Dear Mr. Fandino:

On August 16 to 19 and on November 3, 2010, a representative from the Pipeline and Hazardous Materials Safety Administration (PHMSA), pursuant to chapter 601 of 49 United States Code, conducted an on-site pipeline safety inspection of City of Vernon procedures in Vernon, California. As a result of the inspection, City of Vernon was issued a Notice of Amendment on February 25, 2011, which proposed amendment of your procedures.

The City of Vernon submitted its amended procedures to PHMSA and my staff has reviewed the amended procedures. It appears that the inadequacies outlined in this Notice of Amendment have been corrected.

This letter is to inform you no further action is necessary and this case is now closed. Thank you for your cooperation.

Sincerely,

Chris Hoidal
Director, Western Region
Pipeline and Hazardous Materials Safety Administration
