October 2013

### Military Health System Management Analysis and Reporting Tool (M2)

**M2 is a powerful ad-hoc query tool used to manage and oversee operations worldwide.**

#### **Product Features**

- Provide robust dynamic reporting capability in a secure Web environment
- Deliver summary and detailed clinical, population and financial data
- Run patient and provider profiling studies
- Analyze utilization management data

#### **Benefits to the Defense Health Agency**

- Migration to single enterprise platform resulting in improved reporting capabilities and significant savings to the enterprise
- Provide proactive health care management
- Monitor patients' use of services
- Support strategic health care planning
- Support the delivery of quality health care at an affordable cost, while improving medical readiness
