INTRODUCTION

This report contains staff comments, tables and charts on the financial condition of the U.S. major airlines.

The data are presented on both a carrier group and an individual carrier basis, but the primary focus is on the individual major carrier and its performance. Data are presented for the most recent quarterly period and the comparable quarter a year earlier and also on a 12-month ended basis as at the end of the five most recent quarters. In addition, data on charges over comparable periods 12-months earlier are presented. A graphic presentation of comparative trends, on a carrier group basis, is made for several unit and overall financial indicators. In the case of merged carriers, data for the carriers involved have been combined and presented under the name of the surviving carrier so that meaningful comparisons could be made.

All data presented in this financial and traffic review are derived from data reported to the U.S. Department of Transportation on Form 41 Schedules by Large Certificated Air Carriers. For comparison purposes, this analysis is limited to the major scheduled passenger and all-cargo air carriers only. Alaska Airlines, with revenues exceeding \$1 billion in calendar year 1995, became a major airline effective January 1, 1996, and is now included in this review. All financial and traffic results have been retroactively restated to include the operations of Alaska. Certain data in this review is classified in two broad categories: namely "domestic" and "international". "Domestic" encompasses operations within and between the 50 states of the United States, the District of Columbia, the Commonwealth of Puerto Rico, and the U.S. Virgin Islands. It also encompasses Canadian transborder operations and for certain carriers Mexican transborder operations. All other operations are considered "international", which is separated into Atlantic, Latin, and Pacific.

Suggestions from users for the improving either the scope, presentation, or utility of this review are invited. It will also be appreciated if suggestions, discrepancies, and errors in the data are called to the attention of the Economic & Financial Division, Office of Aviation Analysis, Office of the Secretary, U.S. Department of Transportation, Washington, D.C. 20590.
