SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 30141(a)(1)(B), a motor vehicle, including a trailer, that was not originally manufactured to conform to all applicable FMVSS, and has no substantially similar U.S.-certified counterpart, shall be refused admission into the United States unless NHTSA has decided that the motor vehicle has safety features that comply with, or are capable of being altered to comply with, all applicable FMVSS based on destructive test data or such other evidence as NHTSA decides to be adequate.

Petitions for eligibility decisions may be submitted by either manufacturers or importers who have registered with NHTSA pursuant to 49 CFR Part 592. As specified in 49 CFR 593.7, NHTSA publishes notices in the **Federal Register** of each petition that it receives, and affords interested persons an opportunity to comment on the petition. At the close of the comment period, NHTSA decides, on the basis of the petition and any comments that it has received, whether the vehicle is eligible for importation. The agency then publishes this decision in the **Federal Register**.

J.K. Technologies, LLC of Baltimore, Maryland (J.K.) (Registered Importer 90-006) has petitioned NHTSA to decide whether nonconforming 2005 Ifor Williams LM85G trailers are eligible for importation into the United States. J.K. believes these vehicles are capable of being modified to meet all applicable FMVSS.

J.K. submitted information with its petition intended to demonstrate that 2005 Ifor Williams LM85G trailers conform to one FMVSS and are capable of being altered to comply with all other standards to which they were not originally manufactured to conform.

Specifically, the petitioner claims that 2005 Ifor Williams LM85G trailers, as originally manufactured, are equipped with DOT-compliant tires, as required by Standard No. 119 *New Pneumatic Tires for Vehicles other than Passenger Cars*.

The petitioner contends that the nonconforming 2005 Ifor Williams LM85G trailers are capable of being readily altered to meet the following standards, in the manner indicated:

Standard No. 108 *Lamps, Reflective Devices and Associated Equipment:*

Installation of conforming reflex reflectors, tail lamps, license plate lamps, rear side marker lamps, front side marker lamps, intermediate side markers lamps, rear identification lamps, and front and rear clearance lamps, as necessary to achieve compliance with the standard.

Standard No. 120 *Tire Selection and Rims for Motor Vehicles Other than Passenger Cars:* installation of a tire information placard, and inspection of all vehicles and replacement of any nonconforming rims with ones that meet the standard.

In addition, the petitioner states that a vehicle identification number plate or label must be installed to meet the requirements of 49 CFR part 565 if the vehicle is not already so equipped.

All comments received before the close of business on the closing date indicated above will be considered, and will be available for examination in the docket at the above addresses both before and after that date. To the extent possible, comments filed after the closing date will also be considered. Notice of final action on the petition will be published in the **Federal Register** pursuant to the authority indicated below.

Authority: 49 U.S.C. 30141(a)(1)(A) and (b)(1); 49 CFR 593.8; delegations of authority at 49 CFR 1.50 and 501.8.

Issued on: March 9, 2012.

Director, Office of Vehicle Safety Compliance.

SUPPLEMENTARY INFORMATION: President Barack Obama and Prime Minister Stephen Harper created the U.S.-Canada Regulatory Cooperation Council (RCC) on February 4, 2011. After private sector consultations and bilateral negotiations, the RCC released the Joint Action Plan on Regulatory Cooperation on December 7, 2011. The Joint Action Plan is a practical first step to increased

regulatory cooperation between the United States and Canada.

In order to address the dangerous goods (hazardous materials) transportation opportunities identified in the Joint Action Plan, the Transportation—Dangerous Goods Working Group led by senior officials of regulatory agencies from both countries has developed a work plan with concrete objectives, deliverables and milestones for tangible progress within the RCC's two-year mandate. When available, the work plan will be posted at <http://www.trade.gov/rcc/>.

The purpose of this request is to invite all interested stakeholders to provide comments relative to the plan and the RCC. The draft work plan has also been posted and is available for viewing under this docket number. All stakeholders including those who may not have participated in the United States-Canada Regulatory Cooperation Council (RCC) stakeholder engagement session on January 31, 2012 in Washington, DC are welcome to submit additional comments. Comments that were submitted prior to the publication date of this notice will be posted to this docket and do not need to be resubmitted.

PHMSA is particularly soliciting comments and suggestions in the following areas:

- The development of ongoing cooperation frameworks and alignment mechanisms in the work plan.
- Technical input relevant to issues identified in the work plan or otherwise in relation to the transportation of hazardous materials between the U.S. and Canada.
- Your preferred method and frequency of stakeholder engagement for the working group.
- Overall United States-Canada regulatory cooperation and the RCC process with respect to the transportation of hazardous materials.

Additional information concerning the RCC and the Joint Action Plan is available at <http://www.trade.gov/rcc/>.

Issued in Washington, DC on March 13, 2012.
