

Washington State Highway Safety Plan

version 2.0

Washington State Highway Safety Plan

WASHINGTON TRAFFIC SAFETY COMMISSION

621 8th Avenue SE, Suite 409 P.O. Box 40944 Olympia, Washington 98504-0944

August 30, 2012

STATE OF WASHINGTON

WASHINGTON TRAFFIC SAFETY COMMISSION

621 8th Avenue SE, Suite 409 • PO Box 40944 • Olympia, Washington 98504-0944 • (360) 753-6197

TO:

Washington State Citizens

FROM:

Darrin Grondel Jan J. Should

DATE:

August 31, 2012

SUBJECT:

Washington State Year 2013 Highway Safety Performance Plan

Interested citizens like you can help us save lives on Washington's roadways.

Please read our attached 2013 Highway Safety Performance Plan for Washington State. With your help and support of our FFY 2013 projects, together we will move Washington closer to the goal of Target Zero.

What is Target Zero? A plan to end traffic related deaths and serious injuries on Washington's roadways by the year 2030.

The attached plan has three key parts: the Benchmark Report, the Planning Document, and the State Certification and Assurances.

- 1. Benchmark Report explains how we identify problems, set goals and performance measures, and determine which projects to fund within Washington State. It contains important facts related to key traffic safety areas shown in the "Washington Strategic Highway Safety Plan: Target Zero." It also gives a general budget/cost summary of Federal and state funds allowed within traffic safety program areas.
- Planning Document describes projects selected by us for funding during FFY 2013. Each project picked for funding links to one or more of the state traffic safety goals shown in the Benchmark Report.
- 3. Agreement Provisions, Certifications and Assurances section lists certain conditions that govern the use of Federal Highway Safety funds.

Federal rule requires this plan as part of our annual application for National Highway Traffic Safety Administration and Federal Highway Administration funds (SAFETEA-LU). The Washington Traffic Safety Commission, in partnership with key stakeholders, will use these funds to improve safety on Washington roadways throughout FFY 2013 (from October 1, 2012 through September 30, 2013); making Washington Roadways the safest in the nation.

I. Executive Summary

Virtually every phase of this Highway Safety Performance Plan (HSPP) is aligned with the priorities and strategies in the Washington State Strategic Highway Safety Plan: Target Zero. The third version of this guiding light document (Target Zero) was signed by Governor Gregoire in 2010. The fourth iteration of the Target Zero Plan will be sent to the Governor for approval in late CY 2013.

The HSPP Planning Document section this year will again include a wide variety of proven strategies and new and innovative countermeasures that focus almost entirely on emphasis areas found in Target Zero priority levels 1 and 2. A few examples from Target Zero priorities 1 & 2 include:

1. Impaired Driving – Target Zero Teams

Target Zero Teams is a 24-month traffic safety demonstration project that was conducted in Snohomish, King and Pierce Counties. The project ran from July 1, 2010 to June 30, 2012.

Team members include:

- Washington State Patrol—Three Sergeants and 18 Troopers (21 FTEs) forming three 7-member teams dedicated to full time nighttime DUI enforcement.
- Local police departments and Sheriff's deputies from 44 agencies in the three counties.
- · Four Target Zero Managers
- Law Enforcement Liaisons
- Special Target Zero Prosecutors in King and Snohomish Counties
- · The Washington Traffic Safety Commission
- · WSP geographic system analysts

Highlights from the first year of the project include:

- Preliminary analysis of the project at the 18-month mark show the three Target Zero Team counties are experiencing traffic death reductions much greater than the control counties (23% compared to 2%) when compared to four previous 18-month segments.
- Preliminary analysis of the project at the 24-month mark show that there have been 109 fewer deaths in the three TZT counties compared to previous five years data.
- Target Zero Team members have contacted over 34,000 motorists and arrested 6,693 DUI offenders.
- Target Zero Team arrests for DUI and tickets for speeding and seat belt violations have resulted in over \$14 million in fines and fees being levied.
- Participating prosecutor's offices have eliminated their DUI backlogs and are now current in their DUI filings.
- Outreach campaign materials sent to bars, restaurants, grocery stores and mini-marts bring important partners onto the team.
- Publicity efforts have included ads featuring the WSP and local law enforcement partnerships, the elected prosecutors, and everyday citizens who are making Target Zero Teams a success.

Target Zero Teams Next Steps:

The state legislature appropriated funds to keep the 18 WSP troopers and 3 sergeants in place after the end of the demonstration project. This funding became effective July 1, 2012. The WTSC continued to fund the local law enforcement participation, meaning, that the project is continuing to run in King, Pierce and Snohomish Counties.

The National Highway Traffic Safety Adminis-

tration is funding a formal evaluation of the Target Zero Teams project using an independent research firm. If the research concludes that the project is an effective method for reducing traffic deaths, the analysis will be used to help state and local governments make funding decisions about fulltime, dedicated DUI enforcement squads.

Funding has been approved for a rural Target Zero Teams demonstration project. This project will start July 1, 2013 and will be designed to test this data-driven model in Eastern Washington where the crashes are less dense. This funding will provide for two WSP teams—one sergeant and six trooper per team—to be dedicated to DUI patrols using data that will show where patrols will be most effective. County-level planning groups will allow for county deputies and city officers to join the WSP teams. WTSC hopes to work with NHTSA again to secure research into this rural model.

Automated Speed Enforcement: Washington currently allows automated speed enforcement in school and construction zones to detect speeding vehicles. To explore the use of this technology in other types of locations, the 2009 Washington State Legislature passed a budget proviso for two automated speed enforcement pilot projects in Seattle and Tacoma. The proviso directed the Washington Traffic Safety Commission to evaluate the pilot projects and report to the Legislature by January 1, 2013 on the use, public acceptance, outcomes, and other relevant issues regarding traffic safety cameras. Information from this report will be included in the FFY 2014 Washington State Highway Safety Plan.

3. Speeding

Each jurisdiction within Washington
 State has their own unique traffic related issues that may not coincide with NHTSA mobilizations. This project will allow jurisdictions to adequately address those data-driven identified areas while supporting the Target Zero Plan. High visibility multi-jurisdictional enforcement will continue as part of this program.

4. Occupant Protection

 With the state nighttime seat belt use rate estimated at near daytime rates, WTSC will again conduct at least one of two planned state wide CIOT efforts during night time hours.

5. Traffic Records System Improvements

- The Washington Traffic Records Committee approved funding the creation of the Coded Emergency Department Data System (CEDDS). This system will initially aggregate Emergency Department (ED) data from 6 Washington State hospitals to create a preliminary ED dataset for analysis.
- The primary focus in FFY 2013 for the Electronic Traffic Information Processing (eTRIP) Governance Team will continue to be the addition of services (including equipment and training) that allow law enforcement agencies to automatically receive and file electronically created tickets and collision reports. This functionality has significantly reduced data entry redundancy throughout the state while greatly enhancing data quality and timeliness.

Target Zero not only guides our resource allocation decisions, it also drives our legislative strategies.

- In 2013 we will continue our evaluation of the state ignition interlock law.
- The 2012 Legislative session saw several significant changes to DUI laws. The legislators increased penalties for vehicular homicide from the standard sentence of 31-41 months to 78-102 months. An additional interlock requirement of 6 months and an additional fine will now be levied if a child under age 16 is present in the vehicle when a person is arrested for DUI. If it is a felony DUI, then an additional 12 months enhanced sentence will be added per child. The definition of drugs was expanded to include inhalants, and a test of blood or breath without consent is allowed for a person arrested for a felony DUI.
- Changes were also made to ignition interlock laws. New legislation allows WSP to collect fees from ignition interlock manufacturers, technicians, providers and persons. These fees will be deposited in a highway safety account solely to fund WSP impaired driving section projects. Ignition Interlock devices will now be required to be equipped with cameras. A driver with an ignition interlock restricted license must pay \$20/month to the indigent account.
- The state legislature appropriated funds to keep the 18 WSP troopers and 3 sergeants in place after the end of the Target Zero Team Demonstration Project. This funding became effective July 1, 2012.
- In 2013 we do not anticipate any major traffic safety bills to be introduced.

II. Washington State Benchmark Report

A. PROCESS DESCRIPTION

This section contains a brief description of the processes used by Washington State to identify its traffic safety problems, establish performance goals, and develop the programs/projects summarized in the Planning Document found in Section II.

In addition to the WTSC staff, there are two key groups representing the traffic safety community that are critical participants in each step of the process:

Washington Traffic Safety Commissioners

The ten Commissioners include: Governor (Chair), Superintendent of Public Instruction, Representative from the Judiciary, Chief of the Washington State Patrol, Representative of the Association of Counties, Representative of the Association of Cities, Secretary of Social and Health Services, Secretary of Transportation, Director of Licensing, and Secretary of Health.

The WTSC Technical Advisory Committee

- A representative of each Commission organization.
- Representatives of key traffic safety stakeholder groups.

1. Traffic Safety Problem Identification

The 2013 HSPP goals and performance measures are closely tied to those found in the "Washington State Strategic Highway Safety Plan: Target Zero."

In order to identify problems unique to Washington, we closely analyzed Washington State data. Primary data sources utilized were:

- statewide traffic collision data;
- Fatal Accident Reporting System (FARS);
- WTSC observation of traveler behavior.

Observational surveys are conducted by WTSC periodically to assess state usage rates for seatbelts, child safety restraints, motorcycle and bicycle helmets, and cell phone use.

The primary indicators used to assess risk are the numbers of fatalities and serious injuries that result from traffic crashes.

2. Goals and Performance Measures

Once Washington's problem areas were identified, performance measures were adopted and goals were set. The goals and performance measures in this FFY 2013 HSPP are consistent with those in the 2010 version of Target Zero. The WTSC staff, legislature, TAC and Commissioners continue to refine the goals, benchmarks and performance measures.

The Commissioners directed staff to base funding decisions on these goals, funding projects that are in line with the priorities and strategies in Target Zero.

3. Project Development

The grant request form/RFP was distributed by mail, at various meetings/conferences and could be downloaded from the WTSC web page. The form explains allowable vs. unallowable costs and most importantly, lists our goals and priority areas. We made it clear that project proposals must relate to Target Zero goals, and proposals that address a higher priority emphasis area and employ a proven strategy receive special consideration.

All the grant applications were initially reviewed by the WTSC program director. Each project was assigned to a program manager for further review. The program managers then studied individual projects and presented them to the staff in June

of 2012. The staff made priority and funding recommendations, which were sent to the TAC for consideration. The TAC reviewed current data, proposed goals, and project applications and made their funding recommendations to the WTSC Director. The Director made a few final adjustments and draft funding and priority recommendations were mailed to Commissioners. The Commissioners approved funding for the projects listed in this document in July 2012 and they also found that each goal established was based on careful review of all available data and that each project was appropriately linked to Target Zero goals, priorities and strategies.

In summary, accurate and timely data form the cornerstone of this traffic safety plan. Fatal and serious injury data drives the goals and establishes Target Zero priorities. Each project is directly linked to Target Zero goals/priorities, and finally, data provides the basis for evaluating the effectiveness of completed projects.

B. EQUIPMENT VALUED AT OVER \$5,000

Any equipment valued over \$5,000 purchased with federal traffic safety funds must be approved in advance by NHTSA Region 10.

There is a possibility that some federal funds may be used to purchase full or partial incar technology systems for use by various law enforcement agencies. These systems are necessary to implement the state's electronic ticketing and crash reporting system, eTRIP. A full in-car system consists of a laptop computer, scanner and printer. Approximate costs of individual system components are:

 Ruggedized laptop computers 	\$4,900
Mounting Hardware	\$580
 Hand held bar code scanners & Hardware 	\$540
 Portable Thermal Printer & Hardware 	\$350
• Installation	\$380
Total Cost of full system/ per vehicle	\$6,750

WTSC will submit written requests for approval if the need to purchase any additional equipment valued over \$5,000 arises.

C. PAID MEDIA

For all paid media, expert media buyers knowledgeable in the Washington markets will conduct an analysis to determine the optimum media channel(s) for each initiative and its primary target demographic. Implementation may vary from the plan.

With television and radio buys, media buyers in Washington are required by contract to obtain no-charge value-added media of equal or greater value than purchased media. Following NHTSA's 402 Advertising Space Guidance section (updated December 2006), for the purposes of the HSP, paid media is defined as funds paid for advertising on radio and/ or television. In today's advertising world additional media channels are advisable, and like NHTSA Communications staff, we will be making use of as many appropriate channels as possible.

For DUI and seatbelt mobilizations we are returning to the proven strategy and best practice for Washington of paid media spending equaling extra enforcement spending. These statewide efforts will coincide with the NHTSA Communications Calendar.

In alignment with proven strategies identified in Target Zero, extra enforcement campaigns are publicized through means other than paid media before and during grant-funded enforcement patrols, and this will continue during FFY 2013. Such publicity may include 1) aggressive earned media using expert media relations contractors and 2) community outreach through Washington's statewide network of Target Zero Managers. Ancillary materials will be available this year for their use such as mobile variable message signs, rack cards, window clings, coasters, posters and videos. We expect that the Washington State Department of Transportation will continue

to partner with us on the statewide mobilizations by messaging through their eye-catching stationary variable message signs and their Highway Advisory Radio System.

We realize that the target demographics for impaired driving, speeding and occupant protection are less likely than other demographics to view, read or listen to the news. However, earned media does communicate successfully with stakeholders and community decision-makers.

Any television or radio advertising will be evaluated upon reach and frequency obtained plus the return on investment of value-added media. Additionally, the annual awareness, knowledge and attitudes survey will contribute to the evaluation of paid media.

Program	Amount	Fund	Month	Media Channel(s)	Remarks			
Impaired Driving	\$800,000	402, 410	Nov – Jan, Mar, Jun – Jul, Aug - Sept	TV, Radio	National mobilization and sustained enforcement			
Occupant Protection	\$300,000	405	May - Jun	TV, Radio	National mobilization			
Occupant Protectionchild car seat patrols	\$45,000	2011	TBD	Radio	Media buys will match enforcement in terms of location and timing			

D. WTSC GOALS, PERFORMANCE MEASURES & BENCHMARKS

MISSION STATEMENT

To save lives and reduce injuries on Washington roads through leadership, innovation, coordination and program support in partnership with traffic safety activists, professionals and organizations throughout the state.

PRIMARY GOALS Washington State's long-term goal is to eliminate all traffic crash related deaths and serious injuries by the year 2030. Target Zero.

Our primary short-term goal is to reduce the number of deaths and serious injuries resulting from traffic crashes.

STRATEGY TO REACH THE PRIMARY GOALS

Supporting goals are identified, along with performance measures and benchmarks that will reflect the primary goal. Activities necessary to reach subordinate goals will be identified and funded. High-risk populations, high-risk behaviors and high crash locations will receive priority when establishing goals and funding supporting projects.

The Washington State Strategic Highway Safety Plan: Target Zero, adopted by the Commission and approved by the Governor, identifies strategies necessary to reach our goal of zero fatal or disabling traffic injuries by 2030.

Some programs will lend themselves to statewide or regional solutions, however, special emphasis will be placed on developing local solutions to local problems.

Although goals have been set in many program areas, pupil transportation, EMS and Traffic records goals could not be satisfactorily displayed in charts and graphs. Pupil transportation, EMS and traffic records goals are presented below in text, all other program area goals are presented in the charts and graphs that follow.

PERFORMANCE GOALS, DATA, TRENDS AND BENCHMARKS

Pupil Transportation and School Walkway Safety

Increase the safety of children on playgrounds and as they proceed to and from school.

- a. Reduce hazardous walking conditions within one mile of schools.
- Maintain current outstanding safety records for students on school buses or in school bus boarding areas. Current data indicates risk of fatal or serious injury to students on or near school buses is extremely low.
- c. Continue to implement eight year plan to upgrade school zone signs to reduce speeds around all elementary and middle schools in the state.

Traffic Records

Upgrade traffic records and data systems to improve support for problem identification and evaluation of program effectiveness:

- a. Provide an ongoing statewide forum for traffic records and support the coordination of multi-agency initiatives and projects.
- b. Leverage technology and appropriate government and industry standards to improve the collection, dissemination, and analysis of traffic records data.
 - Reduce paper-based exchanges among traffic

- records systems and stakeholders.
- Develop integrated patient care systems for enhanced injury surveillance.
- Performance Measure: Increase the percent of statewide EMS agencies providing data to State EMS data file.
- Improve the interoperability and exchange of traffic records data among systems and stakeholders for increased efficiency and enhanced integration.
 - Improve the timeliness, utility, and accessibility of statewide collision data.
 - Performance Measure: Decrease the median number of days from date of reported crash to entry into the state crash file.
- d. Promote the value of traffic records data and encourage training opportunities to maximize the effectiveness of the data for decision and policy making.
 - Enhance the structure and activities of the Traffic Records Workgroup and Oversight Council.

Emergency Medical Services

Reduce Emergency Medical Services and ambulance response times.

a. According to the Washington
Administrative Code governing
response times, the following standards
have been adopted: Ten minutes or less
in urban areas, twenty minutes or less
in suburban areas, forty-five minutes
or less in rural areas, and as soon as
possible in wilderness areas. The goal

- for these standards of the WAC is an 80% compliance rate.
- b. Implement statewide systems to collect, distribute and analyze EMS first response data.

Driver Survey 2012: Self-Reported Attitudes, Awareness, and Behavior

Impaired Driving

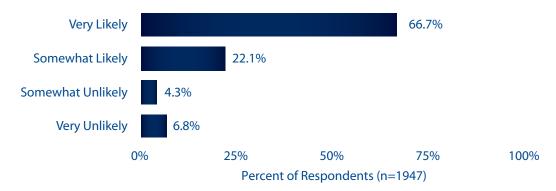

Q: In the past 60 days, how many times have you driven a motor vehicle within 2 hours after drinking alcoholic beverages?

Q: In the past 60 days, have you read, seen or heard anything about drunk driving enforcement by police?

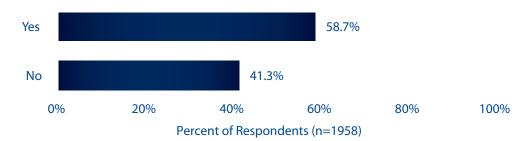

Q: What do you think the chances are of someone getting arrested if they drive drunk?

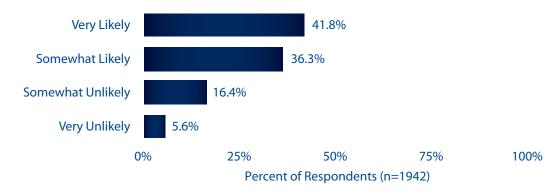

Safety Belts

Q: In the past 60 days, have you read, seen or heard anything about seat belt law enforcement by police?

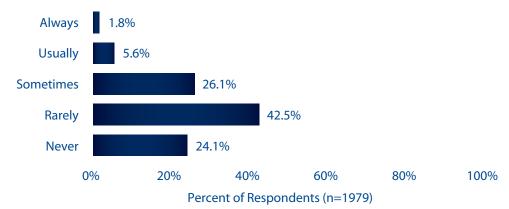

Q: What do you think the chances are of getting a ticket if you don't wear your seat belt?

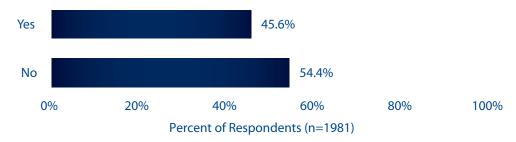

Speeding

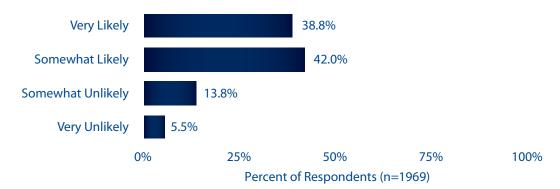

Q: On a local road with a speed limit of 25 mph, how often do you driver faster than 30 mph?

Q: In the past 60 days, have you read, seen or heard anything about speed enforcement by police?

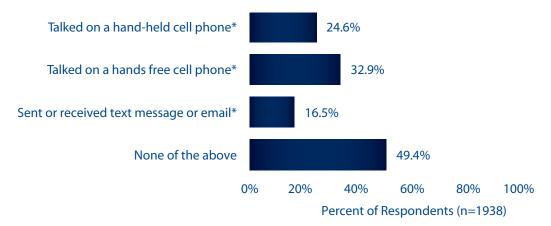

Q: If you are driving at 68 mph on a freeway posted for 60 mph, what are the chances you will get a ticket?

Distracted Driving

Q: In the past 30 days, have you done any of the following while driving? (Please check all that apply.)

^{*}Categories are not mutually exclusive since respondents may have selected more than one answer.

E. HIGHWAY SAFETY PLAN COST SUMMARY (2013-HSP-1/HSP Form 217)

The following federal budget summaries are based on projects outlined in the Planning Document in Section II, and are an estimate based on expected funding. A revised "initial obligating 2013-HSP-1" will be submitted to NHTSA Northwest Region within 30 days of learning what actual funds will be provided.

IV. Agreement Provisions, State Certification & Assurances

FY 2013 State Certifications 8/2/12

STATE CERTIFICATIONS AND ASSURANCES

Failure to comply with applicable Federal statutes, regulations and directives may subject State officials to civil or criminal penalties and/or place the State in a high risk grantee status in accordance with 49 CFR 18.12.

Each fiscal year the State will sign these Certifications and Assurances that the State complies with all applicable Federal statutes, regulations, and directives in effect with respect to the periods for which it receives grant funding. Applicable provisions include, but not limited to, the following:

- · 23 U.S.C. Chapter 4 Highway Safety Act of 1966, as amended
- 49 CFR Part 18 Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments
- 23 CFR Chapter II (§§1200, 1205, 1206, 1250, 1251, & 1252) Regulations governing highway safety programs
- NHTSA Order 462-6C Matching Rates for State and Community Highway Safety Programs
- · Highway Safety Grant Funding Policy for Field-Administered Grants

Certifications and Assurances

Section 402 Requirements (as amended by Pub. L. 112-141)

The Governor is responsible for the administration of the State highway safety program through a State highway safety agency which has adequate powers and is suitably equipped and organized (as evidenced by appropriate oversight procedures governing such areas as procurement, financial administration, and the use, management, and disposition of equipment) to carry out the program (23 USC 402(b) (1) (A));

The political subdivisions of this State are authorized, as part of the State highway safety program, to carry out within their jurisdictions local highway safety programs which have been approved by the Governor and are in accordance with the uniform guidelines promulgated by the Secretary of Transportation (23 USC 402(b) (1) (B));

At least 40 percent of all Federal funds apportioned to this State under 23 USC 402 for this fiscal year will be expended by or for the benefit of the political subdivision of the State in carrying out local highway safety programs (23 USC 402(b) (1) (C)), unless this requirement is waived in writing;

This State's highway safety program provides adequate and reasonable access for the safe and convenient movement of physically handicapped persons, including those in wheelchairs, across curbs constructed or replaced on or after July 1, 1976, at all pedestrian crosswalks (23 USC 402(b) (1) (D));

The State will implement activities in support of national highway safety goals to reduce motor vehicle related fatalities that also reflect the primary data-related crash factors within the State as identified by the State highway safety planning process, including:

- National law enforcement mobilizations and high-visibility law enforcement mobilizations,
- Sustained enforcement of statutes addressing impaired driving, occupant protection, and driving in excess of posted speed limits,
- An annual statewide safety belt use survey in accordance with criteria established by the Secretary for the measurement of State safety belt use rates to ensure that the measurements are accurate and representative,
- Development of statewide data systems to provide timely and effective data analysis to support allocation of highway safety resources,
- Coordination of its highway safety plan, data collection, and information systems with the State strategic highway safety plan (as defined in section 148)(a)).

(23 USC 402 (b)(1)(F));

The State shall actively encourage all relevant law enforcement agencies in the State to follow the guidelines established for vehicular pursuits issued by the International Association of Chiefs of Police that are currently in effect. (23 USC 402(j)).

Other Federal Requirements

Cash drawdowns will be initiated only when actually needed for disbursement. 49 CFR 18.20

Cash disbursements and balances will be reported in a timely manner as required by NHTSA. 49 CFR 18.21.

The same standards of timing and amount, including the reporting of cash disbursement and balances, will be imposed upon any secondary recipient organizations. 49 CFR 18.41.

Failure to adhere to these provisions may result in the termination of drawdown privileges.

The State has submitted appropriate documentation for review to the single point of contact designated by the Governor to review Federal programs, as required by Executive Order 12372 (Intergovernmental Review of Federal Programs);

Equipment acquired under this agreement for use in highway safety program areas shall be used and kept in operation for highway safety purposes by the State; or the State, by formal agreement with appropriate officials of a political subdivision or State agency, shall cause such equipment to be used and kept in operation for highway safety purposes 23 CFR 1200.21

The State will comply with all applicable State procurement procedures and will maintain a financial management system that complies with the minimum requirements of 49 CFR 18.20;

Federal Funding Accountability and Transparency Act (FFATA)

The State will comply with FFATA guidance, <u>OMB Guidance on FFATA Subaward and Executive Compensation Reporting</u>, August 27, 2010, (https://www.fsrs.gov/documents/OMB_Guidance_on_FFATA_Subaward_and_Executive_compensation_Reporting_08272010.pdf) by reporting to FSRS.gov for each sub-grant awarded:

- Name of the entity receiving the award;
- Amount of the award;
- Information on the award including transaction type, funding agency, the North American Industry Classification System code or Catalog of Federal Domestic Assistance number (where applicable), program source;
- Location of the entity receiving the award and the primary location of performance under the award, including the city, State, congressional district, and country;, and an award title descriptive of the purpose of each funding action;
- A unique identifier (DUNS);
- The names and total compensation of the five most highly compensated officers of the entity if-- of the entity receiving the award and of the parent entity of the recipient, should the entity be owned by another entity;
 - (i) the entity in the preceding fiscal year received-
 - (I) 80 percent or more of its annual gross revenues in Federal awards; and(II) \$25,000,000 or more in annual gross revenues from Federal awards; and(ii) the public does not have access to information about the compensation of the senior executives of the entity through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 (15 U.S.C. 78m(a), 78o(d)) or section 6104 of the Internal Revenue Code of 1986;
- · Other relevant information specified by OMB guidance.

The State highway safety agency will comply with all Federal statutes and implementing regulations relating to nondiscrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin (and 49 CFR Part 21); (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§ 1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. §794) and the Americans with Disabilities Act of 1990 (42 USC § 12101, et seq.; PL 101-336), which prohibits discrimination on the basis of disabilities (and 49 CFR Part 27); (d) the Age Discrimination Act of 1975, as amended (42U.S.C. §§ 6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970(P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse of alcoholism; (g) §§ 523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. §§ 290 dd-3 and 290 ee-3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§ 3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; The Civil Rights Restoration Act of 1987, which provides that any portion of a state or local entity receiving federal funds will obligate all programs or activities of that entity to comply with these civil rights laws; and, (k) the requirements of any other nondiscrimination statute(s) which may apply to the application.

The Drug-free Workplace Act of 1988(41 U.S.C. 702;):

The State will provide a drug-free workplace by:

- Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;
- Establishing a drug-free awareness program to inform employees about:
 - 1. The dangers of drug abuse in the workplace.
 - 2. The grantee's policy of maintaining a drug-free workplace.
 - Any available drug counseling, rehabilitation, and employee assistance programs.
 - The penalties that may be imposed upon employees for drug violations occurring in the workplace.

- Making it a requirement that each employee engaged in the performance of the grant be given a copy of the statement required by paragraph (a).
- d. Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will --
 - 1. Abide by the terms of the statement.
 - Notify the employer of any criminal drug statute conviction for a violation occurring in the workplace no later than five days after such conviction.
- Notifying the agency within ten days after receiving notice under subparagraph
 (d) (2) from an employee or otherwise receiving actual notice of such conviction.
- f. Taking one of the following actions, within 30 days of receiving notice under subparagraph (d) (2), with respect to any employee who is so convicted -
 - Taking appropriate personnel action against such an employee, up to and including termination.
 - Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency.
- Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (a), (b), (c), (d), (e), and (f) above.

BUY AMERICA ACT

The State will comply with the provisions of the Buy America Act (49 U.S.C. 5323(j)) which contains the following requirements:

Only steel, iron and manufactured products produced in the United States may be purchased with Federal funds unless the Secretary of Transportation determines that such domestic purchases would be inconsistent with the public interest; that such materials are not reasonably available and of a satisfactory quality; or that inclusion of domestic materials will increase the cost of the overall project contract by more than 25 percent. Clear justification for the purchase of non-domestic items must be in the form of a waiver request submitted to and approved by the Secretary of Transportation.

POLITICAL ACTIVITY (HATCH ACT).

The State will comply, as applicable, with provisions of the Hatch Act (5 U.S.C. §§1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

CERTIFICATION REGARDING FEDERAL LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

- 1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
- 2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
- 3. The undersigned shall require that the language of this certification be included in the award documents for all sub-award at all tiers (including subcontracts, subgrants, and contracts under grant, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

RESTRICTION ON STATE LOBBYING

None of the funds under this program will be used for any activity specifically designed to urge or influence a State or local legislator to favor or oppose the adoption of any specific legislative proposal pending before any State or local legislative body. Such activities include both direct and indirect (e.g., "grassroots") lobbying activities, with one exception. This does not preclude a State official whose salary is supported with NHTSA

funds from engaging in direct communications with State or local legislative officials, in accordance with customary State practice, even if such communications urge legislative officials to favor or oppose the adoption of a specific pending legislative proposal.

CERTIFICATION REGARDING DEBARMENT AND SUSPENSION

Instructions for Primary Certification

- By signing and submitting this proposal, the prospective primary participant is providing the certification set out below.
- 2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
- 3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.
- 4. The prospective primary participant shall provide immediate written notice to the department or agency to which this proposal is submitted if at any time the prospective primary participant learns its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- 5. The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meaning set out in the Definitions and coverage sections of 49 CFR Part 29. You may contact the department or agency to which this proposal is being submitted for assistance in obtaining a copy of those regulations.
- 6. The prospective primary participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR Part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction.

- 7. The prospective primary participant further agrees by submitting this proposal that it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion-Lower Tier Covered Transaction," provided by the department or agency entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.
- 8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR Part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the list of Parties Excluded from Federal Procurement and Non-procurement Programs.
- 9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- 10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR Part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

Certification Regarding Debarment, Suspension, and Other Responsibility Matters-Primary Covered Transactions

- (1) The prospective primary participant certifies to the best of its knowledge and belief, that its principals:
 - (a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded by any Federal department or agency;
 - (b) Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of record, making false statements, or receiving stolen property;
 - (c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or Local) with commission of any of the offenses enumerated in paragraph (1)(b) of this certification; and

- (d) Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State, or local) terminated for cause or default.
- (2) Where the prospective primary participant is unable to certify to any of the Statements in this certification, such prospective participant shall attach an explanation to this proposal.

Instructions for Lower Tier Certification

- By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below.
- 2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.
- 3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
- 4. The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meanings set out in the Definition and Coverage sections of 49 CFR Part 29. You may contact the person to whom this proposal is submitted for assistance in obtaining a copy of those regulations.
- 5. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR Part 9, subpart 9.4, debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.
- 6. The prospective lower tier participant further agrees by submitting this proposal that is it will include the clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion -- Lower Tier Covered Transaction," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions. (See below)
- A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under

- 48 CFR Part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the List of Parties Excluded from Federal Procurement and Non-procurement Programs.
- 8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
- 9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR Part 9, subpart 9.4, suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion --Lower Tier Covered Transactions:

- The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this transaction by any Federal department or agency.
- Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

POLICY TO BAN TEXT MESSAGING WHILE DRIVING

In accordance with Executive Order 13513, Federal Leadership On Reducing Text Messaging While Driving, and DOT Order 3902.10, Text Messaging While Driving, States are encouraged to:

- (1) Adopt and enforce workplace safety policies to decrease crashed caused by distracted driving including policies to ban text messaging while driving—
 - a. Company-owned or –rented vehicles, or Government-owned, leased or rented vehicles; or
 - Privately-owned when on official Government business or when performing any work on or behalf of the Government.
- (2) Conduct workplace safety iniatives in a manner commensurate with the size of the business, such as —

- Establishment of new rules and programs or re-evaluation of existing programs to prohibit text messaging while driving; and
- Education, awareness, and other outreach to employees about the safety risks associated with texting while driving.

ENVIRONMENTAL IMPACT

The Governor's Representative for Highway Safety has reviewed the State's Fiscal Year highway safety planning document and hereby declares that no significant environmental impact will result from implementing this Highway Safety Plan. If, under a future revision, this Plan will be modified in such a manner that a project would be instituted that could affect environmental quality to the extent that a review and statement would be necessary, this office is prepared to take the action necessary to comply with the National Environmental Policy Act of 1969 (42 USC 4321 et seq.) and the implementing regulations of the Council on Environmental Quality (40 CFR Parts 1500-1517).

Darrin Grondel, Governor's Representative for Highway Safety

Washington State or Commonwealth

For Fiscal Year

August 8, 2012 Date

Appendix A: NHTSA Traffic Safety Performance Measures

NHTSA TRAFFIC SAFETY PERFORMANCE MEASURES

The following data is reported as required in the NHTSA publication titled Traffic Safety Performance Measures for States and Federal Agencies. DOT HS 811 025 – August 2008.

States will report the number of citations and arrests from all grant funded enforcement activities for activity measures A-1, A-2, and A-3 annually beginning with their 2010 Highway Safety Plans and Annual Reports.

Seat belt measures:

A-1) Number of seat belt citations issued during grant-funded enforcement activities (grant activity reporting) 2,762

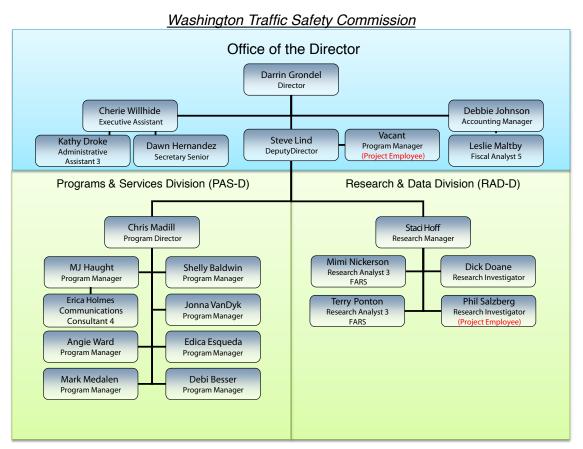

Alcohol measures:

A-2) Number of impaired driving citations issued during grant-funded enforcement activities (grant activity reporting) 4,460

Speeding measures:

A-3) Number of speeding citations issued during grant-funded enforcement activities (grant activity reporting) 7,368

Appendix B: WTSC Organizational Chart

NOTE: Staff positions funded by Planning & Administration are not included in the HSPP. They will be identified and provided by letter to NHTSA Region 10 as required.

Appendix C: WTSC Planning & Programming Timeline

WTSC PLANNING & PROGRAMMING TIMELINE

This document represents actions taken and currently underway to prepare the FFY 2013 HSPP and 2012 Annual Report. We are in the process of creating a planning and programming timeline for the FFY 2014 HSPP in order to comply with new MAP-21 requirements.

- 1. January: Problem identification.
- **2. January February:** Establish goals, priorities and performance measures in state *Strategic Highway Safety Plan: Target Zero*.
- 3. March: Develop performance plan.
- 4. April 1 May 15: Solicit & receive grant requests.
- 5. May 15 June 1: Staff review grant requests.
- 6. June 1 June 21: Staff and TAC evaluate, grade and rank grant applications.
- **7. July:** Commissioners review and approve grants for funding.
- **8. July August:** Prepare HSPP and submit advance draft copy to NHTSA for preliminary review and comment.
- 9. August 31: Submit final HSPP to NHTSA Region 10.
- **10. October 1:** Initial federal highway funds awarded to WTSC.
- 11. October 1 September 30:
 - Grants awarded to sub-grantees
 - WTSC obligates funds to GTS as federal funds received
 - Project monitoring
- 12. October December: HSPP close out
- 13. December 31: Submit Annual Report

Regional Administrator

September 28, 2012

The Honorable Christine Gregoire Governor of Washington Legislative Building P.O. Box 40002 Olympia, Washington 98504-0002

Dear Governor Gregoire,

I write to inform you that my office has reviewed and accepted Washington's Federal Fiscal Year 2013 Section 402 highway safety application, as submitted on August 31, 2012. The application consisted of the Highway Safety Plan, Performance Plan, Certification and Assurances Statement, and a Cost Summary (HSP-1). Based on these submissions, we find your state's highway safety program to be in compliance with the requirements of the Section 402 program authorized under Title 23 United States Code and is accepted by the National Highway Traffic Safety Administration.

Specific details relating to the implementation of the Highway Safety Performance Plan have been provided to the WTSC Director, Darrin Grondel in my letter of September 28, 2012. The Plan developed by WTSC once again contained balanced and well thought-out strategies to address the wide variety of highway safety issues in Washington State.

I have been impressed with the Target Zero Team Project, and find fitting that the State of Washington deemed it important enough to continue the effort by supporting the TZT with State funds. I am looking forward to what the rural TZT effort brings; as the data suggest those rural areas continue to be a challenge.

The Alcohol Program in the State of Washington continues to take great strides in achieving the goals set forth in the State's Strategic Highway Safety Plan, along with a continuing strong showing in the seat belt usage rate. Combined, those programs provide some impressive results in reducing highway related fatalities. The Target Zero initiatives also continue to deliver a program at the local level that has provided for additional participation and strategic partnerships which lend to the overall delivery of a strong highway safety program.

Regional Administrator

I look forward to continuing the partnership between my office and the Washington Traffic Safety Commission, as I have found them to be a very talented and innovative group. Darrin Grondel continues to foster a passion for highway safety and I appreciate the leadership and dedication to highway safety, both nationally and here at home. I look forward to a successful 2012 - 2013.

Sincerely,

John M. Moffat

September 28, 2012

Mr. Darrin Grondel, Director Washington Traffic Safety Commission 621 – 8th Avenue, Suite 409 PO BOX 40944 OLYMPIA WA 98504-0944

RE: FY2013 Highway Safety Plan

Dear Director Grondel.

We have reviewed Washington State's Federal Fiscal year 2013 Performance Plan, Highway Safety Plan, Certification Statement, and associated documents as received on August 31, 2012. Based on these submissions, we find your State's highway safety program to be in compliance with the requirements of the Section 402 program authorized under Title 23 United States Code and is accepted by the National Highway Traffic Safety Administration.

This determination does not constitute an obligation of Federal funds for the fiscal year identified above or an authorization to incur costs against those funds. The obligation of Section 402 program funds will be effected in writing by the NHTSA Administrator at the commencement of the fiscal year identified above. However, Federal funds re-programmed from the prior-year Highway Safety Program (carryforward funds) will be available for immediate use by the State on October 1. Reimbursement will be contingent upon the submission of an updated HS Form 217 (or its electronic equivalent), consistent with the requirements of 23 CFR 1200.14(d), within 30 days after either the beginning of the fiscal year identified above or the date of this letter, whichever is later.

I have been impressed with the Target Zero Team Project, and find fitting that the State of Washington deemed it important enough to continue the effort by supporting the TZT with State funds. I am looking forward to what the rural TZT effort brings; as the data suggests those rural areas continue to be a challenge.

The Alcohol Program in the State of Washington continues to take great strides in achieving the goals set forth in the State's Strategic Highway Safety Plan, along with a continuing strong showing in the seat belt usage rate. Combined, those programs provide some impressive results in reducing highway related fatalities. The Target Zero initiatives also continue to deliver a program at the local level that has

Regional Administrator

provided for additional participation and strategic partnerships which lend to the overall delivery of a strong highway safety program. The full time traffic law enforcement in the 3 county area of influence as seen with the Target Zero Teams initiative, coupled with the State-wide national campaigns and crackdowns have had a positive impact on the goals set forth in your Highway Safety Plan. Again, I look forward to what the rural effort provides in terms of highway safety returns.

Your leadership has been essential in the success of your program, and I am appreciative of the relationship you and your staff continue to foster with the NHTSA Region 10 Office, as well as NHTSA Headquarters. I appreciate the cooperation between our two offices, and look to continue that tradition in 2013.

Sincerely,

John M. Moffat

JMM/gtf
