**STEWARDSHIP AND OVERSIGHT AGREEMENT
ON PROJECT ASSUMPTION AND PROGRAM OVERSIGHT
BY AND BETWEEN
FEDERAL HIGHWAY ADMINISTRATION, MAINE DIVISION
AND THE
STATE OF MAINE DEPARTMENT OF TRANSPORTATION
(April 2015)**

SECTION I. BACKGROUND AND INTRODUCTION

The Federal-aid Highway Program (FAHP) is a federally-assisted program of State-selected projects. The Federal Highway Administration (FHWA) and the State Departments of Transportation have long worked as partners to deliver the FAHP in accordance with Federal requirements. In enacting 23 U.S.C. 106(c), as amended, Congress recognized the need to give the States more authority to carry out project responsibilities traditionally handled by FHWA. Congress also recognized the importance of a risk-based approach to FHWA oversight of the FAHP, establishing requirements in 23 U.S.C. 106(g). This Stewardship and Oversight (S&O) Agreement sets forth the agreement between the FHWA Maine Division and the State of Maine Department of Transportation (MaineDOT) on the roles and responsibilities of the FHWA Maine Division and the MaineDOT with respect to Title 23 project approvals and related responsibilities, and FAHP oversight activities.

The scope of FHWA responsibilities, and the legal authority for State DOT assumption of FHWA responsibilities, developed over time. The U.S. Secretary of Transportation delegated responsibility to the Administrator of the FHWA for the FAHP under Title 23 of the United States Code, and associated laws. (49 CFR 1.84 and 1.85) The following legislation further outlines FHWA's responsibilities:

- Intermodal Surface Transportation Efficiency Act (ISTEA) of 1991;
- Transportation Equity Act for the 21st Century (TEA-21) of 1998;
- Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) of 2005; and
- Moving Ahead for Progress in the 21st Century Act (MAP-21) of 2012 (P.L. 112-141).

The FHWA may not assign or delegate its decision-making authority to a State Department of Transportation unless authorized by law. Section 106 of Title 23, United States Code (Section 106), authorizes the State to assume specific project approvals. For projects that receive funding under Title 23, U.S.C., and are on the National Highway System (NHS) including projects on the Interstate System, the State may assume the responsibilities of the Secretary of the U.S. Department of Transportation under Title 23 for design, plans, specifications, estimates, contract awards, and inspections with respect to the projects unless the Secretary determines that the assumption is not appropriate. (23 U.S.C. 106(c)(1)) For projects under Title 23, U.S.C. that are

not on the NHS, the State shall assume the responsibilities for design, plans, specifications, estimates, contract awards, and inspections unless the State determines that such assumption is not appropriate. (23 U.S.C. 106(c)(2))

For all other project activities which do not fall within the specific project approvals listed in Section 106 or are not otherwise authorized by law, the FHWA may authorize a State DOT to perform work needed to reach the FHWA decision point, or to implement FHWA's decision. However, such decisions themselves are reserved to FHWA.

The authority given to the MaineDOT under Section 106(c)(1) and (2) is limited to specific project approvals listed herein. Nothing listed herein is intended to include assumption of FHWA's decision-making authority regarding Title 23, U.S.C. eligibility or Federal-aid participation determinations. The FHWA always must make the final eligibility and participation decisions for the Federal-aid Highway Program.

Section 106(c)(3) requires FHWA and the State DOT to enter into an agreement relating to the extent to which the State DOT assumes project responsibilities. This Stewardship and Oversight Agreement (S&O Agreement), includes information on specific project approvals and related responsibilities, and provides the requirements for FHWA oversight of the FAHP (Oversight Program), as required by 23 U.S.C. 106(g).

SECTION II. INTENT AND PURPOSE OF S&O AGREEMENT

The intent and purpose of this S&O Agreement is to document the roles and responsibilities of the FHWA's Maine Division Office (FHWA or Division) and the Maine Department of Transportation (MaineDOT) with respect to project approvals and related responsibilities, and to document the methods of oversight which will be used to efficiently and effectively deliver the FAHP.

The Project Action Responsibility Matrix, Attachment A to this S&O Agreement and as further described in Section VIII of this S&O Agreement, identifies FHWA FAHP project approvals and related responsibilities MaineDOT assumes from FHWA on a program-wide basis pursuant to 23 U.S.C. 106(c) and other legal authorities. Upon execution of this agreement, Attachment A shall be controlling and except as specifically noted in Attachment A, no other agreements, attachments, or other documents shall have the effect of delegating or assigning FHWA approvals to MaineDOT on a program-wide basis under 23 U.S.C 106 or have the effect of altering Attachment A.

SECTION III. ASSUMPTION OF RESPONSIBILITIES FOR FEDERAL-AID PROJECTS ON THE NATIONAL HIGHWAY SYSTEM

- A. MaineDOT *may assume* the FHWA's Title 23 responsibilities for design; plans, specifications, and estimates (PS&E); contract awards; and inspections, with respect to *Federal-aid projects on the National Highway System (NHS)* if both *MaineDOT* and *FHWA* determine that assumption of responsibilities is appropriate.
- B. Approvals and related activities for which MaineDOT has assumed responsibilities as shown in Attachment A will apply program wide unless project specific actions for which the Division will carry out the approval or related responsibilities are documented in

accordance with the FHWA Project of Division Interest/Project of Corporate Interest Guide (FHWA PoDI/PoCI Guide) located at:

<http://www.fhwa.dot.gov/federalaid/stewardship/>

- C. MaineDOT may not assume responsibilities for Interstate projects that are in high risk categories. (23 U.S.C. 106(c)(1))
- D. MaineDOT is to exercise any and all assumptions of the Secretary responsibilities for Federal-aid projects on the NHS in accordance with Federal laws, regulations and policies.

SECTION IV. ASSUMPTION OF RESPONSIBILITIES FOR FEDERAL-AID PROJECTS OFF THE NATIONAL HIGHWAY SYSTEM

- A. MaineDOT *shall assume* the FHWA’s Title 23 responsibilities for design, PS&Es, contract awards, and inspections, with respect to *Federal-aid projects off the NHS (non-NHS)* unless *MaineDOT* determines that assumption of responsibilities is not appropriate. (23 U.S.C. 106(c)(2))
- B. Except as provided in 23 U.S.C.109(o), MaineDOT is to exercise the Secretary’s approvals and related responsibilities on these projects in accordance with Federal laws.
- C. MaineDOT, in its discretion, may request FHWA carry out one or more non-NHS approvals or related responsibilities listed as “State” in Attachment A on a program-wide basis. For a project specific request, MaineDOT may request FHWA carry out any approval or related responsibility listed in Attachment A off the NHS. Such project-specific requests shall be documented in accordance with the FHWA PoDI/PoCI Guide.
- D. Pursuant to 23 U.S.C. 109(o), non-NHS projects shall be designed and constructed in accordance with State laws, regulations, directives, safety standards, design standards, and construction standards.

SECTION VIII. PROJECT ACTION RESPONSIBILITY MATRIX

Attachment A, Project Action Responsibility Matrix, to this S&O Agreement identifies FAHP project approvals and related responsibilities. The Matrix specifies which approvals and related responsibilities are assumed by MaineDOT under 23 U.S.C. 106(c) or other statutory or regulatory authority, as well as approvals and related responsibilities reserved to FHWA.

SECTION IX. HIGH RISK CATEGORIES

- A. In 23 U.S.C. 106(c), Congress directs that the Secretary shall not assign any approvals or related responsibilities for projects on the Interstate System if the Secretary determines the project to be in a high risk category. Under 23 U.S.C. 106(c)(4)(B), the Secretary

may define high risk categories on a national basis, State-by-State basis, or national and State-by-State basis.

- B. The Maine Division has determined there are no high risk categories.

SECTION X. FHWA OVERSIGHT PROGRAM UNDER 23 U.S.C. 106(g)

- A. In 23 U.S.C. 106(g), Congress directs that the Secretary shall establish an oversight program to monitor the effective and efficient use of funds authorized to carry out the FAHP. This program includes FHWA oversight of the State's processes and management practices, including those involved in carrying out the approvals and related responsibilities assumed by the State under 23 U.S.C. 106(c). Congress defines that, at a minimum, the oversight program shall be responsive to all areas relating to financial integrity and project delivery.
- B. The FHWA shall perform annual reviews that address elements of MaineDOT's financial management system in accordance with 23 U.S.C. 106(g)(2)(A). FHWA will periodically review MaineDOT's monitoring of sub-recipients pursuant to 23 U.S.C. 106(g)(4)(B).
- C. The FHWA shall perform annual reviews that address elements of the project delivery systems of MaineDOT, which elements include one or more activities that are involved in the life cycle of project from conception to completion of the project. The FHWA will also evaluate the practices of MaineDOT for estimating project costs, awarding contracts, and reducing costs. 23 U.S.C. 106(g)(2) and (3).
- D. To carry out the requirements of 23 U.S.C. 106(g), the FHWA will employ a risk management framework to evaluate financial integrity and project delivery, and balance risk with staffing resources, available funding, and the State's transportation needs. The FHWA may work collaboratively with MaineDOT to assess the risks inherent with the FAHP and funds management, and how that assessment will be used to align resources to develop appropriate risk response strategies.

Techniques the Maine Division and MaineDOT may use to identify and analyze risks and develop response strategies and carry out the requirements of 23 U.S.C. 106(g) include the following:

- Program Assessments;
- FIRE Reviews;
- Program Reviews;
- Certification Reviews;
- Recurring or periodic reviews such as the Compliance Assessment Program (CAP); and
- Inspections of project elements or phases.

These techniques will be carried out in a manner consistent with applicable Maine Division Standard Operating Procedures or other control documents relating to program

assessments, FIRE, program reviews, CAP, etc. Reviews may be conducted by individual FHWA staff or by teams including MaineDOT staff.

E. Program Responsibility Matrix

Attachment B to this S&O Agreement is the Program Responsibility Matrix that identifies all relevant FHWA program actions, and Maine Division and MaineDOT program contact offices.

F. Manuals and Operating Agreements

MaineDOT manuals, agreements and other control documents that have been approved for use on Federal-aid projects are listed in Attachment C to this S&O Agreement.

G. Stewardship and Oversight Indicators

MaineDOT and the Maine Division agree to establish and track Stewardship and Oversight indicators. Initial measures will be established jointly within one month of execution of this document. Sources such as MaineDOT's Dashboard, MaineDOT's Capstone Measures, FHWA's Director of Field Services Dashboard will be used to establish measures. Specific indicators for locally administered projects will be considered. Reports depicting the status of each measure will be issued quarterly by MaineDOT's Results and Information Office to MaineDOT and Maine Division leadership. Annually, MaineDOT and Maine Division leadership will meet to review the status of each measure and consider revisions to the indicators. The results will be used to implement countermeasures and actions when the data is moving away from the desired target direction.

SECTION XI. STATE DOT OVERSIGHT AND REPORTING REQUIREMENTS

A. State DOT Oversight and Reporting Requirements

MaineDOT is responsible for demonstrating to the FHWA how it is carrying out its responsibilities in accordance with this S&O Agreement. In order to fulfill this responsibility, MaineDOT will:

- Follow all federal regulations and requirements.
- Maintain individual Federal-aid project files that will include documentation of all required FHWA actions and MaineDOT's assumed project approvals as set forth in this Agreement. MaineDOT will provide FHWA access to the project files when requested.
- Provide the data, as noted in Section X. G. above, to analyze an agreed set of Stewardship and Oversight Indicators.

B. State DOT Oversight of Locally Administered Projects

MaineDOT has an LPA Manual, training course and certification program. The responsibilities for MaineDOT and the local entity are clearly and appropriately identified.

MaineDOT monitors the activities of LPAs as necessary to ensure that sub-awards are used for authorized purposes, in compliance with Federal statutes, regulations, and the terms and conditions of the sub-award. MaineDOT measures sub-award project delivery performance.

MaineDOT evaluates LPA requests to administer projects based on the LPA's experience with projects of similar size, staff experience, and ability to manage and track project expenditures.

MaineDOT assigns to each locally administered project a MaineDOT Project Manager (PM) with the authority to enforce all requirements. The PM is responsible for project oversight in accordance with MaineDOT's LPA Manual and all other actions necessary to ensure the proper performance of the MaineDOT/LPA Project Agreement.

[LPA Manual](#)

- B.4. MaineDOT shall assess whether a sub-recipient has adequate project delivery systems and sufficient accounting controls to properly manage projects, using the following actions, programs, and processes:

MaineDOT uses appropriate risk analysis to determine whether an LPA has adequate project delivery systems and sufficient accounting controls to properly manage federal funds.

If MaineDOT concludes that an LPA does not have adequate experience, project delivery systems, or sufficient financial tracking abilities to administer a particular project, other options will be considered – including undertaking the project with MaineDOT personnel.

- B.5. MaineDOT shall assess whether a sub-recipient is staffed and equipped to perform work satisfactorily and cost effectively, and that adequate staffing and supervision exists to manage the Federal project(s), by using the following actions, programs, and processes:

MaineDOT uses appropriate risk analysis to determine whether an LPA is adequately staffed and suitably equipped to satisfactorily deliver a federal project based on the type of project, and the LPA’s approach to perform the various tasks associated with the specific project.

MaineDOT’s LPA Certification Course certifies individuals in local project administration. To administer federal-aid projects in Maine, LPAs

must employ someone with decision-making authority who has LPA certification.

MaineDOT assigns a MaineDOT staff Project Manager to oversee the LPA's delivery of the project.

- B.6. MaineDOT shall assess whether sub-recipient projects receive adequate inspection to ensure they are completed in conformance with approved plans and specifications, by using the following actions, programs, and processes:

MaineDOT's process to ensure compliance with this requirement is documented by the following actions, programs, and processes:

MaineDOT requires a full-time LPA employee with decision-making authority to be in responsible charge of a locally administered project. This person must also receive a MaineDOT LPA certification.

This requirement is described in the LPA Manual and formalized in a MaineDOT/LPA Project Agreement.

 - Maintaining individual Federal-aid project files that will include documentation of all required FHWA actions and MaineDOT's assumed project approvals as set forth in this Agreement. MaineDOT will provide FHWA access to the project files when requested.

- As the Stewardship and Oversight Indicators, as noted in Section X. G. above, are developed, consideration will be given to Indicators for locally administered projects.

MaineDOT and the Maine Division, as part of the annual Risk Assessment, will assess the LPA Program to determine if there are opportunities to improve the processes outlined.
