LOS ANGELES SECTIONAL

SECTIONAL AERONAUTICAL CHART SCALE 1:500,000

Federal Aviation Administration

99TH EDITION EFFECTIVE 0901Z **23 JUN 2016**
TO 0901Z **8 DEC 2016**

Includes airspace amendments effective **26 MAY 2016**
and all other aeronautical data received by **28 APR 2016**

Information on this chart will change; consolidated major updates of chart changes are available every 56 days in the CHART SUPPLEMENT Aeronautical Chart Bulletin section online at http://aeronav.faa.gov. Also consult appropriate NOTICES TO AIRMEN (NOTAMS) and other FLIGHT INFORMATION PUBLICATIONS (FLIPs) for the latest changes.

PUBLISHED IN ACCORDANCE WITH INTERAGENCY AIR CARTOGRAPHIC COMMITTEE SPECIFICATIONS AND AGREEMENTS, APPROVED BY DEPARTMENT OF DEFENSE / FEDERAL AVIATION ADMINISTRATION

Warning: Refer to current foreign charts and flight information publications for information within foreign airspace.

Limited Conformal Conic Projection Standard Parallels 33° 29' and 33° 45'
Horizontal Datum: North American Datum of 1983 (World Geodetic System 1984)

FAA Product ID: SLA
NSN 7641014100177
SECXXLOSANGELES

16175

CONTROL TOWER FREQUENCIES ON LOS ANGELES SECTIONAL CHART

Airports with control towers operating full or part time have the Tower frequency(s) in blue. Ground Control frequency (and, where needed, a Clearance Delivery frequency) is shown in black in the table below. Common frequencies are found in the Tower column. Ground Control frequencies are listed. An asterisk (*) indicates the part-time tower frequency is remoted to a collocated full-time FSS for use as a Local Control position. Consult the Chart Supplement for the hours of operation. Airports without control towers are not listed.

Automatic Terminal Information Service (ATIS) frequencies are listed to the right of the Tower or Approach Control frequencies. Where ATIS or Automatic Weather Observing System (AWOS) frequencies are available, they are listed in the Tower column. Unicom frequencies are listed in the "NON-ATCT" column. Monitor Pilot Radio Service frequencies are not listed. An asterisk (*) indicates the part-time tower frequency is remoted to a collocated full-time FSS for use as a Local Control position. Consult the Chart Supplement for the hours of operation. Airports without control towers are not listed.

All ASOS frequencies are listed in the table below. ASOS operational hours may differ from tower operational hours.

CONTROL TOWER	OPERATES	TWR FREQ	GND CON	ATIS	ASOS/PAWS
BOB HOPE	CONTRACT	118.7 334.3	121.9 348.4	119.125 348.4
