MILE 264.0 - AIDS TO NAVIGATION
A nun buoy and a can buoy have been reported not properly marking the channel in the vicinity of Mile 264.0. Transit with caution.

MILE 200.7 - MEL PRICE LOCK AND DAM - REPAIR
All navigation interests are advised that the main lock chamber will be closed during the period from 0600 on 20 August 2013 to 1700 on 23 August 2013. The closure is required to perform repairs to the main lock liftgate. The 600-ft auxiliary lock will be available for use during this time. However, no tow haulage unit exists on the auxiliary lock, so tows requiring double lockage must provide their own helper boat. All navigation interests should be alert for, and abide by, any special instructions that may be issued by the lockmaster.

MILE 80.8 - SUNKEN VESSEL/VISIBLE OBSTRUCTION
A sunken dredge has been reported in the vicinity of Mile 80.8, RDB. The vessel is awash with approximately 2-3 feet visible above the waters surface. The vessel is marked with 2 lighted buoys. The M/V SIR RANDY J is on-scene. Mariners are urged to transit the area at their slowest safe speed to minimize their wake.
