**Protect your home from flooding
for as low as \$129 per year.**

Flood maps of your community show that a high-risk flood area is just a short drive from your home – less than one mile, in fact. Your proximity to this area increases the chances of flooding and flood damage to your home. The best financial protection available is flood insurance.

A Preferred Risk Policy is available only in moderate-to-low risk areas, like yours. This insurance can cover your home and its contents for as low as \$129 per year. A Preferred Risk Policy can financially protect you from a high-risk threat at a low-risk cost.

You can't rely on homeowners insurance.

The standard homeowners insurance policy doesn't cover flood damage. So if you don't have flood insurance, the entire cost of repairs falls on you.

It only takes a few inches of water to cause major damage to your home. In fact, flooding can destroy your walls, floors, furniture, electrical system — and your savings.

Consider these facts:

- In high-risk areas, like the one you're near, there's at least a 1-in-4 chance of flooding during a 30-year mortgage.
- Every home is at risk for some level of flooding, that can be caused by heavy rain, poor drainage or nearby construction.
- Over the past five years, the average paid flood insurance claim was about \$34,000.

Protect your home. Protect yourself.

Go to [FloodSmart.gov/OneMile](https://www.floodsmart.gov/OneMile) to learn more about flood insurance and a Preferred Risk Policy. Or, for immediate action, contact your insurance agent or one of the agents listed above to the right. For more agents in your area, call [1-888-724-6358](tel:1-888-724-6358) or visit [FloodSmart.gov](https://www.floodsmart.gov).
