## JULY TRAINING SESSIONS

Interested in taking an NHI training course in July?

There are more than [30](#) NHI courses currently scheduled across the country in the month of July. Visit the [NHI Web site](#) to see a list of this month's training sessions.

If you can't make it to any of NHI's in-person, Instructor-led trainings, you can always take a self-paced, Web-based training (WBT). NHI now offers more than 130 WBTs. Click [here](#) to see a complete list of NHI's WBTs.

## NHI Welcomes Korean Delegation

This July, NHI welcomes the delegation from the Korean Institute of Construction Technology for the seventh annual Pavement Engineering and Management training program. Fourteen Korean engineers and managers will attend the program, which takes place July 9-13, 2012 at the NHI training facility in Arlington, VA. The trip concludes with four days of visits to State departments of transportation in Pennsylvania, New Jersey, Massachusetts, and New York.

This 4.5-day training will present valuable information drawn from four NHI trainings: [131062](#) Portland Cement Concrete Pavement Evaluation and Rehabilitation; [131063](#) Hot-Mix Asphalt Pavement Evaluation and Rehabilitation; [131050A](#) Asphalt Pavement In-Place Recycling Technologies; and [131115](#) Pavement Preservation: Preventive Maintenance Treatment, Timing and Selection.

Please visit the [NHI Web site](#) to learn more about these and other NHI courses.

## NHI-Hosted Trainings at Arlington Facilities

In response to requests from the transportation community, NHI will host a series of NHI courses at our training facilities located in Arlington, VA.

**QUESTIONS?**

**E-mail NHI Marketing  
at  
[nhimarketing@dot.gov](mailto:nhimarketing@dot.gov)**

NHI will present our most popular courses and others not widely offered in individual States.

NHI's modern facilities feature the tools and equipment necessary to ensure a productive and engaging learning environment. Additionally, we are housed within 15 minutes of the Nation's capital. We welcome the opportunity to host transportation professionals from across the country as well as from the D.C. metro area.

For more information about upcoming trainings at NHI's training facilities, be sure to [subscribe to NHI News and Updates](#).

## **Course Spotlight: 380093 Application of Crash Modification Factors (CMF)**

This course focuses on the application of Crash Modification Factors to select countermeasures. The course covers the project development cycle (starting from network screening and site selection for safety review), diagnostics of safety concerns, cost-benefit evaluation, and countermeasure selection.

This course combines a Web conference and a self-paced lesson that aids in application to your current projects. You will need access to both a telephone and internet connection to participate in the live Web sessions.

Upon completion of the course, you will be able to:

- Explain how Crash Modification Factors are used to estimate the safety effects of highway improvements
- Apply Crash Modification Factors to compare and select highway safety improvements

This course is intended for individuals that have the responsibility for identifying, recommending, selecting, installing, and maintaining appropriate countermeasures to help reduce the number of crashes.

Please visit the [NHI Web site](#) to learn more about hosting or participating in this course.
