

the Hatch

Update:
25 September 2015

Updates:

- Community Involvement
- Ongoing Challenges
- Community Member

Community Member

Have you noticed many “community members” in the Hatch? This is because those members chose to keep their identity hidden during registration. That is quite acceptable; however, if you want to make the most of your community experience, try changing your profile so that your identity isn’t hidden and create an alias!

How?

Select your name at the top right of the screen, and select “Profile.” From here, you can enter an alias. After entering your alias, scroll down and unselect the “hidden identify” box for the Department of the Navy Innovation Hatch Community!

Community Involvement

Over the last month, a group of motivated and talented Naval Innovation Network members have been volunteering to meet weekly and analyze your ideas. The analyze phase takes a quick look at the idea to determine if it has the potential to be developed into a proposal. The group considers factors such as ease of implementation, required resources, how quickly it could be implemented, what barriers might exist, and to determine if the idea could be implemented locally, advanced to the propose stage, or preserved until the idea can be more clearly articulated.

IDEATE 148 IDEAS
ANALYZE 3 IDEAS
PROPOSE 30 IDEAS
DECIDE 7 IDEAS
CONCLUDE 16 IDEAS

How can you get involved?

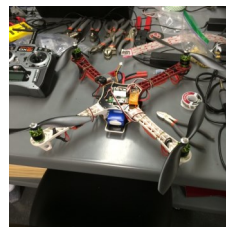

- 1) Click on any of the stages to see what ideas have progressed through the stage.
- 2) Comment on any of the ideas in the Ideate, Analyze, or Propose Stages.
- 3) Champion your idea through the Propose Stage!

We need YOU to participate in the Propose Stage. Email us to find out how!

Challenges!

Now through October 1, 2015

Now through October 12, 2015

Fab Lab Challenge

What kind of capability demonstrations should be at a Fab Lab?
At what locations in the DON would the Fab Lab add the most value?

“Innovation combines the ideas, insights, & resources of our Sailors, Marines & civilians in new ways to benefit the naval services.”

Strategy and Innovation,
Department of the Navy
