Eastern Federal Lands Access Program Call for Projects Alert

Greetings:

Federal Highway Administration Eastern Federal Lands (EFL) will be accepting Federal Lands Access Program (FLAP) applications in order to develop a four year program of projects for Fiscal Years (FY) 2015 through FY 2018. Project approvals will be contingent upon availability of funds. EFL will be accepting project applications from the following Southeastern states:

Connecticut, District of Columbia, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia and West Virginia

The call for projects opens January 19, 2015 and runs through April 17, 2015. Please explore our EFL FLAP website located at <http://www.efl.fhwa.dot.gov/programs/federal-lands-access.aspx> and follow the links to the state FLAP website to download the application, review the state's program goals and view the call for projects standard operating procedure and associated scoring criteria. Applications should be submitted via email to EFL.planning@dot.gov by **April 17, 2015.**

Proposed projects or studies must be located on a public highway, road, bridge, trail or transit system that is located on, is adjacent to, or provides access to Federal lands for which the facility title or maintenance responsibility is vested with a State, county, city, township, tribal, municipal, or local government. Generally, a 20% matching share of the project total is required for this program. Other Federal (non-title 23 or 49, with the exception of FLTP) funds may be used as match.

All projects must be submitted using the EFL Access Program Application form (attached). The applicant must be the facility owner, have maintenance responsibility or must supply a letter from the facility owner/maintainer indicating the application is being submitted on their behalf. Project applications must be sponsored by the appropriate Federal Land Management Agency (FLMA) with an application signature and/or letter of support.

You are welcome to contact any of the Programming Decisions Committee members with your questions using the contact information contained in the website. We also invite you to view a brief presentation titled EFL FLAP Informational Presentation located on the EFL FLAP website referenced above that may be helpful. Also please find attached an EFL FLAP Fact Sheet with Tips for submitting a good application, for your use and outreach efforts.

EFL has found that a higher level of outreach at local levels has increased both the number and the quality of competitive applications submitted and ultimately recommended for project programming.

FLMAs: We appreciate your efforts in the provision of an expanded outreach to your units regarding this program opportunity.

State DOTs: We appreciate your efforts in the provision of an expanded outreach regarding this program opportunity to your Districts and Local Agency Program Coordinators (if applicable) via email and/or on your websites.

Local Agency Representatives: We appreciate your efforts in the provision of an expanded outreach regarding this program opportunity to other County and Local agencies in your state via email and/or on your local websites.

Thank-you for your interest in the FLAP program and we look forward to developing a program of projects for the future.
