Attached is the February 29, 2000, National Defense Reserve Fleet (NDRF) Inventory.

For your convenience, this report is now being posted on the MARAD Internet homepage and is available at [www.marad.dot.gov/offices/reserve\\_fleet.htm](http://www.marad.dot.gov/offices/reserve_fleet.htm), by clicking on "Reserve Fleet Inventory".

Previously we had directed the reader to [www.marad.dot.gov/offices/ship\\_operations.html](http://www.marad.dot.gov/offices/ship_operations.html), however, the "reserve\_fleet" address takes you directly to the page from which the NDRF inventory is available. The "ship\_operations" page remains available for use.

The NDRF program was established by the Merchant Ship Sales Act of 1946 and, today, it includes fleet anchorages at James River, VA, Beaumont, TX, and Suisun Bay, CA. Ships are held at the fleet anchorages, and port facilities for national emergencies. After this service, they are required to be disposed of by scrapping through a ship breaker or be sunk as artificial fish reefs.

The only ships authorized to be located at the fleet anchorage facilities are those belonging to U. S. Government agencies. MARAD may also accept title of U. S. agency vessels of 1,500 gross tons or greater for disposal.

The RESERVE FLEET INVENTORY ASSIGNED LOCATION SUMMARY report counts each vessel as either at an assigned fleet site, or at an assigned Outport, or Operational. Therefore when a vessel goes OPCON to other than MARAD it is no longer counted at its assigned fleet or outport. However, the "ASSIGNED LOCATION" in the body of the report continues to show the "homeport" assigned location.
