Between July 11 and November 20, 2008, a representative of the Pipeline and Hazardous Materials Safety Administration (PHMSA) pursuant to Chapter 601 of 49 United States Code inspected West Texas Gas Inc. procedures for Operations, Maintenance and Emergency operations in Amarillo and Houston, Texas.

On the basis of the inspection, PHMSA has identified the apparent inadequacies found within West Texas Gas Inc. plans or procedures, as described below:

However, a welder qualified under an earlier edition than listed in appendix A of this part may weld but may not re-qualify under that earlier edition.

West Texas Gas Inc. must amend their Operation and Maintenance Procedures to state welding procedures must be qualified under Section 6 of API 1104 incorporated by reference that is recognized by PHMSA, or Section IX of ASME Boiler and Pressure Code (2004 ed. Including addenda through July 1, 2005).
