August 2008 Passenger Airline Employment Down 2.1 Percent from August 2007

U.S. scheduled passenger airlines employed 2.1 percent fewer workers in August 2008 than in August 2007, the second consecutive decrease in full-time equivalent employee (FTE) levels for the scheduled passenger carriers from the same month of the previous year and the largest year-to-year decrease since October 2006, the U.S. Department of Transportation's Bureau of Transportation Statistics (BTS) reported today (Table 2). FTE calculations count two part-time employees as one full-time employee.

All the network airlines except for Alaska Airlines decreased employment from August 2007 to August 2008 (Table 9) as did low-cost carriers AirTran Airways and Frontier Airlines (Table 12). Regional carriers SkyWest Airlines, ExpressJet Airlines, Comair, Horizon Air, Mesa Airlines, Executive Airlines, and PSA Airlines also reported reduced employment levels compared to last year (Table 15). US Airways' 2007-2008 increase is based on a comparison to the August 2007 report prior to joint reporting with America West.

Scheduled passenger airlines include network, low-cost, regional and other airlines. Many regional carriers were not required to report employment numbers before 2003, so year-to-year comparisons involving regional carriers, or the total industry, are not available for the years before 2003.

The seven network carriers employed 276,118 FTEs in August, 67.9 percent of the passenger airline total, while low-cost carriers employed 15.1 percent and regional carriers also employed 14.8 percent (Table 4).

American Airlines employed the most FTEs in August among the network carriers, Southwest Airlines employed the most among low-cost carriers, and American Eagle employed the most among regional carriers. Seven of the top 10 employers in the industry are network carriers (Table 6).

America West Airlines and US Airways now operate under a single certificate. Joint reporting began with October 2007 data. US Airways' employment numbers were included with the network airlines prior to October 2007 while America West's numbers were included with the low-cost airlines. Beginning with October 2007, US Airways' numbers are combined with America West's numbers in the network category. The combined carrier's numbers were included in the low-cost category for October 2007 through February 2008 in the releases for those months. The numbers for those months have been revised beginning with the March 2008 release to include the combined carrier's numbers in the network category for all months. The revision was due to a BTS recalculation based on the airline's fourth quarter financial report released May 19.

AIRLINE EMPLOYMENT PRESS RELEASE

ADD ONE

The merged airline, listed in the network category, reported 32,254 FTEs for August 2008. In August 2007, US Airways reported 20,440 FTEs in the network category and America West reported 12,357 FTEs in the low-cost category for a total of 32,797.

Network Airlines

FTEs at the seven network carriers increased 2.7 percent in August 2008 compared to August 2007, the 16th consecutive monthly gain from the same month of the previous year. Prior to an increase in August 2007, the network group had reduced FTEs from the previous year every month since September 2001 (Table 7).

Five network carriers decreased FTEs from August 2007 to August 2008: Delta Air Lines, 2.8 percent, United Airlines, 3.9 percent, American Airlines, 0.8 percent, Continental Airlines, 0.5 percent and Northwest Airlines, 1.6 percent. The year-to-year increases were US Airways, 57.8 percent, and Alaska, 1.9 percent (Table 9). US Airways' August 2007 FTE number was reported prior to joint reporting with America West.

FTEs at five network carriers declined during the four years from August 2004 to August 2008. The exceptions were Continental with a 1.9 percent increase and the newly combined US Airways with a 24.8 percent gain (Table 9). The biggest percentage decline was at Northwest, down 24.7 percent, a reduction of 9,446 FTEs, followed by Delta at 18.4 percent. The other FTE decreases during that time were United, down 14.9 percent, American, down 9.2 percent and Alaska, down 1.7 percent (Table 9).

Network carriers operate a significant portion of their flights using at least one hub where connections are made for flights to down-line destinations or spoke cities.

Low-Cost Airlines

Since the America West and US Airways report was combined last October and following the BTS recalculation of the carrier groups to place the merged airline in the network category, low-cost carrier FTEs decreased each month for 10 consecutive months through August compared to the same month of the previous year (Tables 10, 11).

Although the merger resulted in a year-to-year decline for the group, four low-cost carriers reported year-to-year increases: JetBlue Airways, 7.6 percent, Spirit Airlines 2.5 percent, Virgin America, 127.0 percent and Southwest Airlines, 5.0 percent. AirTran and Frontier reported FTE year-to-year decreases. ATA Airlines, which reported 2,391 FTEs in August 2007, stopped operating on April 3 and ceased reporting employment data effective in March. April 2008 (Table 12).

Low-cost carriers are those that the industry recognizes as operating under a low-cost business model, with lower infrastructure costs and higher productivity. Two new low-cost carriers, SkyBus Airlines and Virgin America, began reporting employment data in August. SkyBus ceased operations on April 5. Virgin America reported 1,151 FTE employees in August 2008 (Table 12).

AIRLINE EMPLOYMENT PRESS RELEASE ADD TWO

Regional Airlines

Regional carrier FTEs were up 0.3 percent in August 2008 compared to August 2007 (Table 13).

Mesaba Airlines and Air Wisconsin reported the largest increases in the group. Mesaba employed 30.2 percent more FTEs in August 2008 than August 2007, while Air Wisconsin employed 32.0 percent more (Table 15).

Regional carrier FTEs rose from 57,791 in August 2005 to 60,346 in August 2008, an increase of 4.4 percent (Table 14).

The 12 regional carriers reporting employment data in both 2004 and 2008 employed 3.1 percent more FTEs in August 2008 than in August 2004. Of that group, Pinnacle Airlines reported the biggest gain, 55.4 percent, followed by SkyWest at 39.2 percent and Mesaba at 10.6 percent. Atlantic Southeast Airlines, Comair, Air Wisconsin, Mesa, PSA, and Executive reported fewer FTEs in August 2008 than August 2004 (Table 15).

Effective with April 2008 reporting, Trans States Airlines no longer met the reporting requirements for filing monthly airline employment data. Trans States reported 1,327 FTEs in August 2007.

Regional carrier Compass Airlines began reporting employment data in November 2007. Compass reported 690 FTEs in August (Table 15). Regional carrier Lynx Airlines began reporting employment data in February 2008. Lynx reported 349 FTEs in August (Table 15). Regional carrier Colgan Airlines began reporting employment data in April 2008. Colgan reported 1,333 FTEs in August (Table 15).

Regional carriers typically provide service from small cities, using primarily regional jets to support the network carriers' hub and spoke systems.

Reporting Notes

Airlines that operate at least one aircraft with the capacity to carry combined passengers, cargo and fuel of 18,000 pounds – the payload factor – must report monthly employment statistics.

The Other Carrier category generally reflects those airlines that operate within specific niche markets, such as Continental Micronesia and Hawaiian Airlines in serving the Hawaiian Islands.

Data are compiled from monthly reports filed with BTS by commercial air carriers as of Aug. 15.

Additional airline employment data can be found on the BTS website at http://www.bts.gov/programs/airline_information/number_of_employees/. BTS has scheduled release of September airline employment data for Nov. 18.

* Full-time Equivalent Employee (FTE) calculations count two part-time employees as one full-time employee.

** US Airways' employment numbers were included with the network airlines prior to October 2007 while America West's numbers were included with the low-cost airlines. Beginning with October 2007, US Airways' numbers are combined with America West Airlines' numbers in the network category. The combined carrier's numbers were included in the low-cost category for October 2007 through February 2008 in the releases for those months. The numbers for those months have been revised beginning with the March 2008 release to include the combined carrier's numbers in the network category for all months. The revision was due to a BTS recalculation based on the airline's fourth quarter financial report released May 19.

***Employment numbers in 2004 and 2005 for Independence Air, which changed its business model from a regional to low-cost carrier in mid-2004, are included with low-cost carriers. The airline discontinued flights on Jan. 5, 2006.

**** Virgin America and SkyBus began reporting employment data in August 2007. SkyBus stopped reporting employment data effective in April 2008 resulting from its bankruptcy filing.

***** ATA Airlines ceased operating on April 3, 2008 and stopped reporting employment data effective in March.

Note: Percent changes and averages based on numbers prior to rounding.

Note: Detail may not add to total due to rounding.

* Full-time Equivalent Employee (FTE) calculations count two part-time employees as one full-time employee.

** Some regional carriers were not required to report employment numbers before 2005, so year-to-year comparisons involving regional carriers, or the total industry, are not appropriate for the years before 2005. The Percent Change 2004-2008 is based on the 12 carriers reporting in both years.

*** Effective with April 2008 reporting, Trans States Airlines no longer met the reporting requirements for filing monthly airline employment data.

N/A: Not applicable because carriers did not meet the standard for filing.

Note: Detail may not add to total due to rounding.
