

Course: *E0313 Basic Hazus-MH*

Course Dates:

December 12–15, 2016

April 3–6, 2017

Travel Dates:

December 11 and December 16, 2016

April 2 and April 7, 2017

Course Length:

This course is 4 days in length.

Location:

Emergency Management Institute (EMI)
National Emergency Training Center (NETC)
Emmitsburg, Maryland

Course Description:

This course offers a hands-on introduction to Hazus-MH, FEMA's GIS-based tool for analyzing the social and economic impacts from natural hazards including hurricanes, earthquakes and floods (riverine and coastal). Impact assessments for each hazard include shelter needs, short and long term economic losses, and debris estimations. Hazus-MH can also assess impacts on transportation and utilities, agricultural losses, and vehicle losses for selected hazards. Topics addressed in this course include overviews of building and population inventory components; options for describing the magnitude and extent of modeled hazards; loss estimation methodologies; and options for creating maps, tables, and reports that describe hazard impacts. Particular emphasis is given to exploring and interpreting the outputs that Hazus-MH can generate as well as discussing how that information can be applied to support emergency management needs and goals. All activities are based on Hazus-MH provided inputs.

Course Goal:

Upon completion of this course, participants should be able to:

1. Learn the types of information that Hazus-MH can produce, as well as, how that information relates to emergency management.
2. Know how to navigate the Hazus-MH software user interface.
3. Develop a basic understanding of how Hazus generates information about exposure and losses related to flood, earthquake and hurricane hazards.

Prerequisites:

Required: Skills equivalent to those taught in E0190, ArcGIS for Emergency Managers.

Continuing Education Units (CEU's):

EMI awards 2.8 CEUs for completion of this course.

Target Audience:

Federal, state, local, and tribal emergency managers and GIS specialists; planners; and others who support flood mitigation and response activities and who wish to expand their Hazus-MH skills beyond those developed in the E313 Basic Hazus-MH course.

To Apply:

Complete a FEMA Form 119-25-1, General Admissions Application, with student signature and signature of supervisor or sponsoring agency official. Submit the application through the State Emergency Management Training Office. FEMA Regional employees should submit their application to their Regional Training Manager

stop terrorists from evading detection by using false identification. Check to see if your state is compliant at <https://www.dhs.gov/current-status-states-territories>.

If your driver's license does not meet the requirements of the REAL ID Act, you will need to bring one of the following acceptable forms of identification:

- A valid U.S. passport or passport card.
- A valid federal employee, military, or veteran ID card.
- A valid state-enhanced driver's license (Contact your state's motor vehicle department for availability).

Students from non-compliant states (a regular driver's license from these states will not be accepted) who do not possess any acceptable form of identification may request a National Crime Information Center (NCIC) check from the NETC Security Office. Note: This is a one-time NCIC check; a successful NCIC check is valid for 180 days; within the 180 day time-frame a student is expected to obtain a compliant form of identification).

Submit the following information to Michael.Wells@fema.dhs.gov in a password-protected document at least three weeks before your class:

- Your full name
- Date and place of birth
- Social Security Number

Students arriving at the NETC campus without a compliant ID or a successful NCIC criminal history check will be sent home at their own expense without receiving a stipend reimbursement.

Questions related to NETC campus access identification should be directed to Jane.Sentz@fema.dhs.gov or 301-447-7207.
