Dear Mr. Richard:

On December 1-5, 2014, representatives of the Michigan Public Service Commission (MI-PSC) acting as an interstate agent for the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to Chapter 601 of 49 United States Code, inspected DTE Gas Company's (DTE) Integrity Management and Operator Qualification procedures for the Vector/DTE pipeline in Michigan. As a result of the inspection, DTE was issued a Notice of Amendment on May 11, 2015, which proposed amendment of the procedures.

DTE submitted its amended procedures on August 11, 2015. The MI-PSC, along with my staff, reviewed the amended procedures and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Allan C. Beshore
Director, Central Region, OPS
