Dear Mr. Checketts:

On April 9-11, 2013, representatives from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of Kern River Gas Transmission (KRG T) procedures in Salt Lake City, UT. As a result of the inspection, KRG T was issued a Notice of Amendment on April 25, 2013, which proposed amendment of your procedures.

KRG T submitted its amended procedures on May 23, 2013. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Chris Hoidal
Director, Western Region
