

## USDOT CLIMATE CHANGE WEBSITE Submissions

This clearinghouse has been developed as part of an NCHRP project ([NCHRP 25-25 \(44\)](#)) that was conducted by FHWA. The website was announced at the 2009 TRB Annual Meeting and is now being maintained by The National Transportation Library (NTL). The scope of the clearinghouse and instructions for submitting resources are listed below.

### Scope of Clearinghouse for USDOT

USDOT is conducting monthly literature searches of the following publications, agencies and organizations and any relevant items will be linked to from the Clearinghouse.

#### *Journals & publications*

All peer reviewed journals

- Transport Policy
- Transportation Research under Elsevier (A-F)
- TRB
  - TCRP
  - NCHRP
  - TR News
- TRIS database
- Science
- University Transportation Centers
- Journal of American Planning Association
- Climate Change
- ENO
- [Encyclopedia of the Earth](#)

#### *Federal and International Government Organizations*

- DOT publications
- EPA
- UN
  - IPCC
  - ICAO
  - IMO
- DOE
- USDA
- NSF
- NOAA
- CCSP
- CCTP
- European Commission
- Canada
  - NRCAN
  - Environment Canada
  - Transport Canada
- Foreign Governments subject to review
- Foreign transport providers subject to review
- JITI
- OECD
- PIARC

#### *NGO/think tank/industry*

- AASHTO
- APTA
- Environmental Defense
- PEW
- Center for Clean Air Policy
- Resources for the Future
- UIC
- Union of Concerned Scientists
- American Trucking Association
- Air Transport Association
- Brookings Institution
- Urban Institute
- Urban Land Institute
- Smart Growth America
- National Center for Smart Growth
- Reconnecting America
- Lincoln Institute for Land Use
- World Resources Institute
- UITP
- Natural Resources Defense Council
- American Petroleum Institute
- Cato Institute

- American Association of Railroads
- EDTA
- Edison Electric
- EPRI
- American road and transportation builders association
- Proceedings of the National Academy of Sciences
- AMPO
- American Planning Assoc

**Guidance for preparing State and Regional Climate Change resource materials:**

The state climate change resource is intended to provide easy access to publicly available reference material on transportation-related climate change activities in each state. The Transportation Knowledge Network (TKN) partners would provide material from their organizations/states that are not already covered on the website or by one of the organizations monitored by USDOT. Material may be provided by TKN Members. It is requested that multiple members within one state coordinate their submissions to avoid duplication. Please send draft materials to Roger Garren, Reference Librarian, National Transportation Library, at [roger.garren@dot.gov](mailto:roger.garren@dot.gov). If you have questions, please call him at 202-366-5684.

Submitting your material

To support faster publication of the resources, please use the following formatting to prepare your draft resource list.

1. Prepare the document in MS Word. Do NOT use formatting such as bullets and tabs as the information will need to be reformatted to the web site.
2. Links to websites: Provide a title of the website; the URL; and a brief description of the site.
3. Documents: Provide the following information:
  - a. Title
  - b. Author (R)
  - c. Publication Date (format: yyyy-mm-dd)
  - d. Short Abstract/Description (1-2 sentences)
  - e. Category (e.g., GHG Reduction Strategies, GHG Inventories, Adaptation to Climate Change [full list forthcoming])
  - f. URL

Examples:

**Transportation and Greenhouse Gas Mitigation (2008)**

University of California at Davis - Institute of Transportation Studies

This paper describes GHG mitigation strategies for transportation, grouped into three categories: vehicle efficiency, low carbon fuels, and travel reduction. Categories are grouped into near and mid-term options, and co-benefits are noted. [http://pubs.its.ucdavis.edu/publication\\_detail.php?id=1136](http://pubs.its.ucdavis.edu/publication_detail.php?id=1136)

**Washington Climate Action Team web site**

Information on the Governor's Climate Action Team and state initiated activities underway in Washington. [http://www.ecy.wa.gov/climatechange/2008CAT\\_overview.htm](http://www.ecy.wa.gov/climatechange/2008CAT_overview.htm)

**Washington State Transportation Implementation Working Group**

Information on meetings, recommendations and resources materials of the Transportation Implementation Working Group. This group is a subcommittee of the Governor's Climate Action Team. [http://www.ecy.wa.gov/climatechange/2008CAT\\_iwg\\_tran.htm](http://www.ecy.wa.gov/climatechange/2008CAT_iwg_tran.htm)

**WSDOT Climate Change web site (2008; active)**

Provides information on Washington State DOT climate change activities. <http://www.wsdot.wa.gov/environment/climatechange/>
