

# Beyond Traffic 2045

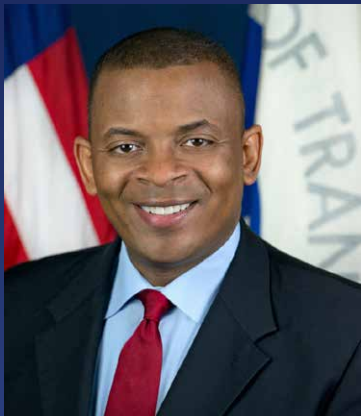

U.S. Department of Transportation

## Reimagining Transportation

Technology, Disruptive Innovation, and the Future of Transportation

### A New Thought Leadership Speaker Series at Volpe

A special video introduction by

**Anthony Foxx**

U.S. Transportation Secretary

Transportation could change more in the next 10 years than it has over the past century.

Advances in connected automation, navigation, communication, robotics, and smart cities—coupled with a surge in transportation-related data—will dramatically change transportation and its workforce.

This series will inform the ongoing national dialogue on **Beyond Traffic 2045**, U.S. DOT's 30-year framework for the future, and explore new innovations that will change how we think about transportation.

**COMING**  
**Fall 2015**

Join the conversation via webinar or in person.
