

**CERTIFIED MAIL - RETURN RECEIPT REQUESTED**

July 27, 2016

Mr. Ryan Coffey  
Executive Vice President, Operations  
Florida Gas Transmission Company, LLC  
800 Sonterra Blvd., #400  
San Antonio, TX 78258

**CPF No. 4-2013-1014H**

Dear Mr. Coffey:

On June 18, 2013, a failure occurred on Florida Gas Transmission's (FGT) Line 200 pipeline near the town of Enon in Washington Parish, Louisiana. The accident was reported to the National Response Center (NRC Report # 1050774) on April June 18, 2013, at approximately 07:30, local time.

PHMSA issued the Corrective Action Order (CAO) CPF 4-2013-1014H, to FGT on June 24, 2013, requiring a pressure restriction on the affected segment, development of a remedial work plan and mitigative actions necessary for the safe operation of the pipeline.

On July 26, 2016, FGT submitted an amended Remedial Work Plan and requested that upon its approval, the CAO be closed. The amended RWP, Final Version, Rev. 1 is hereby approved.

PHMSA monitored the actions taken within the integrity verification process and reviewed records submitted by FGT. FGT has completed all of the requirements of the CAO. Consequently, no further action is necessary under this CAO and this case is now closed.

Sincerely,

R. M. Seeley  
Director, Southwest Region  
Pipeline and Hazardous Materials Safety Administration

cc: Eric Amundsen, VP Technical Services, Energy Transfer
