SECTION 1. SHORT TITLE; FINDINGS.

(a) **SHORT TITLE.**—This Act may be cited as the “Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001”.

(b) **FINDINGS.**—Congress makes the following findings:

(1) Representative Floyd D. Spence of South Carolina was elected to the House of Representatives in 1970, for service in the 92d Congress, after serving in the South Carolina legislature for 10 years, and he has been reelected to each subsequent Congress.

(2) Representative Spence came to Congress as a distinguished veteran of service in the Armed Forces of the United States.

(3) Upon graduation from college in 1952, Representative Spence was commissioned as an ensign in the United States Naval Reserve. After entering active duty, he served with distinction aboard the USS CARTER HALL and the USS LSM-397 during the Korean War and later served as commanding officer of a Naval Reserve Surface Division and as group commander of all Naval Reserve units in Columbia, South Carolina. Representative Spence retired from the Naval Reserve in 1988 in the grade of captain, after 41 years of dedicated service.

(4) Upon election to the House of Representatives, Representative Spence became a member of the Committee on Armed Services of that body. During 30 years of service on that committee (4 years of which were served while the committee was known as the Committee on National Security), Representative Spence’s contributions to the national defense and security of the United States have been profound and long lasting.

(5) Representative Spence served as chairman of that committee while known as the Committee on National Security during the 104th and 105th Congresses and serves as chairman of that committee for the 106th Congress. In addition, Representative Spence served as the ranking minority member of the Committee on Armed Services during the 103d Congress.

(6) Dozens of awards from active duty and reserve military, veterans service, military retiree, and industry organizations and associations have recognized the distinguished character of Representative Spence’s service to the Nation.

(7) Representative Spence has been a leading figure in the debate over many of the most critical military readiness, health care, recruiting, and retention issues currently confronting the Nation’s military. His concern for the men and women in uniform has been unwavering, and his accomplishments in promoting and gaining support for those issues that preserve

the combat effectiveness, morale, and quality of life of the Nation's military personnel have been unparalleled.

(8) During his tenure as chairman of the Committee on National Security and the Committee on Armed Services of the House of Representatives, Representative Spence has—

(A) led efforts to identify and reverse the effect that declining resources and rising commitments have had on military quality of life for service members and their families, on combat readiness, and on equipment modernization, with a direct result of those diligent efforts and of his willingness to be an outspoken proponent for America's military being that Congress has added nearly \$50,000,000,000 to the President's defense budgets over the past 5 years;

(B) been a leading proponent of the need to expeditiously develop and field a national missile defense to protect American citizens and forward deployed military forces from growing ballistic missile threats;

(C) advocated reversing the growing disparity between actual military capability and the requirements associated with the National Military Strategy; and

(D) led efforts in Congress to reform Department of Defense acquisition and management headquarters and infrastructure and business practices.

(9) This Act is the 30th annual authorization bill for the Department of Defense for which Representative Spence has taken a major responsibility as a member of the Committee on Armed Services of the House of Representatives (including 4 years while that committee was known as the Committee on National Security).

(10) In light of the findings in the preceding paragraphs, it is altogether fitting and proper that this Act be named in honor of Representative Floyd D. Spence of South Carolina, as provided in subsection (a).

(3) A comparison of the effects on the destroyer industrial base and on costs to other Navy shipbuilding programs of the following two options:

(A) Commencing construction of the first destroyer in that class during fiscal year 2004, with delivery of the completed ship during fiscal year 2009, and delaying commencement of construction of the next destroyer in that class until fiscal year 2006.

(B) Commencing construction of the first destroyer in that class during fiscal year 2005 (rather than fiscal year 2004), with advance procurement during fiscal year 2004 and delivery of the completed ship during fiscal year 2010, and delaying commencement of construction of the next destroyer in that class until fiscal year 2007 (rather than fiscal year 2006).

(4) The effects on the fleet maintenance strategies of Navy fleet commanders, on commercial maintenance facilities in fleet concentration areas, and on the administration of funds in compliance with section 2466 of title 10, United States Code, of awarding to a contractor for the construction of a destroyer in that class all maintenance workloads for destroyers in that class that are below depot-level maintenance and above ship-level maintenance.

SEC. 377. REPORT ON AIR FORCE SPARE AND REPAIR PARTS PROGRAM FOR C-5 AIRCRAFT.

(a) **FINDINGS.**—Congress makes the following findings:

(1) There exists a significant shortfall in the Nation's current strategic airlift requirement, even though strategic airlift remains critical to the national security strategy of the United States.

(2) This shortfall results from the slow phase-out of C-141 aircraft and their replacement with C-17 aircraft and from lower than optimal reliability rates for the C-5 aircraft.

(3) One of the primary causes of these reliability rates for C-5 aircraft, and especially for operational unit aircraft, is the shortage of spare repair parts. Over the past 5 years, this shortage has been particularly evident in the C-5 fleet.

(4) Not Mission Capable for Supply rates for C-5 aircraft have increased significantly in the period between 1997 and 1999. At Dover Air Force Base, Delaware, for example, an average of 7 to 9 C-5 aircraft were not available during that period because of a lack of parts.

(5) Average rates of cannibalization of C-5 aircraft per 100 sorties of such aircraft have also increased during that period and are well above the Air Mobility Command standard. In any given month, this means devoting additional manhours to cannibalization of C-5 aircraft. At Dover Air Force Base, for example, an average of 800 to 1,000 additional manhours were required for cannibalization of C-5 aircraft during that period. Cannibalization is often required for aircraft that transit through a base such as Dover Air Force Base, as well as those that are based there.

(6) High cannibalization rates indicate a significant problem in delivering spare parts in a timely manner and systemic problems within the repair and maintenance process, and also demoralize overworked maintenance crews.

(7) The C–5 aircraft remains an absolutely critical asset in air mobility and airlifting heavy equipment and personnel to both military contingencies and humanitarian relief efforts around the world.

(8) Despite increased funding for spare and repair parts and other efforts by the Air Force to mitigate the parts shortage problem, Congress continues to receive reports of significant cannibalization to airworthy C–5 aircraft and parts backlogs.

(b) REPORT REQUIRED.—Not later than January 1, 2001, and September 30, 2001, the Secretary of the Air Force shall submit to Congress a report on the overall status of the spare and repair parts program of the Air Force for the C–5 aircraft.

(c) ELEMENTS OF REPORT.—Each report shall include the following:

(1) A statement of the funds currently allocated to the acquisition of spare and repair parts for the C–5 aircraft and the adequacy of such funds to meet current and future repair and maintenance requirements for that aircraft.

(2) A description of current efforts to address shortfalls in the availability of spare and repair parts for the C–5 aircraft, including an assessment of potential short-term and long-term effects of such efforts.

(3) An assessment of the effects of such parts shortfalls on readiness and reliability ratings for the C–5 aircraft.

(4) A description of rates at which spare and repair parts for one C–5 aircraft are taken from another C–5 aircraft (known as parts cannibalization) and the manhours devoted to part cannibalization of such aircraft.

(5) An assessment of the effects of parts shortfalls and parts cannibalization with respect to C–5 aircraft on readiness and retention.

(1) shall be determined by the Secretary of the Army, based on a review of the information that, as of the date of the enactment of this Act, has been authenticated by the director of the Naval Historical Center, Washington, D.C., pertaining to the interment of remains of certain unknown casualties from the U.S.S. ARIZONA who died as a result of the Japanese attack on Pearl Harbor on December 7, 1941; and

(2) shall, at a minimum, indicate that the interred remains are from the U.S.S. ARIZONA.

(c) **LIMITATION OF SCOPE OF SECTION.**—This section does not impose any requirement on the Secretary of the Army to undertake a review of any information pertaining to the interred remains of any unknown person other than as provided in subsection (b).

SEC. 545. SENSE OF CONGRESS ON THE COURT-MARTIAL CONVICTION OF CAPTAIN CHARLES BUTLER McVAY, COMMANDER OF THE U.S.S. INDIANAPOLIS, AND ON THE COURAGEOUS SERVICE OF THE CREW OF THAT VESSEL.

(a) **FINDINGS.**—Congress makes the following findings:

(1) Shortly after midnight on the morning of July 30, 1945, during the closing days of World War II, the United States Navy heavy cruiser U.S.S. Indianapolis (CA-35) was torpedoed and sunk by the Japanese submarine I-58 in what became the worst sea disaster in the history of the United States Navy.

(2) Although approximately 900 of the ship's crew of 1,196 survived the actual sinking, only 316 of those courageous sailors survived when rescued after four and a half days adrift in

the open sea, the remainder having perishing from battle wounds, drowning, predatory shark attacks, exposure to the elements, and lack of food and potable water.

(3) Rescue for the remaining 316 sailors came only when they were spotted by chance by Navy Lieutenant Wilbur C. Gwinn while flying a routine naval air patrol mission.

(4) After the end of World War II, the commanding officer of the U.S.S. Indianapolis, Captain Charles Butler McVay, III, who was rescued with the other survivors, was court-martialed for “suffering a vessel to be hazarded through negligence” by failing to zigzag (a naval tactic employed to help evade submarine attacks) and was convicted even though—

(A) the choice to zigzag was left to Captain McVay’s discretion in his orders; and

(B) Motchisura Hashimoto, the commander of the Japanese submarine that sank the U.S.S. Indianapolis, and Glynn R. Donaho, a United States Navy submarine commander highly decorated for his service during World War II, both testified at Captain McVay’s court-martial trial that the Japanese submarine could have sunk the U.S.S. Indianapolis whether or not it had been zigzagging, an assertion that has since been reaffirmed in a letter to the Chairman of the Committee on Armed Services of the Senate dated November 24, 1999.

(5) Although not argued by Captain McVay’s defense counsel in the court-martial trial, poor visibility on the night of the sinking (as attested in surviving crew members’ handwritten accounts recently discovered at the National Archives) justified Captain McVay’s choice not to zigzag as that choice was consistent with the applicable Navy directives in force in 1945, which stated that, “During thick weather and at night, except on very clear nights or during bright moonlight, vessels normally cease zig-zagging.”

(6) Before the U.S.S. Indianapolis sailed from Guam on what became her final voyage, Naval officials failed to provide Captain McVay with available support that was critical to the safety of the U.S.S. Indianapolis and her crew by—

(A) disapproving a request made by Captain McVay for a destroyer escort for the U.S.S. Indianapolis across the Philippine Sea as being “not necessary”;

(B) not informing Captain McVay that naval intelligence sources, through signal intelligence (the Japanese code having been broken earlier in World War II), had become aware that the Japanese submarine I-58 was operating in the area of the U.S.S. Indianapolis’ course (as disclosed in evidence presented in a hearing of the Committee on Armed Services of the Senate conducted September 14, 1999); and

(C) not informing Captain McVay of the sinking of the destroyer escort U.S.S. Underhill by a Japanese submarine within range of the course of the U.S.S. Indianapolis four days before the U.S.S. Indianapolis departed Guam for the Philippine Islands.

(7) Captain McVay’s court-martial initially was opposed by his immediate command superiors, Fleet Admiral Chester Nimitz (CINCPAC) and Vice Admiral Raymond Spruance of the 5th fleet, for whom the U.S.S. Indianapolis had served

as flagship, but, despite their recommendations, Secretary of the Navy James Forrestal ordered the court-martial, largely on the basis of the recommendation of Fleet Admiral Ernest King, Chief of Naval Operations.

(8) There is no explanation on the public record for the overruling by Secretary Forrestal of the recommendations made by Admirals Nimitz and Spruance.

(9) Captain McVay was the only commander of a United States Navy vessel lost in combat to enemy action during World War II who was subjected to a court-martial trial for such a loss, even though several hundred United States Navy ships were lost in combat to enemy action during World War II.

(10) The survivors of the U.S.S. Indianapolis overwhelmingly conclude that Captain McVay was not at fault in the loss of the U.S.S. Indianapolis and have dedicated their lives to vindicating their Captain McVay.

(11) Although promoted to the grade of rear admiral in accordance with then-applicable law upon retirement from the Navy in 1949, Captain McVay never recovered from the stigma of his post-war court-martial and in 1968, tragically, took his own life.

(12) Charles Butler McVay, III—

(A) was a graduate of the United States Naval Academy;

(B) was an exemplary career naval officer with an outstanding record (including participation in the amphibious invasions of North Africa, the assault on Iwo Jima, and the assault on Okinawa where the U.S.S. Indianapolis under his command survived a fierce kamikaze attack);

(C) was a recipient of the Silver Star earned for courage under fire during the Solomon Islands campaign; and

(D) with the crew of the U.S.S. Indianapolis, had so thoroughly demonstrated proficiency in naval warfare that the Navy entrusted him and the crew of the U.S.S. Indianapolis with transporting to the Pacific theater components necessary for assembling the atomic bombs that were exploded over Hiroshima and Nagasaki to end the war with Japan (delivery of such components to the island of Tinian having been accomplished on July 25, 1945).

(b) SENSE OF CONGRESS CONCERNING CHARLES BUTLER MCVAY, III.—With respect to the sinking of the U.S.S. Indianapolis (CA-35) on July 30, 1945, and the subsequent court-martial conviction of the ship's commanding officer, Captain Charles Butler McVay, III, arising from that sinking, it is the sense of Congress, based on the review of evidence by the Senate and the House of Representatives—

(1) that, in light of the remission by the Secretary of the Navy of the sentence of the court-martial and the restoration of Captain McVay to active duty by the Chief of Naval Operations, Fleet Admiral Chester Nimitz, the American people should now recognize Captain McVay's lack of culpability for the tragic loss of the U.S.S. Indianapolis and the lives of the men who died as a result of the sinking of that vessel; and

(2) that, in light of the fact that certain exculpatory information was not available to the court-martial board and that Captain McVay's conviction resulted therefrom, Captain

McVay's military record should now reflect that he is exonerated for the loss of the U.S.S. Indianapolis and so many of her crew.

(c) UNIT CITATION FOR FINAL CREW OF U.S.S. INDIANAPOLIS.—The Secretary of the Navy should award a Navy Unit Commendation to the U.S.S. Indianapolis (CA-35) and her final crew.

SEC. 546. POSTHUMOUS ADVANCEMENT ON RETIRED LIST OF REAR ADMIRAL HUSBAND E. KIMMEL AND MAJOR GENERAL WALTER C. SHORT, SENIOR OFFICERS IN COMMAND IN HAWAII ON DECEMBER 7, 1941.

(a) FINDINGS.—Congress makes the following findings:

(1) The late Rear Admiral Husband E. Kimmel, while serving in the temporary grade of admiral, was the Commander in Chief of the United States Fleet and the Commander in Chief, United States Pacific Fleet, at the time of the Japanese attack on Pearl Harbor, Hawaii, on December 7, 1941, with an excellent and unassailable record throughout his career in the United States Navy before that date.

(2) The late Major General Walter C. Short, while serving in the temporary grade of lieutenant general, was the Commander of the United States Army Hawaiian Department, at the time of the Japanese attack on Pearl Harbor, Hawaii, on December 7, 1941, with an excellent and unassailable record throughout his career in the United States Army before that date.

(3) Numerous investigations following the attack on Pearl Harbor have documented that Admiral Kimmel and Lieutenant General Short were not provided necessary and critical intelligence that was available, that foretold of war with Japan, that warned of imminent attack, and that would have alerted them to prepare for the attack, including such essential communications as the Japanese Pearl Harbor Bomb Plot message of September 24, 1941, and the message sent from the Imperial Japanese Foreign Ministry to the Japanese Ambassador in the United States from December 6 to 7, 1941, known as the Fourteen-Part Message.

(4) On December 16, 1941, Admiral Kimmel and Lieutenant General Short were relieved of their commands and returned to their permanent grades of rear admiral and major general, respectively.

(5) Admiral William Harrison Standley, who served as a member of the investigating commission known as the Roberts Commission that accused Admiral Kimmel and Lieutenant General Short of "dereliction of duty" only six weeks after the attack on Pearl Harbor, later disavowed the report, maintaining that "these two officers were martyred" and "if they had been brought to trial, both would have been cleared of the charge".

(6) On October 19, 1944, a Naval Court of Inquiry—

(A) exonerated Admiral Kimmel on the grounds that his military decisions and the disposition of his forces at the time of the December 7, 1941, attack on Pearl Harbor were proper "by virtue of the information that Admiral Kimmel had at hand which indicated neither the probability nor the imminence of an air attack on Pearl Harbor";

(B) criticized the higher command for not sharing with Admiral Kimmel “during the very critical period of November 26 to December 7, 1941, important information . . . regarding the Japanese situation”; and

(C) concluded that the Japanese attack and its outcome was attributable to no serious fault on the part of anyone in the naval service.

(7) On June 15, 1944, an investigation conducted by Admiral T. C. Hart at the direction of the Secretary of the Navy produced evidence, subsequently confirmed, that essential intelligence concerning Japanese intentions and war plans was available in Washington but was not shared with Admiral Kimmel.

(8) On October 20, 1944, the Army Pearl Harbor Board of Investigation determined that—

(A) Lieutenant General Short had not been kept “fully advised of the growing tenseness of the Japanese situation which indicated an increasing necessity for better preparation for war”;

(B) detailed information and intelligence about Japanese intentions and war plans were available in “abundance” but were not shared with the Lieutenant General Short’s Hawaii command; and

(C) Lieutenant General Short was not provided “on the evening of December 6th and the early morning of December 7th, the critical information indicating an almost immediate break with Japan, though there was ample time to have accomplished this”.

(9) The reports by both the Naval Court of Inquiry and the Army Pearl Harbor Board of Investigation were kept secret, and Rear Admiral Kimmel and Major General Short were denied their requests to defend themselves through trial by court-martial.

(10) The joint committee of Congress that was established to investigate the conduct of Admiral Kimmel and Lieutenant General Short completed, on May 31, 1946, a 1,075-page report which included the conclusions of the committee that the two officers had not been guilty of dereliction of duty.

(11) On April 27, 1954, the Chief of Naval Personnel, Admiral J. L. Holloway, Jr., recommended that Rear Admiral Kimmel be advanced in rank in accordance with the provisions of the Officer Personnel Act of 1947.

(12) On November 13, 1991, a majority of the members of the Board for the Correction of Military Records of the Department of the Army found that Major General Short “was unjustly held responsible for the Pearl Harbor disaster” and that “it would be equitable and just” to advance him to the rank of lieutenant general on the retired list.

(13) In October 1994, the Chief of Naval Operations, Admiral Carlisle Trost, withdrew his 1988 recommendation against the advancement of Rear Admiral Kimmel and recommended that his case be reopened.

(14) Although the Dorn Report, a report on the results of a Department of Defense study that was issued on December 15, 1995, did not provide support for an advancement of Rear Admiral Kimmel or Major General Short in grade, it did set forth as a conclusion of the study that “responsibility for the

Pearl Harbor disaster should not fall solely on the shoulders of Admiral Kimmel and Lieutenant General Short, it should be broadly shared”.

(15) The Dorn Report found—

(A) that “Army and Navy officials in Washington were privy to intercepted Japanese diplomatic communications . . . which provided crucial confirmation of the imminence of war”;

(B) that “the evidence of the handling of these messages in Washington reveals some ineptitude, some unwarranted assumptions and misestimations, limited coordination, ambiguous language, and lack of clarification and followup at higher levels”; and

(C) that “together, these characteristics resulted in failure . . . to appreciate fully and to convey to the commanders in Hawaii the sense of focus and urgency that these intercepts should have engendered”.

(16) On July 21, 1997, Vice Admiral David C. Richardson (United States Navy, retired) responded to the Dorn Report with his own study which confirmed findings of the Naval Court of Inquiry and the Army Pearl Harbor Board of Investigation and established, among other facts, that the war effort in 1941 was undermined by a restrictive intelligence distribution policy, and the degree to which the commanders of the United States forces in Hawaii were not alerted about the impending attack on Hawaii was directly attributable to the withholding of intelligence from Admiral Kimmel and Lieutenant General Short.

(17) The Officer Personnel Act of 1947, in establishing a promotion system for the Navy and the Army, provided a legal basis for the President to honor any officer of the Armed Forces of the United States who served his country as a senior commander during World War II with a placement of that officer, with the advice and consent of the Senate, on the retired list with the highest grade held while on the active duty list.

(18) Rear Admiral Kimmel and Major General Short are the only two officers eligible for advancement under the Officer Personnel Act of 1947 as senior World War II commanders who were excluded from the list of retired officers presented for advancement on the retired lists to their highest wartime grades under that Act.

(19) This singular exclusion of those two officers from advancement on the retired list serves only to perpetuate the myth that the senior commanders in Hawaii were derelict in their duty and responsible for the success of the attack on Pearl Harbor, a distinct and unacceptable expression of dishonor toward two of the finest officers who have served in the Armed Forces of the United States.

(20) Major General Walter Short died on September 23, 1949, and Rear Admiral Husband Kimmel died on May 14, 1968, without the honor of having been returned to their wartime grades as were their fellow commanders of World War II.

(21) The Veterans of Foreign Wars, the Pearl Harbor Survivors Association, the Admiral Nimitz Foundation, the Naval Academy Alumni Association, the Retired Officers Association,

and the Pearl Harbor Commemorative Committee, and other associations and numerous retired military officers have called for the rehabilitation of the reputations and honor of Admiral Kimmel and Lieutenant General Short through their posthumous advancement on the retired lists to their highest wartime grades.

(b) **ADVANCEMENT OF REAR ADMIRAL KIMMEL AND MAJOR GENERAL SHORT ON RETIRED LISTS.**—(1) The President is requested—

(A) to advance the late Rear Admiral Husband E. Kimmel, United States Navy (retired), to the grade of admiral on the retired list of the Navy; and

(B) to advance the late Major General Walter C. Short, United States Army (retired), to the grade of lieutenant general on the retired list of the Army.

(2) Any advancement in grade on a retired list requested under paragraph (1) shall not increase or change the compensation or benefits from the United States to which any person is now or may in the future be entitled based upon the military service of the officer advanced.

(c) **SENSE OF CONGRESS REGARDING THE PROFESSIONAL PERFORMANCE OF ADMIRAL KIMMEL AND LIEUTENANT GENERAL SHORT.**—It is the sense of Congress—

(1) that the late Rear Admiral Husband E. Kimmel performed his duties as Commander in Chief, United States Pacific Fleet, competently and professionally and, therefore, that the losses incurred by the United States in the attacks on the naval base at Pearl Harbor, Hawaii, and other targets on the island of Oahu, Hawaii, on December 7, 1941, were not a result of dereliction in the performance of those duties by then Admiral Kimmel; and

(2) that the late Major General Walter C. Short performed his duties as Commanding General, Hawaiian Department, competently and professionally and, therefore, that the losses incurred by the United States in the attacks on Hickam Army Air Field and Schofield Barracks, Hawaii, and other targets on the island of Oahu, Hawaii, on December 7, 1941, were not a result of dereliction in the performance of those duties by then Lieutenant General Short.

SEC. 547. COMMENDATION OF CITIZENS OF REMY, FRANCE, FOR WORLD WAR II ACTIONS.

(a) **FINDINGS.**—The Congress finds the following:

(1) On August 2, 1944, a squadron of P-51s from the United States 364th Fighter Group strafed a German munitions train in Remy, France.

(2) The resulting explosion killed Lieutenant Houston Braly, one of the attacking pilots, and destroyed much of the village of Remy, including seven stained glass windows in the 13th century church.

(3) Despite threats of reprisals from the occupying German authorities, the citizens of Remy recovered Lieutenant Braly's body from the wreckage, buried his body with dignity and honor in the church's cemetery, and decorated the grave site daily with fresh flowers.

(4) On Armistice Day, 1995, the village of Remy renamed the crossroads near the site of Lieutenant Braly's death in his honor.

(5) The surviving members of the 364th Fighter Group desire to express their gratitude to the brave citizens of Remy.

(6) To express their gratitude, the surviving members of the 364th Fighter Group have organized a nonprofit corporation to raise funds, through its project “Windows for Remy”, to restore the church’s stained glass windows.

(b) COMMENDATION AND RECOGNITION.—The Congress commends the bravery and honor of the citizens of Remy, France, for their actions with respect to the American fighter pilot Lieutenant Houston Braly during and after August 1944, and recognizes the efforts of the surviving members of the United States 364th Fighter Group to raise funds to restore the stained glass windows of Remy’s 13th century church.

Pitsenbarger of Piqua, Ohio, for the acts of valor referred to in subsection (b).

(b) ACTION DEFINED.—The acts of valor referred to in subsection (a) are the actions of William H. Pitsenbarger on April 11, 1966, as an Air Force pararescue crew member, serving in the grade of Airman First Class at Cam My, Republic of Vietnam, with Detachment 6, 38th Aerospace Rescue and Recovery Helicopter Squadron, in support of the combat mission known as “Operations Abilene”.

SEC. 556. COMMEMORATION OF THE 50TH ANNIVERSARY OF THE UNIFORM CODE OF MILITARY JUSTICE.

(a) FINDINGS.—Congress makes the following findings:

(1) The American military justice system predates the United States itself, having had a continuous existence since the enactment of the first American Articles of War by the Continental Congress in 1775.

(2) Pursuant to article I of the Constitution, which explicitly empowers Congress “To make Rules for the Government and Regulation of the land and naval Forces”, Congress enacted the Articles of War and an Act to Govern the Navy, which were revised on several occasions between the ratification of the Constitution and the end of World War II.

(3) Dissatisfaction with the administration of military justice during World War I and World War II (including dissatisfaction arising from separate systems of justice for the Army and for the Navy and Marine Corps) led both to significant statutory reforms in the Articles of War and to the convening of a committee, under Department of Defense auspices, to draft a single code of military justice applicable uniformly to all of the Armed Forces.

(4) The committee, chaired by Professor Edmund M. Morgan of Harvard Law School, made recommendations that formed the basis of bills introduced in Congress to establish such a uniform code of military justice.

(5) After lengthy hearings and debate on the congressional proposals, the Uniform Code of Military Justice was enacted into law on May 5, 1950, when President Harry S Truman signed the legislation.

(6) President Truman then issued a revised Manual for Courts-Martial implementing the new code, and the code became effective on May 31, 1951.

(7) One of the greatest innovations of the Uniform Code of Military Justice (now codified as chapter 47 of title 10, United States Code) was the establishment of a civilian court of appeals within the military justice system. That court, the United States Court of Military Appeals (now the United States Court of Appeals for the Armed Forces), held its first session on July 25, 1951.

(8) Congress enacted major revisions of the Uniform Code of Military Justice in 1968 and 1983 and, in addition, has amended the code from time to time over the years as practice under the code indicated a need for updating the substance or procedure of the law of military justice.

(9) The evolution of the system of military justice under the Uniform Code of Military Justice may be traced in the decisions of the Courts of Criminal Appeals of each of the Armed Forces and the decisions of the United States Court of Appeals for the Armed Forces. These courts have produced a unique body of jurisprudence upon which commanders and judge advocates rely in the performance of their duties.

That amount is the original unfunded liability of the Fund. The Board shall determine the period of time over which the original unfunded liability should be liquidated and shall determine an amortization schedule for the liquidation of such liability over that period. Contributions to the Fund for the liquidation of the original unfunded liability in accordance with such schedule shall be made as provided in section 1116(b) of this title.

“(b)(1) The Secretary of Defense shall determine each year, in sufficient time for inclusion in budget requests for the following fiscal year, the total amount of Department of Defense contributions to be made to the Fund during that fiscal year under section 1116(a) of this title. “(2) The amount determined under paragraph (1) for any fiscal year is the amount needed to be appropriated to the Department of Defense for that fiscal year for payments to be made to the Fund during that year under section 1116(a) of this title. The President shall include not less than the full amount so determined in the budget transmitted to Congress for that fiscal year under section 1105 of title 31. “(4) If at the time of any such valuation the Secretary of Defense determines that, based upon the Fund’s actuarial experience (other than resulting from changes in benefits or actuarial assumptions) since the last valuation, there has been an actuarial gain or loss to the Fund, the Secretary shall determine an amortization methodology and schedule for the amortization of the cumulative gain or loss to the Fund created by such actuarial experience and any previous actuarial experience through an increase or decrease in the payments that would otherwise be made to the Fund.

“(5) Contributions to the Fund in accordance with amortization schedules under paragraphs (2), (3), and (4) shall be made as provided in section 1116(b) of this title.

“(d) All determinations under this section shall be made using methods and assumptions approved by the Board of Actuaries (including assumptions of interest rates and medical inflation) and in accordance with generally accepted actuarial principles and practices.

“(f) MULTIYEAR CONTRACT DEFINED.—For the purposes of this section, a multiyear contract is a contract for the purchase of services for more than one, but not more than five, program years. (1) in paragraph (2), by striking “(A) security” and inserting “(i) security”, and by striking “(B) the maintenance” and inserting “(ii) the maintenance”;

(2) by redesignating paragraphs (1) through (3) as subparagraphs (A) through (C), respectively;

(3) by inserting “(1)” after “(g)”;

(4) by striking “Practitioners who dispense” and inserting “Except as provided in paragraph (2), practitioners who dispense”; and

(5) by adding at the end the following paragraph:

“(2)(A) Subject to subparagraphs (D) and (J), the requirements of paragraph (1) are waived in the case of the dispensing (including the prescribing), by a practitioner, of narcotic drugs in schedule III, IV, or V or combinations of such drugs if the practitioner meets the conditions specified in subparagraph (B) and the narcotic drugs or combinations of such drugs meet the conditions specified in subparagraph (C).

“(B) For purposes of subparagraph (A), the conditions specified in this subparagraph with respect to a practitioner are that, before the initial dispensing of narcotic drugs in schedule III, IV, or V or combinations of such drugs to patients for maintenance or detoxification treatment, the practitioner submit to the Secretary a notification of the intent of the practitioner to begin dispensing the drugs or combinations for such purpose, and that the notification contain the following certifications by the practitioner:

“(i) The practitioner is a qualifying physician (as defined in subparagraph (G)).

“(ii) With respect to patients to whom the practitioner will provide such drugs or combinations of drugs, the practitioner has the capacity to refer the patients for appropriate counseling and other appropriate ancillary services.

“(iii) In any case in which the practitioner is not in a group practice, the total number of such patients of the practitioner at any one time will not exceed the applicable number. For purposes of this clause, the applicable number is 30, except that the Secretary may by regulation change such total number.

“(iv) In any case in which the practitioner is in a group practice, the total number of such patients of the group practice at any one time will not exceed the applicable number. For purposes of this clause, the applicable number is 30, except that the Secretary may by regulation change such total number, and the Secretary for such purposes may by regulation establish different categories on the basis of the number of practitioners in a group practice and establish for the various categories different numerical limitations on the number of such patients that the group practice may have.

“(C) For purposes of subparagraph (A), the conditions specified in this subparagraph with respect to narcotic drugs in schedule III, IV, or V or combinations of such drugs are as follows:

“(i) The drugs or combinations of drugs have, under the Federal Food, Drug, and Cosmetic Act or section 351 of the Public Health Service Act, been approved for use in maintenance or detoxification treatment.

“(ii) The drugs or combinations of drugs have not been the subject of an adverse determination. For purposes of this clause, an adverse determination is a determination published

in the Federal Register and made by the Secretary, after consultation with the Attorney General, that the use of the drugs or combinations of drugs for maintenance or detoxification treatment requires additional standards respecting the qualifications of practitioners to provide such treatment, or requires standards respecting the quantities of the drugs that may be provided for unsupervised use.

“(D)(i) A waiver under subparagraph (A) with respect to a practitioner is not in effect unless (in addition to conditions under subparagraphs (B) and (C)) the following conditions are met:

“(I) The notification under subparagraph (B) is in writing and states the name of the practitioner.

“(II) The notification identifies the registration issued for the practitioner pursuant to subsection (f).

“(III) If the practitioner is a member of a group practice, the notification states the names of the other practitioners in the practice and identifies the registrations issued for the other practitioners pursuant to subsection (f).

“(ii) Upon receiving a notification under subparagraph (B), the Attorney General shall assign the practitioner involved an identification number under this paragraph for inclusion with the registration issued for the practitioner pursuant to subsection (f). The identification number so assigned shall be appropriate to preserve the confidentiality of patients for whom the practitioner has dispensed narcotic drugs under a waiver under subparagraph (A).

“(iii) Not later than 45 days after the date on which the Secretary receives a notification under subparagraph (B), the Secretary shall make a determination of whether the practitioner involved meets all requirements for a waiver under subparagraph (B). If the Secretary fails to make such determination by the end of such 45-day period, the Attorney General shall assign the physician an identification number described in clause (ii) at the end of such period.

“(E)(i) If a practitioner is not registered under paragraph (1) and, in violation of the conditions specified in subparagraphs (B) through (D), dispenses narcotic drugs in schedule III, IV, or V or combinations of such drugs for maintenance treatment or detoxification treatment, the Attorney General may, for purposes of section 304(a)(4), consider the practitioner to have committed an act that renders the registration of the practitioner pursuant to subsection (f) to be inconsistent with the public interest.

“(ii)(I) Upon the expiration of 45 days from the date on which the Secretary receives a notification under subparagraph (B), a practitioner who in good faith submits a notification under subparagraph (B) and reasonably believes that the conditions specified in subparagraphs (B) through (D) have been met shall, in dispensing narcotic drugs in schedule III, IV, or V or combinations of such drugs for maintenance treatment or detoxification treatment, be considered to have a waiver under subparagraph (A) until notified otherwise by the Secretary, except that such a practitioner may commence to prescribe or dispense such narcotic drugs for such purposes prior to the expiration of such 45-day period if it facilitates the treatment of an individual patient and both the Secretary and the Attorney General are notified by the practitioner of the intent to commence prescribing or dispensing such narcotic drugs.

“(II) For purposes of subclause (I), the publication in the Federal Register of an adverse determination by the Secretary pursuant

to subparagraph (C)(ii) shall (with respect to the narcotic drug or combination involved) be considered to be a notification provided by the Secretary to practitioners, effective upon the expiration of the 30-day period beginning on the date on which the adverse determination is so published.

“(F)(i) With respect to the dispensing of narcotic drugs in schedule III, IV, or V or combinations of such drugs to patients for maintenance or detoxification treatment, a practitioner may, in his or her discretion, dispense such drugs or combinations for such treatment under a registration under paragraph (1) or a waiver under subparagraph (A) (subject to meeting the applicable conditions).

“(ii) This paragraph may not be construed as having any legal effect on the conditions for obtaining a registration under paragraph (1), including with respect to the number of patients who may be served under such a registration.

“(G) For purposes of this paragraph:

“(i) The term ‘group practice’ has the meaning given such term in section 1877(h)(4) of the Social Security Act.

“(ii) The term ‘qualifying physician’ means a physician who is licensed under State law and who meets one or more of the following conditions:

“(I) The physician holds a subspecialty board certification in addiction psychiatry from the American Board of Medical Specialties.

“(II) The physician holds an addiction certification from the American Society of Addiction Medicine.

“(III) The physician holds a subspecialty board certification in addiction medicine from the American Osteopathic Association.

“(IV) The physician has, with respect to the treatment and management of opiate-dependent patients, completed not less than eight hours of training (through classroom situations, seminars at professional society meetings, electronic communications, or otherwise) that is provided by the American Society of Addiction Medicine, the American Academy of Addiction Psychiatry, the American Medical Association, the American Osteopathic Association, the American Psychiatric Association, or any other organization that the Secretary determines is appropriate for purposes of this subclause.

“(V) The physician has participated as an investigator in one or more clinical trials leading to the approval of a narcotic drug in schedule III, IV, or V for maintenance or detoxification treatment, as demonstrated by a statement submitted to the Secretary by the sponsor of such approved drug.

“(VI) The physician has such other training or experience as the State medical licensing board (of the State in which the physician will provide maintenance or detoxification treatment) considers to demonstrate the ability of the physician to treat and manage opiate-dependent patients.

“(VII) The physician has such other training or experience as the Secretary considers to demonstrate the ability of the physician to treat and manage opiate-dependent patients. Any criteria of the Secretary under this subclause

shall be established by regulation. Any such criteria are effective only for 3 years after the date on which the criteria are promulgated, but may be extended for such additional discrete 3-year periods as the Secretary considers appropriate for purposes of this subclause. Such an extension of criteria may only be effectuated through a statement published in the Federal Register by the Secretary during the 30-day period preceding the end of the 3-year period involved.

“(H)(i) In consultation with the Administrator of the Drug Enforcement Administration, the Administrator of the Substance Abuse and Mental Health Services Administration, the Director of the National Institute on Drug Abuse, and the Commissioner of Food and Drugs, the Secretary shall issue regulations (through notice and comment rulemaking) or issue practice guidelines to address the following:

“(I) Approval of additional credentialing bodies and the responsibilities of additional credentialing bodies.

“(II) Additional exemptions from the requirements of this paragraph and any regulations under this paragraph.

Nothing in such regulations or practice guidelines may authorize any Federal official or employee to exercise supervision or control over the practice of medicine or the manner in which medical services are provided.

“(ii) Not later than 120 days after the date of the enactment of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001, the Secretary shall issue a treatment improvement protocol containing best practice guidelines for the treatment and maintenance of opiate-dependent patients. The Secretary shall develop the protocol in consultation with the Director of the National Institute on Drug Abuse, the Administrator of the Drug Enforcement Administration, the Commissioner of Food and Drugs, the Administrator of the Substance Abuse and Mental Health Services Administration, and other substance abuse disorder professionals. The protocol shall be guided by science.

“(I) During the 3-year period beginning on the date of the enactment of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001, a State may not preclude a practitioner from dispensing or prescribing drugs in schedule III, IV, or V or combinations of such drugs, to patients for maintenance or detoxification treatment in accordance with this paragraph unless, before the expiration of that 3-year period, the State enacts a law prohibiting a practitioner from dispensing such drugs or combinations of drug.

“(J)(i) This paragraph takes effect on the date of the enactment of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001, and remains in effect thereafter except as provided in clause (iii) (relating to a decision by the Secretary or the Attorney General that this paragraph should not remain in effect).

“(ii) For purposes relating to clause (iii), the Secretary and the Attorney General may, during the 3-year period beginning on the date of the enactment of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001, make determinations in accordance with the following:

“(I) The Secretary may make a determination of whether treatments provided under waivers under subparagraph (A)

have been effective forms of maintenance treatment and detoxification treatment in clinical settings; may make a determination of whether such waivers have significantly increased (relative to the beginning of such period) the availability of maintenance treatment and detoxification treatment; and may make a determination of whether such waivers have adverse consequences for the public health.

“(II) The Attorney General may make a determination of the extent to which there have been violations of the numerical limitations established under subparagraph (B) for the number of individuals to whom a practitioner may provide treatment; may make a determination of whether waivers under subparagraph (A) have increased (relative to the beginning of such period) the extent to which narcotic drugs in schedule III, IV, or V or combinations of such drugs are being dispensed or possessed in violation of this Act; and may make a determination of whether such waivers have adverse consequences for the public health.

“(iii) If, before the expiration of the period specified in clause (ii), the Secretary or the Attorney General publishes in the Federal Register a decision, made on the basis of determinations under such clause, that this paragraph should not remain in effect, this paragraph ceases to be in effect 60 days after the date on which the decision is so published. The Secretary shall in making any such decision consult with the Attorney General, and shall in publishing the decision in the Federal Register include any comments received from the Attorney General for inclusion in the publication. The Attorney General shall in making any such decision consult with the Secretary, and shall in publishing the decision in the Federal Register include any comments received from the Secretary for inclusion in the publication.”

SEC. 1236. SENSE OF CONGRESS REGARDING THE USE OF CHILDREN AS SOLDIERS.

(a) **FINDINGS.**—Congress makes the following findings:

(1) In the year 2000, approximately 300,000 individuals under the age of 18 are participating in armed conflict in more than 30 countries worldwide.

(2) Many children participating in armed conflict in various countries around the world are forcibly conscripted through kidnapping or coercion, while others join military units due to economic necessity, to avenge the loss of a family member, or for their own personal safety.

(3) Many military commanders frequently force child soldiers to commit gruesome acts of ritual killings or torture against their enemies, including against other children.

(4) Many military commanders separate children from their families in order to foster dependence on military units and leaders, leaving children vulnerable to manipulation, deep traumatization, and in need of psychological counseling and rehabilitation.

(5) Child soldiers are exposed to hazardous conditions and risk physical injuries, sexually transmitted diseases, malnutrition, deformed backs and shoulders from carrying overweight loads, and respiratory and skin infections.

(6) Many young female soldiers face the additional psychological and physical horrors of rape and sexual abuse, being enslaved for sexual purposes by militia commanders, and forced to endure severe social stigma should they return home.

(7) Children in northern Uganda continue to be kidnapped by the Lords Resistance Army (LRA), which is supported and funded by the Government of Sudan and which has committed and continues to commit gross human rights violations in Uganda.

(8) Children in Sri Lanka have been forcibly recruited by the opposition Tamil Tigers movement and forced to kill or be killed in the armed conflict in that country.

(9) An estimated 7,000 child soldiers have been involved in the conflict in Sierra Leone, some as young as age 10, with many being forced to commit extrajudicial executions, torture, rape, and amputations for the rebel Revolutionary United Front.

(10) On January 21, 2000, in Geneva, a United Nations Working Group, including representatives from more than 80 governments including the United States, reached consensus on an international agreement, referred to in this case as an “optional protocol”, on the use of child soldiers.

(11) This optional protocol, upon entry into force, will—

(A) raise the international minimum age for conscription and will require governments to take all feasible measures to ensure that members of their armed forces under age 18 do not participate directly in combat;

(B) prohibit the recruitment and use in armed conflict of persons under the age of 18 by nongovernmental armed forces;

(C) encourage governments to raise the minimum legal age for voluntary recruits above the current standard of 15; and

(D) commit governments to support the demobilization and rehabilitation of child soldiers and, when possible, to allocate resources to this purpose.

(12) On October 29, 1998, United Nations Secretary General Kofi Annan set minimum age requirements for United Nations peacekeeping personnel that are made available by member nations of the United Nations.

(13) The United Nations Under-Secretary General for Peace-keeping, Bernard Miyet, announced in the Fourth Committee of the General Assembly that contributing governments of member nations were asked not to send civilian police and military observers under the age of 25 and that troops in national contingents should preferably be at least 21 years of age but in no case should they be younger than 18 years of age.

(14) On August 25, 1999, the United Nations Security Council unanimously passed Resolution 1261 (1999) condemning the use of children in armed conflicts.

(15) In addressing the Security Council on August 26, 1999, the Special Representative of the Secretary General for Children and Armed Conflict, Olara Otunnu, urged the adoption of a global three-pronged approach to combatting the use of children in armed conflict that would—

(A) first, raise the age limit for recruitment and participation in armed conflict from the present age of 15 to the age of 18;

(B) second, increase international pressure on armed groups which currently abuse children; and

(C) third, address the political, social, and economic factors that create an environment in which children are induced by appeal of ideology or by socio-economic collapse to become child soldiers.

(16) The United States delegation to the United Nations working group relating to child soldiers, which included representatives from the Department of Defense, supported the Geneva agreement on the optional protocol.

(17) On May 25, 2000, the United Nations General Assembly unanimously adopted the optional protocol on the use of child soldiers.

(18) The optional protocol was opened for signature on June 5, 2000.

(19) The President signed the optional protocol on behalf of the United States on July 5, 2000.

(b) CONGRESSIONAL STATEMENTS ON CHILD SOLDIERS.—Congress joins the international community in—

(1) condemning the use of children as soldiers by governmental and nongovernmental armed forces worldwide; and

(2) welcoming the optional protocol on the use of child soldiers adopted by the United Nations General Assembly on May 25, 2000, as a critical first step in ending the use of children as soldiers.

(c) SENSE OF CONGRESS ON FURTHER ACTIONS.—It is the sense of Congress that—

(1) it is essential that the President consult closely with the Senate with the objective of building support for ratification by the United States of the optional protocol and that the Senate move forward as expeditiously as possible;

(2) the United States should provide assistance, through a new fund to be established by law, for the rehabilitation and reintegration into their respective civilian societies of child soldiers of other nations; and

(3) the President, acting through the Secretaries of State and Defense and other appropriate officials, should undertake all possible efforts to persuade and encourage other governments to ratify and endorse the optional protocol on the use of child soldiers.

“(i) REMEDIAL ACTION AT MOAB SITE.—(1)(A) The Secretary of Energy shall prepare a plan for remediation, including ground water restoration, of the Moab site in accordance with title I of the Uranium Mill Tailings Radiation Control Act of 1978 (42 U.S.C. 7911 et seq.). The Secretary of Energy shall enter into arrangements with the National Academy of Sciences to obtain the technical advice, assistance, and recommendations of the National Academy of Sciences in objectively evaluating the costs, benefits, and risks associated with various remediation alternatives, including removal or treatment of radioactive or other hazardous materials at the site, ground water restoration, and long-term management of residual contaminants. If the Secretary prepares a remediation plan that is not consistent with the recommendations of the National Academy of Sciences, the Secretary shall submit to Congress a report explaining the reasons for deviation from the National Academy of Sciences’ recommendations.

“(B) The remediation plan required by subparagraph (A) shall be completed not later than one year after the date of the enactment of the Floyd D. “(C) The license for the materials at the Moab site issued by the Nuclear Regulatory Commission shall terminate one year after the date of the enactment of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001, unless the Secretary of Energy determines that the license may be terminated earlier.

Until the license is terminated, the Trustee, subject to the availability of funds appropriated specifically for a purpose described in clauses (i) through (iii) or made available by the Trustee from the Moab Mill Reclamation Trust, may carry out—

“(ii) activities to dewater the mill tailings at the Moab site; and

“(iii) other activities related to the Moab site, subject to the authority of the Nuclear Regulatory Commission and in consultation with the Secretary of Energy.

“(D) As part of the remediation plan for the Moab site required by subparagraph (A), the Secretary of Energy shall develop, in consultation with the Trustee, the Nuclear Regulatory Commission, and the State of Utah, an efficient and legal means for transferring all responsibilities and title to the Moab site and all the materials therein from the Trustee to the Department of Energy.

“(2) The Secretary of Energy shall limit the amounts expended in carrying out the remedial action under paragraph (1) to—

“(B) other amounts made available for the remedial action under this subsection.

“(3)(A) The royalty payments received by the Secretary of Energy under subsection (e) shall be available to the Secretary, without further appropriation, to carry out the remedial action under paragraph (1) until such time as the Secretary determines that all costs incurred by the United States to carry out the remedial action (other than costs associated with long-term monitoring) have been paid.

“(B) Upon making the determination referred to in subparagraph (A), the Secretary of Energy shall transfer all remaining royalty amounts to the general fund of the Treasury and release to the Tribe the royalty interest retained by the United States under subsection (e).

“(4)(A) Funds made available to the Department of Energy for national security activities shall not be used to carry out the remedial action under paragraph (1), except that the Secretary of Energy may use such funds for program direction directly related to the remedial action.

“(B) There are authorized to be appropriated to the Secretary of Energy to carry out the remedial action under paragraph (1) such sums as are necessary.

“(5) If the Moab site is sold after the date on which the Secretary of Energy completes the remedial action under paragraph (1), the seller shall pay to the Secretary of Energy, for deposit in the general fund of the Treasury, the portion of the sale price that the Secretary determines resulted from the enhancement of the value of the Moab site as a result of the remedial action. The enhanced value of the Moab site shall be equal to the difference between—

“(A) the fair market value of the Moab site on the date of the enactment of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001, based on information available on that date; and

“(B) the fair market value of the Moab site, as appraised on completion of the remedial action.”

“(2) APPLICABILITY.—This title applies to the Moab site in the same manner and to the same extent as to other processing sites designated under subsection (a), except that—

“(A) sections 103, 104(b), 107(a), 112(a), and 115(a) of this title shall not apply; and

“(B) a reference in this title to the date of the enactment of this Act shall be treated as a reference to the date of the enactment of this subsection.

SEC. 3601. SHORT TITLE.

This title may be cited as the “Energy Employees Occupational Illness Compensation Program Act of 2000”.

SEC. 3602. FINDINGS; SENSE OF CONGRESS.

(a) FINDINGS.—The Congress finds the following:

(1) Since World War II, Federal nuclear activities have been explicitly recognized under Federal law as activities that are ultra-hazardous. Nuclear weapons production and testing have involved unique dangers, including potential catastrophic nuclear accidents that private insurance carriers have not covered and recurring exposures to radioactive substances and beryllium that, even in small amounts, can cause medical harm.

(2) Since the inception of the nuclear weapons program and for several decades afterwards, a large number of nuclear weapons workers at sites of the Department of Energy and at sites of vendors who supplied the Cold War effort were put at risk without their knowledge and consent for reasons that, documents reveal, were driven by fears of adverse publicity, liability, and employee demands for hazardous duty pay.

(3) Many previously secret records have documented unmonitored exposures to radiation and beryllium and continuing problems at these sites across the Nation, at which the Department of Energy and its predecessor agencies have been, since World War II, self-regulating with respect to nuclear safety and occupational safety and health. No other hazardous Federal activity has been permitted to be carried out under such sweeping powers of self-regulation.

(4) The policy of the Department of Energy has been to litigate occupational illness claims, which has deterred workers

from filing workers' compensation claims and has imposed major financial burdens for such employees who have sought compensation. Contractors of the Department have been held harmless and the employees have been denied workers' compensation coverage for occupational disease.

(5) Over the past 20 years, more than two dozen scientific findings have emerged that indicate that certain of such employees are experiencing increased risks of dying from cancer and non-malignant diseases. Several of these studies have also established a correlation between excess diseases and exposure to radiation and beryllium.

(6) While linking exposure to occupational hazards with the development of occupational disease is sometimes difficult, scientific evidence supports the conclusion that occupational exposure to dust particles or vapor of beryllium can cause beryllium sensitivity and chronic beryllium disease. Furthermore, studies indicate that 98 percent of radiation-induced cancers within the nuclear weapons complex have occurred at dose levels below existing maximum safe thresholds.

(7) Existing information indicates that State workers' compensation programs do not provide a uniform means of ensuring adequate compensation for the types of occupational illnesses and diseases that relate to the employees at those sites.

(8) To ensure fairness and equity, the civilian men and women who, over the past 50 years, have performed duties uniquely related to the nuclear weapons production and testing programs of the Department of Energy and its predecessor agencies should have efficient, uniform, and adequate compensation for beryllium-related health conditions and radiation-related health conditions.

(9) On April 12, 2000, the Secretary of Energy announced that the Administration intended to seek compensation for individuals with a broad range of work-related illnesses throughout the Department of Energy's nuclear weapons complex.

(10) However, as of October 2, 2000, the Administration has failed to provide Congress with the necessary legislative and budget proposals to enact the promised compensation program.

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) a program should be established to provide compensation to covered employees;

(2) a fund for payment of such compensation should be established on the books of the Treasury;

(3) payments from that fund should be made only after—

(A) the identification of employees of the Department of Energy (including its predecessor agencies), and of contractors of the Department, who may be members of the group of covered employees;

(B) the establishment of a process to receive and administer claims for compensation for disability or death of covered employees;

(C) the submittal by the President of a legislative proposal for compensation of such employees that includes the estimated annual budget resources for that compensation; and

- (D) consideration by the Congress of the legislative proposal submitted by the President; and
 (4) payments from that fund should commence not later than fiscal year 2002.

(a) BERYLLIUM.—A covered beryllium employee shall, in the absence of substantial evidence to the contrary, be determined to have been exposed to beryllium in the performance of duty for the purposes of the compensation program if, and only if, the covered beryllium employee was—

(1) employed at a Department of Energy facility; or

(2) present at a Department of Energy facility, or a facility owned and operated by a beryllium vendor, because of employment by the United States, a beryllium vendor, or a contractor or subcontractor of the Department of Energy,

during a period when beryllium dust, particles, or vapor may have been present at such facility.

(B) incorporate the methods established under subsection (d); and

(C) take into consideration the type of cancer, past health-related activities (such as smoking), information on the risk of developing a radiation-related cancer from workplace exposure, and other relevant factors.

(d) **METHODS FOR RADIATION DOSE RECONSTRUCTIONS.**—(1) The President shall, through any Federal agency (other than the Department of Energy) or official (other than the Secretary of Energy or any other official within the Department of Energy) that the President may designate, establish by regulation methods for arriving at reasonable estimates of the radiation doses received by an individual specified in subparagraph (B) of section 3621(9) at a facility specified in that subparagraph by each of the following employees:

Consequently, it is the sense of Congress that a further determination by the President is appropriate before these workers are included in the compensation program.

(b) CERTIFICATION BY PRESIDENT.—A covered employee with chronic silicosis shall be treated as a covered employee (as defined in section 3621(1)) for the purposes of the compensation program required by section 3611 unless the President submits to Congress not later than 180 days after the date of the enactment of this Act the certification of the President that there is insufficient basis to include such employees. The President shall submit with the certification any recommendations about the compensation program with respect to covered employees with chronic silicosis as the President considers appropriate.

(c) EXPOSURE TO SILICA IN THE PERFORMANCE OF DUTY.—A covered employee shall, in the absence of substantial evidence to the contrary, be determined to have been exposed to silica in the performance of duty for the purposes of the compensation program if, and only if, the employee was present for a number of work days aggregating at least 250 work days during the mining of tunnels at a Department of Energy facility located in Nevada or Alaska for tests or experiments related to an atomic weapon.

(d) **COVERED EMPLOYEE WITH CHRONIC SILICOSIS.**—For purposes of this title, the term “covered employee with chronic silicosis” means a Department of Energy employee, or a Department of Energy contractor employee, with chronic silicosis who was exposed to silica in the performance of duty as determined under subsection (c).

(1) the initial occupational exposure to silica dust preceded the onset of silicosis by at least 10 years; and

(2) a written diagnosis of silicosis is made by a medical doctor and is accompanied by—

(A) a chest radiograph, interpreted by an individual certified by the National Institute for Occupational Safety and Health as a B reader, classifying the existence of pneumoconioses of category 1/1 or higher;
