**CERTIFIED MAIL - RETURN RECEIPT REQUESTED**

October 7, 2010

Mr. Robert Rose  
President  
Tampa Pipeline Corporation  
P.O. Box 35236  
Sarasota, FL 34242

**CPF 2-2005-6020**

Dear Mr. Rose:

On May 17-18, 2005, a team of representatives from the Pipeline and Hazardous Materials Safety Administration (PHMSA), Office of Pipeline Safety (OPS), Southern Region, pursuant to Chapter 601 of 49 United States Code, conducted an inspection of the Tampa Airport Pipeline Corporation's (TAPC's) Operator Qualification (OQ) program. The inspection was conducted in Tampa, Florida, and covered the TAPC pipeline in Hillsborough County, Florida.

As a result of the inspection, PHMSA issued a Final Order on June 29, 2006. The Final Order included a Compliance Order (CO), which required TAPC to take certain actions to protect the public and the environment. This letter is to inform you that TAPC has complied with the terms of the CO. No further action is necessary with regards to the CO and this case is now closed.

Please be advised that there may be other PHMSA cases pending with regards to the above referenced pipeline system and that this letter refers only to the above referenced Final Order and Compliance Order (re: CPF 2-2005-6020) and not to any other PHMSA pending cases. Also be advised that nothing herein states or implies that the above described OQ program meets the requirements of the federal pipeline safety regulations or that the OQ program is approved. The pipeline system and OQ program remain subject to inspection by PHMSA.

Sincerely,

Wayne T. Lemoine  
Director, PHMSA Southern Region  
Office of Pipeline Safety
