Instrument Flight Procedure Information Gateway

More Flexible Searches!

- ✈ Instrument Flight Procedures (IFP) searches are expanded for greater access and wider search capacity – now allow limited free text if the full IFP name is unknown; may also use: airport, city, airport ID, etc. for search.

Lets You Pick and Choose Your Set of IFPs!

- ✈ If signed up for notifications, you can select Region, Service Area, State, Airports, types of procedures, a specific procedure, or any combination you like and receive notifications of updates on those selections as the IFPs progress through the development or change process. No more searching every cycle!

One Stop Shopping!

- ✈ Use the Information Gateway as a single source for Charts, Production, Coordination and Transmittal Letters (TL) / NDBR – all at your fingertips!
