

**CERTIFIED MAIL - RETURN RECEIPT REQUESTED**

February 12, 2015

Mr. Randy Curry  
President  
Chevron Pipe Line Company  
4800 Fournace Place  
Bellaire, TX 77401-2324

**CPF 4-2014-5012**

Dear Mr. Curry:

On November 14, 2013, Chevron Pipe Line Company (CPL) experienced an excavation related accident on its West Texas LPG Pipeline System 10-inch Loop Line near Milford, TX (approximate Mile Post (MP) 39.44). As a result of this accident, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA), Office of Pipeline Safety (OPS), pursuant to Chapter 601 of 49 United States Code conducted an accident investigation and performed an inspection of your related Damage Prevention practices.

As a result of the investigation and inspection, a Notice of Probable Violation, with a Proposed Civil Penalty and Proposed Compliance Order (NOPV) was issued under case file CPF 4-2014-5012 to CPL in a letter dated May 21, 2014. On November 4, 2014, PHMSA issued a Final Order in the matter which was received by Chevron on November 17, 2014. In a letter dated February 2, 2015, Chevron responded to the Final Order with a letter summarizing its actions and requesting closure of the case.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

R. M. Seeley  
Director, Southwest Region  
Pipeline and Hazardous Materials Safety Administration
