

Reasons for Movement

711 – Inventory Adjustment Loss

712 – Inventory Adjustment Gain

Reminders

1. Manage AIT by using ZAiT in the portal
2. Use ZLX26 to start inventory and LX22 to manage inventory documents. Post counts in AIT or ZLi11N (non-serialized)
3. Use ZPODCHK to manage overdue shipment deliveries.
4. Use ZPODRPT to manage Supply Discrepancy Reports (SDR) generated at the SSA.
5. Use the Warehouse Activity Monitor (LL01) and LT23 to monitor unconfirmed Transfer Orders (TOs)
6. Use ZMD07X in the portal to manage excess stock
7. ZDWMSE – Use this transaction to validate items issued (Post-Post) when the warehouse comes back online after it was disconnected from the network.
