Dear Mr. Connor:

On September 24, 2012 through December 21, 2012, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected American Midstream LLC's Operations and Maintenance Plan procedures in Fairbanks, LA. As a result of the inspection, American Midstream was issued a Notice of Amendment on August 9, 2013, which proposed amendments to your procedures.

American Midstream submitted amended procedures on August 22, 2013 and November 1, 2013. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you that no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

R. M. Seeley
Director, Southwest region
Pipeline and Hazardous Materials Safety Administration
