

Subject Index to  
PHMSA Hazardous Materials  
Enforcement Case Decisions  
May 15, 2014

This document contains a subject index of enforcement cases in which there was an order issued by PHMSA's Chief Counsel or an Administrative Law Judge (including those cases in which a Decision on Appeal was issued by PHMSA's Administrator) between 2005 and May 15, 2014.<sup>1</sup> There are two parts to this document:

- a list of subject matters with the name of each case in which that subject or issue was involved, and
- a separate appendix listing each case by name, with the date of the order, date of the decision on appeal (if any), the docket number by which the decision may be located in [www.regulations.gov](http://www.regulations.gov), the PHMSA case number (plus case designator and region) which may assist in locating the decision on PHMSA's website:  
(<http://phmsa.dot.gov/hazmat/enforcement/reports-documents/enforcement-decisions>).

When a respondent (a) makes an informal response or requests a formal administrative hearing but does not satisfy the requirements in 49 C.F.R. § 107.319(b), and a compromise or settlement is not reached, or (b) fails to respond to a notice of probable violation, the Chief Counsel issues an order in accordance with 49 C.F.R. § 107.317(d). The respondent may file a written appeal of the Chief Counsel's order to PHMSA's Administrator. 49 C.F.R. § 107.325(b).

When a respondent requests a formal administrative hearing which complies with the requirements in 49 C.F.R. § 107.319(b), and a compromise cannot be reached, the Chief Counsel refers the case to the Office of Hearings for assignment of an Administrative Law Judge who conducts further proceedings, unless and until the respondent withdraws its request in writing or agrees to a compromise of the case. 49 C.F.R. § 107.319(c) & (d). Any party, including PHMSA, aggrieved by a decision of the Administrative Law Judge may file a written appeal to PHMSA's Administrator. 49 C.F.R. § 107.325(a).

It is these last two categories of orders and decisions on appeal which are listed in this index, which will be periodically be updated to include future cases.

Please notify Joseph Solomey, PHMSA's Assistant Chief Counsel for Hazardous Materials Safety Law, of any errors in this subject matter index, at [joe.solomey@dot.gov](mailto:joe.solomey@dot.gov).

---

<sup>1</sup> This document does not include cases (or tickets) in which the respondent (1) admitted the violation(s) and paid the penalty proposed in the ticket or notice of probable violation, or (2) reached a compromise or settlement. When a respondent admits the violation(s) alleged in a ticket or notice of probable violation and pays the proposed civil penalty, the case is closed. Similarly, when a respondent makes an informal response or requests a formal administrative hearing, PHMSA's Office of Chief Counsel may attempt to reach a compromise or settlement in accordance with 49 C.F.R. § 107.107.327. If a compromise is reached, a compromise order is issued and the case is closed upon payment of the compromise penalty amount (which may include an installment payment plan).
