1. OVERVIEW

1.1 Background

The Department of Transportation, Transportation Services Division (TRANServe), administers the Transit Benefit Program for DOT and as Service Provider to other federal agencies, nation-wide. The Office currently supports federal agencies and sub-agencies, providing timely and efficient transit benefit program services to customers who will use TRANServe's Transit Benefit Application System. Services include purchasing and distributing mass transit fare media.

TRANServe's Electronic Application System serves as the publicly accessible interface for managing Transit Benefit Program Applications. The current application system is available on-line through the internet and is optimized for desktop and mobile devices. Federal government employees can apply for the transit benefit, request information, withdraw from the program and recertify. Agency Program Offices and Approvers are able to view, update, approve, or disapprove applications using the System.
