Re: CPF 3-2013-5026M

Dear Mr. Meier:

On July 27-29, 2011, representatives from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code inspected TransCanada USA Services Ltd.'s (TransCanada U.S. Pipelines) procedures for Public Awareness Program Effectiveness in Calgary, Alberta, Canada. As a result of the inspection, TransCanada USA Services Ltd. (TransCanada U.S. Pipelines) was issued a Notice of Amendment (NOA) on August 28, 2013, which proposed amendment of your procedures.

TransCanada USA Services Ltd. (TransCanada U.S. Pipelines) indicated to PHMSA that changes were pursued by June 2012. Amended procedures in response to the NOA were submitted to PHMSA on October 2, 2013. My staff reviewed the amended procedures, and it appears that the inadequacies outlined in the NOA have been corrected.

This letter is to provide correct dates associated with the case and inform you that no further action is necessary. This case is closed. Thank you for your cooperation.

Sincerely,

Allan C. Beshore

Director, Central Region, OPS
Pipeline and Hazardous Materials Safety Administration
