NOTICE OF AMENDMENT

OVERNIGHT EXPRESS MAIL

July 17, 2012

CPF 1-2012-5015M

Myron L. Turfitt, President
United Refining Company
15 Bradley St
Warren, PA 16365

Dear Mr. Turfitt:

During the week of December 5, 2011, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected Kiantone Pipeline Corporation procedures for operations and maintenance of the pipeline. Kiantone Pipeline Corporation is owned by United Refining Corporation.

On the basis of the inspection, PHMSA has identified the apparent inadequacy found within Kiantone Pipeline Corp's plans or procedures, as described below:

1. 195.402 Procedural manual for operations, maintenance, and emergencies.

(a) General. Each operator shall prepare and follow for each pipeline system a manual of written procedures for conducting normal operations and maintenance activities and handling abnormal operations and emergencies. This manual shall be reviewed at intervals not exceeding 15 months, but at least once each calendar year, and appropriate changes made as necessary to insure that the manual is effective. This manual shall be prepared before initial operations of a pipeline system commence, and appropriate parts shall be kept at locations where operations and maintenance activities are conducted.

Kiantone did not have adequate procedures on how to perform and document an annual review of the O&M Manual.

Kiantone's procedure called for an annual review, not to exceed 15 months; but it did not provide details on how to perform and document the annual O&M review.
