN OF PROJECT COSTS.

A. The costs shown in Article IV.A.1. should be the current estimate of the costs at current price levels and inflated through the estimated mid-point of design.

B. To determine the reimbursement of the Federal share due to the sponsor in accordance with II.C.: Step (1) determine the Government's share of total design costs; Step (2) subtract from the Government's share of total design costs the amount of total design costs to be incurred by the Government; the difference is the reimbursement of the Federal share due to the sponsor that should be shown in the seventh blank in Article IV.A.1.

Example:

total design costs = \$400,000

total design costs to be incurred by the Government = \$75,000

total design costs to be incurred by the sponsor = \$325,000

Step 1 - $(\$400,000 \times .75) = \$300,000$ - Government's share of total design costs

Step 2 - $\$300,000 - \$75,000 = \$225,000$ – reimbursement due to sponsor

C. The blank in Article IV.A.2. should be filled in with the date (month, year) of the first quarterly report of costs to be provided to the sponsor.

13. ARTICLE IV.C. - FINAL ACCOUNTING.

A. When a final accounting cannot be conducted in a timely manner because of

outstanding claims and appeals, an interim accounting should be conducted. The district should use its best judgment in determining whether to conduct an interim accounting or wait for final resolution of outstanding claims and appeals.

B. Nothing in the agreement, prevents any interim accountings from being conducted prior to the end of the period of design.

14. ARTICLE VI – HOLD AND SAVE. - Include the optional language after the colon only if optional Article XIV - Obligations of Future Appropriations (see note 17) is included in the agreement and the sponsor requests this optional language be added to Article VI of the agreement. In addition, if this language is included, delete the “The”. Reminder: The entire article is not optional as only the phrase shown in the brackets is optional.

15. ARTICLE XI - NOTICES. – Insert the full address of the sponsor and Government - including titles or office title/symbol of individuals to receive the notices. Do not include the name of the individual to receive the notices as it may change throughout the life of the agreement.

16. ARTICLE XIII – THIRD PARTY RIGHTS, BENEFITS, OR LIABILITIES. – Article XIII is optional and can be deleted if requested by the sponsor. If the article is deleted, renumber the remaining articles in the agreement and verify the references throughout the agreement to the remaining articles. In particular, if the article addressing Obligations of Future Appropriations is included in the agreement, and the sponsor requests the optional language in Article VI (see note 14) verify the reference contained in Article VI to the article addressing Obligations of Future Appropriations and correct, as necessary. Renumbering the remaining articles in the agreement and correction of all references to the remaining articles are not considered a deviation from the model.

17. ARTICLE XIV – OBLIGATIONS OF FUTURE APPROPRIATIONS. - Include optional Article XIV in the agreement only if the sponsor requests this language and only after your District Counsel determines, in writing after review of information supporting the request from the sponsor, that the sponsor is a State agency or a political subdivision of the State that derives its funds for the project directly from appropriations and the sponsor has constitutional or statutory limitations prohibiting it from committing future appropriations. The information to be added in the first three blanks in Article XIV.A. should identify the body that makes the appropriations. (Example: Legislature of the State of Ohio or City Counsel of the City of Cleveland)

18. ARTICLE XIV.A. - ADDITIONAL RESTRICTION ON OBLIGATIONS OF FUTURE APPROPRIATIONS. - Include the optional language after the colon if requested by the sponsor. The information to be included in the blanks should provide more detailed information on the location of the obligation of future appropriations restriction. (Example: Section 7 of the City Charter of the City of Cleveland)

19. SPONSOR’S BUDGET CYCLE. - Choose Option (1) if the sponsor has a 1 year budget

cycle or Option (2) if the sponsor has a 2 year budget cycle.

20. ARTICLE XV – TRIBAL SOVEREIGN IMMUNITY. – Include optional Article XV only if the sponsor is a Native American Tribe. The information to be included in the first and third blanks should be the name of the instrument (resolution, ordinance, etc) where the sponsor has waived sovereign immunity. The information to be included in the fourth blank should be the title of the sponsor’s representative (see note 5).

21. TITLE OF GOVERNMENT REPRESENTATIVE. – Insert the title of the Government representative signing the agreement. Do not include the name, only the title. If the signature authority is delegated to the district, the phrase “District Engineer” should be used in this location. If the signature authority is not delegated, the title shown should match the title of the Government representative shown in the first paragraph (see note 3).

22. CERTIFICATE OF AUTHORITY. - The person signing the Certificate of Authority cannot be the signatory to the agreement. The person signing the Certificate of Authority is certifying that the signatory to the agreement has the authority to obligate the sponsor. Do not forget to fill in the name in the first line prior to execution of the agreement.

23. PREPARING AGREEMENT FOR SIGNATURE.

A. When printing the agreement for execution: 1) remove the cover page, notes section, bold type references to notes, and any bold type text from the agreement; 2) ensure that the appropriate information has been included in all blanks in the agreement and the Certificate of Authority; 3) ensure that titles of articles are not the last thing at the bottom of the page; and 4) ensure that there are no page breaks which allow half empty pages. **Reminder: Do not remove any of the *italics* from the agreement.**

B. If the signature authority has been delegated to the District Engineer: 1) the title of the Government representative in the first paragraph (see note 3) should be “U.S. Army Engineer, _____ District”; 2) the title of the Government representative in the last paragraph (see note 21) should be “District Engineer”; and 3) since this is a civilian document use the civilian version of the District Engineer’s signature block.

C. If the signature authority is not delegated, the title in the first paragraph (see note 3) and last paragraph should match the title of the Government representative shown in the signature block.

D. Before signature by the Government representative, ensure that the sponsor signs and dates a minimum of four copies of the agreement, and Certification Regarding Lobbying, and that the Certificates of Authority are signed and dated by the appropriate people. The date on the first page should be filled in by the Government representative signing the agreement, not the sponsor.

E. The Government should retain two fully executed copies of the agreement. All other copies should be provided to the sponsor. A photocopy or a pdf file (as determined

by the MSC and the appropriate HQ RIT) of the fully executed agreement should be provided to the MSC and to the appropriate HQ RIT within 14 days after execution of the agreement.

1. The Non-Federal Sponsor shall require all contractors to whom it awards design contracts to provide 30 percent and 100 percent design information to enable in-progress review of the design. The Government may participate in the review of the design at each stage of completion and may provide technical assistance to the Non-Federal Sponsor on an as-needed basis until the end of the *period of design*. The Government shall perform a final review to verify that the design is complete and is necessary for the *Project*. Upon completion of design, the Non-Federal Sponsor shall furnish the District Engineer with copies of the completed design.

2. Using information developed by the Non-Federal Sponsor, the Government shall develop and coordinate as required, an Environmental Assessment and Finding of No Significant Impact or an Environmental Impact Statement and Record of Decision, as necessary, to inform the public regarding the environmental impacts of the *Project* in accordance with the National Environmental Policy Act of 1969.

The Non-Federal Sponsor shall consider in good faith the comments of the Government, but the contents of solicitations, award of contracts or commencement of design using the Non-Federal Sponsor's own forces, execution of contract modifications, resolution of contract claims, and performance of all design on the *Project* shall be exclusively within the control of the Non-Federal Sponsor.

5. At the time the Non-Federal Sponsor furnishes a contractor with a notice of acceptance of completed work for each contract for the *Project*, the Non-Federal Sponsor shall furnish a copy thereof to the Government.

3. The Non-Federal Sponsor's costs for design that may be eligible for inclusion in *total design costs* shall be subject to an audit in accordance with Article VII.C. of this Agreement to determine the reasonableness, allocability and allowability of such costs.

4. The Non-Federal Sponsor's costs for design that may be eligible for inclusion in *total design costs* pursuant to this Agreement are not subject to interest charges, nor are they subject to adjustment to reflect changes in price levels between the time the work is completed and the time the costs are included in *total design costs*.

5. The Government shall not include in *total design costs* any costs paid by the Non-Federal Sponsor using *Federal program funds* unless the Federal agency providing the Federal portion of such funds verifies in writing that expenditure of such funds for such purpose is expressly authorized by Federal law.

[SEE NOTE - 9]

C. The Government shall reimburse the Non-Federal Sponsor, in accordance with Article IV.B. of this Agreement, the amount necessary so that the Federal contribution towards *total design costs* equals 75 percent; however, any reimbursement by the Government is subject to the availability of funds and is limited by the *Section 592 Program Limit*.

[SEE NOTE - 10]

D. Notwithstanding any other provision of this Agreement, Federal financial participation in the *Project* is limited by the following provisions of this paragraph.

1. As of the effective date of this Agreement, \$_____ of Federal funds have been provided by the Congress of the United States (hereinafter the “Congress”) for the Section 592 Program of which \$_____ is currently projected to be available for the *Project*. The Government makes no commitment to request Congress to provide additional Federal funds for the Section 592 Program or the *Project*. Further, the Government’s financial participation in the *Project* is limited to the Federal funds that the Government makes available to the *Project*.

2. In the event the Government projects that the amount of Federal funds the Government will make available to the *Project* through the then-current *fiscal year*, or the amount of Federal funds the Government will make available for the *Project* through the upcoming *fiscal year*, is not sufficient to meet the Federal share of *total design costs* that the Government projects to be incurred through the then-current or upcoming *fiscal year*, as applicable, the Government shall notify the Non-Federal Sponsor in writing of such insufficiency of funds and of the date the Government projects that the Federal funds that will have been made available to the *Project* will be exhausted. Upon the exhaustion of Federal funds made available by the Government to the *Project*, the Government’s future performance under this Agreement shall be suspended and the parties shall proceed in accordance with Article X.B. of this Agreement. However, if the Government cannot make available sufficient Federal funds to meet the Federal share of *total project costs* in the then-current *fiscal year* solely due to the *Section 102 Limit*, only the Government’s future performance related to reimbursement pursuant to paragraph C. of this Article shall be suspended.

3. If the Government determines that the total amount of Federal funds provided by Congress for the Section 592 Program has reached the *Section 592 Program Limit*, and the Government projects that the Federal funds the Government will make available to the *Project* within the *Section 592 Program Limit* will not be sufficient to meet the Federal share of *total design costs*, the Government shall notify the Non-Federal Sponsor in writing of such insufficiency of funds and of the date the Government projects that the Federal funds that will have been made available to the *Project* will be exhausted. Upon the exhaustion of Federal funds made available by the Government to the *Project* within the *Section 592 Program Limit*, the parties shall terminate this Agreement and proceed in accordance with Article X of this Agreement.

E. Upon conclusion of the *period of design*, the Government shall conduct an accounting, in accordance with Article IV.C. of this Agreement, and furnish the results to the Non-Federal Sponsor.

F. The Non-Federal Sponsor and the Government, in consultation with appropriate Federal and State officials, shall develop a facilities or resource protection and development plan. Such plan shall include necessary design, completion of all necessary NEPA compliance, preparation of appropriate engineering plans and specifications, and any other matters related to design of the *Project* in accordance with this Agreement.

G. The Non-Federal Sponsor shall identify such legal and institutional structures as are necessary to ensure the effective long-term operation of the *Project*. The Non-Federal Sponsor shall provide to the Government a description of such legal and institutional structures. The Non-Federal Sponsor's costs of identification of such legal and institutional structures shall be included in *total design costs* and shared in accordance with the provisions of this Agreement, subject to an audit in accordance with Article VII.C. of this Agreement to determine reasonableness, allocability, and allowability of costs.

H. The Non-Federal Sponsor shall not use *Federal program funds* to meet any of its obligations for the *Project* under this Agreement unless the Federal agency providing the Federal portion of such funds verifies in writing that expenditure of such funds for such purpose is expressly authorized by Federal law.

I. In the event that the Non-Federal Sponsor elects to include *betterments* in the design of the *Project* during the *period of design*, the Non-Federal Sponsor shall notify the Government in writing and describe the *betterments* it intends to design. The Non-Federal Sponsor shall be solely responsible for all costs due to *betterments* and shall pay all such costs without reimbursement by the Government.

[SEE NOTE - 6]

J. The Government shall determine and include in *total design costs* the reasonable costs incurred by the Non-Federal Sponsor for *pre-Agreement design work*, subject to the conditions and limitations of this paragraph, that have not been incurred pursuant to any other agreement for the *Project* but not to exceed 6 percent of *total construction costs of the Project*. The Non-Federal Sponsor in a timely manner shall provide the Government with such documents as are sufficient to enable the Government to determine the amount of costs to be included in *total design costs* for *pre-Agreement design work*.

1. *Pre-Agreement design work* shall be subject to a review by the Government to verify that the work was accomplished in a satisfactory manner and is necessary for the *Project*.

2. Where the Non-Federal Sponsor's cost for completed *pre-Agreement design work* is expressed as fixed costs plus a percentage of construction costs, the Non-Federal

Sponsor shall renegotiate such costs with its Architect-Engineer based on actual costs.

3. The Non-Federal Sponsor's costs for *pre-Agreement design work* that may be eligible for inclusion in *total design costs* shall be subject to an audit in accordance with Article VII.C. of this Agreement to determine the reasonableness, allocability and allowability of such costs.

4. The Non-Federal Sponsor's costs for *pre-Agreement design work* that may be eligible for inclusion in *total design costs* pursuant to this paragraph are not subject to interest charges, nor are they subject to adjustment to reflect changes in price levels between the time the *pre-Agreement design work* was completed and the time the costs are included in *total design costs*.

5. The Government shall not include in *total design costs* any costs for *pre-Agreement design work* paid by the Non-Federal Sponsor using *Federal program funds* unless the Federal agency providing the Federal portion of such funds verifies in writing that expenditure of such funds for such purpose is expressly authorized by Federal law.

This oversight of design of the *Project* shall be consistent with a project management plan developed by the Government and the Non-Federal Sponsor.

D. The Design Coordination Team may make recommendations to the Non-Federal Sponsor on matters related to design of the *Project* that the Design Coordination Team generally

oversees, including suggestions to avoid potential sources of dispute. The Non-Federal Sponsor in good faith shall consider the recommendations of the Design Coordination Team. The Non-Federal Sponsor, having the legal authority and responsibility for design of the *Project*, has the discretion to accept or reject, in whole or in part, the Design Coordination Team's recommendations except as otherwise required by the provisions of this Agreement, including compliance with applicable Federal, State, or local laws or regulations.

E. The Non-Federal Sponsor's costs of participation in the Design Coordination Team shall be included in *total design costs* and shared in accordance with the provisions of this Agreement, subject to an audit in accordance with Article VII.C. of this Agreement to determine reasonableness, allocability, and allowability of costs. These amounts are estimates subject to adjustment by the Government, after consultation with the Non-Federal Sponsor, and are not to be construed as the total financial responsibilities of the Government and the Non-Federal Sponsor.

2. By _____ and by each quarterly anniversary thereof until the conclusion of the *period of design* and resolution of all relevant claims and appeals, the Government shall provide the Non-Federal Sponsor with a report setting forth all contributions provided to date and the current projections of the following: *total design costs*; the Government's share of *total design costs*; the Non-Federal Sponsor's share of *total design costs*; *total design costs* incurred by the Government; *total design costs* incurred by the Non-Federal Sponsor; [SEE NOTE - 6: the costs included in *total design costs* for the *pre-Agreement design work* determined in accordance with Article II.J. of this Agreement;] and total reimbursements paid to the Non-

3. Within 30 calendar days after receipt of the *sufficient invoice* provided in accordance with paragraph B.1. of this Article (hereinafter the "payment period"), the Government shall: furnish the Non-Federal Sponsor written notice of the determinations made in accordance with paragraph B.2. of this Article; provide an explanation, if necessary, of why the payment amount is less than the amount of reimbursement determined due to the Non-Federal Sponsor; and make a payment to the Non-Federal Sponsor equal to the payment amount.

4. If the payment amount is not paid by the end of the payment period, the designated payment office shall credit to the Non-Federal Sponsor's account an interest penalty on the payment amount, without request from the Non-Federal Sponsor. Unless prescribed by other Federal authority, the interest penalty shall be at the rate established by the Secretary of the Treasury under Section 12 of the Contract Disputes Act of 1978 (41 U.S.C. 611) that is in effect on the first day after the end of the payment period.

[SEE NOTE - 13]

C. Upon conclusion of the *period of design* and resolution of all relevant claims and appeals, the Government shall conduct a final accounting and furnish the Non-Federal Sponsor with written notice of the results of such final accounting. If outstanding relevant claims and appeals prevent a final accounting from being conducted in a timely manner, the Government shall conduct an interim accounting and furnish the Non-Federal Sponsor with written notice of the results of such interim accounting. Once all outstanding relevant claims and appeals are resolved, the Government shall amend the interim accounting to complete the final accounting and furnish the Non-Federal Sponsor with written notice of the results of such final accounting. The interim or final accounting, as applicable, shall determine *total design costs*. In addition, for each set of costs, the interim or final accounting, as applicable, shall determine each party's required share thereof, and each party's total contributions thereto as of the date of such accounting.

1. Should the interim or final accounting, as applicable, show that the Government's total required share of *total design costs* exceeds the Government's total contributions provided thereto, the Government, no later than 90 calendar days after completion of the interim or final accounting, as applicable, shall make a payment to the Non-Federal Sponsor, subject to the availability of funds and as limited by the *Section 592 Program Limit* and the *Section 102 Limit*, in an amount equal to the difference.

ARTICLE V - DISPUTE RESOLUTION

As a condition precedent to a party bringing any suit for breach of this Agreement, that party must first notify the other party in writing of the nature of the purported breach and seek in good faith to resolve the dispute through negotiation. If the parties cannot resolve the dispute through negotiation, they may agree to a mutually acceptable method of non-binding alternative dispute resolution with a qualified third party acceptable to both parties. Each party shall pay an equal share of any costs for the services provided by such a third party as such costs are incurred. The existence of a dispute shall not excuse the parties from performance pursuant to this Agreement.
