Dear Ms. Tyrone:

From May 5 - 8, 2014, representatives of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected the ExxonMobil Pipeline Company (EMPCo) Control Management Program and facilities in Pasadena, TX and surrounding area. As a result of the inspection, EMPCo was issued a Notice of Amendment on September 9, 2014, which proposed amendment of your procedures.

EMPCo submitted the requested procedural modification on October 17, 2014. The submittal was received in my office on October 24, 2014. My staff reviewed the amended procedure, and the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

R. M. Seeley
Director, Southwest Region
Pipeline and Hazardous Materials Safety Administration
