10.920 GRASSLAND RESERVE PROGRAM

(GRP)

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

Food Security Act of 1985 This program was repealed by the Agricultural Act of 2014 (2014 Farm Bill), effective February 7, 2014. Therefore, no new enrollments are authorized for this program after that date.

, Public Law 199-198.

OBJECTIVES:

To assist landowners and operators in restoring and protecting eligible grazing lands, including rangeland, pastureland and certain other lands through rental contracts and easements.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

GRP easements and rental contracts emphasize support for working grazing lands. All participants are subject to the Adjusted Gross Income Provision set forth in 7 CFR Part 1400. This limitation provides that individuals and entities that have an average adjusted gross income exceeding \$1 million for the three tax years immediately preceding the year the contract is approved are not eligible to receive program benefits, unless 66.6 percent of the adjusted gross income is derived from farming, ranching, or forestry operations. Easements and rental contracts will (1) permit grazing on the land in a manner that is consistent with maintaining the viability of the native and natural grass, shrub, forest, and wildlife species adapted to the locality; (2) permit haying, mowing, or harvesting for seed production, except during the nesting and brood-rearing seasons for birds in the area that are in significant decline; (3) allow for fire rehabilitation and construction of firebreaks, fences, watering facilities and practices that protect and restore the grasslands functions and values; and (4) prohibit the production of row crops, fruit trees, vineyards, or any other agricultural commodities. Both easements and rental contracts will require that the land is managed to maintain the viability of the plant community as described in the conservation or grazing management plan.

Applicant Eligibility:

GRP is available on privately owned lands. Eligible land includes grassland, land that contains forbs, or shrubs (including rangeland and pasture land; or land that is located in an area that has historically been dominated by grassland, forbs, and shrubs; and has potential to provide habitat for animal or plant populations of significant ecological value. Incidental lands, in conjunction with eligible land, may also be considered for enrollment to allow for the efficient administration of an easement or rental contract.

Beneficiary Eligibility:

Only landowners may submit applications for easements; landowners and others who have general control of the acreage may submit applications for rental contracts. Easements may also be acquired by eligible entities based on a 50 percent cost-share with the Federal government. Eligible entities are defined as units of State, local or Tribal government or nongovernmental organizations that have a charter describing a commitment to conserving rangeland, agricultural land, or grassland for grazing and conservation purposes.

Credentials/Documentation:

Eligible entities must demonstrate it has the relevant experience and resources to administer a GRP easement. Its charter or mission describes its long term commitment to conserving rangeland, agricultural land, or grassland for grazing and conservation purposes. NRCS evaluates an entities capacity to acquire, manage and enforce easements; its staffing and the ability of an entity to provide matching funds before entering into a cooperative agreement. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Any owner or operator or tenant meeting eligibility criteria may submit an application for participation. Applications are accepted in local USDA service centers at any time. USDA will establish criteria to evaluate and rank applications for easement and rental contract enrollment. Ranking criteria will emphasize support for high quality grasslands and shrublands; grazing operations; plant and animal biodiversity; and grasslands under threat of conversion to cropping or development. Individual project selection will be made by State level USDA officials. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. Applications are accepted in local USDA service centers at any time. Applicants are required to provide general information about the location of the project, contact information for the applicant, and designate the type of enrollment desired by the applicant (i.e. permanent easement or maximum allowed by State law, 10-year, 15-year, or 20-year rental contract). Applications can be obtained through local USDA service centers or the website of the Natural Resources Conservation Service Office. See www.nrcs.usda.gov. Select Programs from the menu, then select Grassland Reserve Program. This program was repealed by the Agricultural Act of 2014 (2014 Farm Bill), effective February 7, 2014. Therefore, no new enrollments are authorized for this program after that date.

Award Procedure:

NRCS State Offices rank the individual parcels in the applications based on ranking criteria established by the State Technical Committee. The ranking factors are developed based on national and state priorities.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Within a Federal fiscal year (October 1 September 30) based on funding availability.

Appeals:

Applicants or participants may appeal decisions regarding this program in accordance with 7 CFR Part 614 and Parts 11 and 780.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching Requirements: Percent: 50%. For GRP acquisitions made through a Cooperative Agreement, each eligible entity is required to provide, in cash, at least 50 percent of the purchase price of the conservation easement. Purchase price is defined as the appraised fair market value minus any landowner donation. The landowner donation is not a cash donation, but is merely the reduction in value the landowner will accept as payment for the sale of the conservation easement. Each eligible entity is required to fund its own administrative costs in acquiring easements, such as surveys, appraisals, deed preparation, title searches, and costs incurred in restoring, managing and enforcing the easements.

MOE requirements are not applicable to this program.

10.922 HEALTHY FORESTS RESERVE PROGRAM (HFRP)

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

Healthy Forest Restoration Act of 2003, Title V, Section 501, Public Law 108-148, 117 Stat. 1911, 16 U.S.C 6571-6578.

OBJECTIVES:

To assist landowners in restoring and enhancing forest ecosystems to: promote the recovery of threatened and endangered species; improve biodiversity; and enhance carbon sequestration.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

HFRP restoration agreements and easements are designed for working Agricultural lands. HFRP is a voluntary program to assist landowners in restoring, enhancing and maintaining forest ecosystems on private lands through easements, contracts and restoration agreements. Easements, contracts, and restoration agreements shall be maintained in accordance with HFRP goals and objectives for the duration of the restoration agreement and easement including the restoration, protection, enhancement, maintenance, and management of habitat for listed species within a forest ecosystem's functions and values. For the duration of its term, the easement shall require, at a minimum, that the landowner, and the landowner's heirs, successors and assigns, shall cooperate in the restoration, protection, enhancement, maintenance, and management of the land in accordance with the easement and with the terms of the HFRP restoration plan. In addition, the easement shall grant to the United States, through the NRCS: a right of access to the easement area; the right to permit compatible uses of the easement area, if such use is consistent with the long-term protection and enhancement of the purposes for which the easement was established; the right to determine compatible uses on the easement area and specify the amount, method, timing, intensity and duration of the compatible use; the rights, title and interest to the easement area as specified in the conservation easement deed; and the right to perform restoration, protection, enhancement, maintenance, and management activities on the easement area. The landowner shall convey title to the easement which is acceptable to the NRCS. The landowner shall warrant that the easement granted to the United States is superior to the rights of all others, except for exceptions

to the title which are deemed acceptable by the NRCS.

Applicant Eligibility:

To be eligible to enroll an easement or restoration agreement in the HFRP, a person must: be the landowner of eligible private land for which enrollment is sought; agree to provide such information to the Natural Resources Conservation Service (NRCS) as the Agency deems necessary or desirable to assist in its determination of eligibility for program benefits and for other program implementation purposes.

Beneficiary Eligibility:

Only landowners.

Credentials/Documentation:

Be the landowner of eligible land for which enrollment is sought; and agree to provide such information to NRCS as the agency deems necessary or desirable to assist in its determination of eligibility for program benefits and for other program implementation purposes. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Any owner meeting eligibility criteria may submit an application for participation. Applications are accepted in local USDA Service Center Offices during announced enrollment sign-up periods. USDA will establish criteria to evaluate and rank applications for easement and restoration agreement enrollment, criteria will be detailed in the sign-up notice. NRCS will identify through a sign-up notice process the geographic scope and ranking priorities for that particular sign-up. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. Applications can be obtained through local USDA Service Center.

Award Procedure:

NRCS will not acquire any easement unless the landowner accepts the amount of the easement payment which is offered by NRCS. The easement payment may or may not equal the fair market value of the interests and rights to be conveyed by the landowner under the easement. By voluntarily participating in the program, a landowner waives any claim to additional compensation based on fair market value.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Within a Federal fiscal year (October 1 September 30) based on funding availability.

10.923 EMERGENCY WATERSHED PROTECTION PROGRAM

(EWP)

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

American Recovery and Reinvestment Act of 2009, Public Law 111-5, 123 Stat. 117; the Agricultural Credit Act of 1978, Section 403, Public Law 95-334, 33 U.S.C 701B-1; Section 216 of the Flood Control Act of 1950, Section 216, Public Law 81-516, 33 U.S.C 701b; Federal Agriculture Improvement and Reform Act of 1996, Title III, Part Subtitle H, Section 382, Public Law 104-127, 110 Stat. 1016, 16 U.S.C 2203.

OBJECTIVES:

The objective of the EWP Program is to assist sponsors, landowners, and operators in implementing emergency recovery measures for runoff retardation and erosion prevention to relieve imminent hazards to life and property created by a natural disaster that causes a sudden impairment of a watershed.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

All EWP work must reduce threats to life and property and must be economically, environmentally, and socially defensible and sound from a technical standpoint. NRCS may bear up to 75 percent (90 percent within limited resource areas as identified by the U.S. Census data) of the construction cost of emergency measures. The remaining 25 percent (10 percent within limited resource areas) must come from local sources as cash or in-kind services. EWP funds have restrictions. EWP cannot solve problems that existed before the disaster or to improve the level of protection above that which existed before a disaster. It cannot fund operation and maintenance work or repair private or public transportation facilities or utilities. The work cannot adversely affect downstream water rights and funds cannot be used to install measures not essential to the reduction of hazards. In addition, funds cannot be used to perform work on measures installed by another federal agency.

Applicant Eligibility:

Public and private landowners are eligible for assistance but must be represented by a project sponsor. Project sponsor means a State government or a State agency or a legal subdivision thereof, local unit of government, or any Native American tribe or tribal organization as defined in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b), with a legal interest in or responsibility for the values threatened by a watershed emergency; is capable of obtaining necessary land rights, and permits; and is capable of carrying out any operation and maintenance responsibilities that may be required. Sponsors are also responsible for furnishing the local cost share and for accomplishing the installation of work. Work can be done either through Federal or local contracts. Emergency watershed protection is authorized in the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, the Commonwealth of the Northern Mariana Islands, and American Samoa.

Beneficiary Eligibility:

None.

Credentials/Documentation:

Sponsors must submit a formal request to the State Conservationist for assistance within 60 days of the natural disaster occurrence, or 60 days from the date when access to the sites becomes available. Requests must include a statement that the sponsors understand their responsibilities and are willing to pay its cost-shared percentage as well as information pertaining to the natural disaster, including the nature, location, and scope of the problems and the assistance needed. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. OMB Circular No. A-110 applies to this program. Potential sponsors submit formal requests for assistance to the NRCS state conservationist.

Award Procedure:

Project sponsors seeking EWP assistance must apply to the STC in writing within 60 days of the natural disaster occurrence. Project sponsors may use SF 424 Application for Federal Assistance but must ensure that following information is provided: (1) A description of the problems encountered; (2) Assistance needed, including the following: Nature of the problem; Location; Scope of the problem; Commitment by the sponsor to assume the following responsibilities: local cost-share; Land rights; acquisition; Permits; Operations and Maintenance (O and M), A statement indicating that funds have either been exhausted or are insufficient to provide adequate recovery measures from the applicable hazards; A statement identifying any other State or Federal funding received or application submitted. On receipt of a formal request for EWP assistance, the State Conservationist or designee shall immediately investigate the emergency situation to determine whether EWP is applicable and to prepare an initial cost estimation for submission to the NRCS Chief or designee. The cost estimation will be submitted no later than 60 days from receipt of the formal request from the sponsor. NRCS may not commit funds until notified by the Chief, or designee, of the availability of funds. Before the release of financial assistance, NRCS will enter into a Cooperative Agreement with a sponsor that specifies the responsibilities of the sponsor under this part, including any required operation and maintenance responsibilities. NRCS will not provide funding for activities undertaken by a sponsor prior to the signing of the agreement between NRCS and the sponsor.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Timeline is dependent upon when funding is appropriated. The EWP program is not a line-item funded program and is reliant upon emergency supplemental appropriations.

Appeals:

Only NRCS decisions relating to eligibility for the EWP Program can be appealed. These decisions may be appealed in accordance with 7 CFR Part 614 and 7 CFR 11, as applicable.

Renewals:

Not Applicable.

CRITERIA FOR SELECTING PROPOSALS:

EWP projects are eligible when it is determined that the current condition of the land or watershed impairment poses a threat to health, life, and property. 10.924 CONSERVATION STEWARDSHIP PROGRAM

Conservation Stewardship Program (CSP)

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

Food Security Act of 1985
, Public Law 106-224, NA Stat. NA, 16 U.S.C 3838h.

OBJECTIVES:

Through CSP, NRCS will provide financial and technical assistance to eligible producers to conserve and enhance soil, water, air, and related natural resources

on their land. Eligible lands include cropland, grassland, prairie land, improved pastureland, rangeland, nonindustrial private forest lands, agricultural land under the jurisdiction of an Indian tribe, and other private agricultural land (including cropped woodland, marshes, and agricultural land used for the production of livestock) on which resource concerns related to agricultural production could be addressed. Participation in the program is voluntary.

CSP encourages land stewards to improve their conservation performance by installing and adopting additional activities, and improving, maintaining, and managing existing activities on agricultural land and nonindustrial private forest land. The NRCS will make CSP available nationwide on a continuous application basis.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

CSP is available on Tribal and private agricultural lands, as well as nonindustrial private forest lands in all 50 States, the District of Columbia, and the Caribbean and Pacific Islands Areas. The entire operation must be enrolled and must include all eligible land that will be under the applicant's control for the term of the proposed contract that is operated substantially separate from other operations. Land enrolled in the Conservation Reserve Program (7 CFR part 1410), Wetlands Reserve Program (7 CFR part 1467), Grasslands Reserve Program (7 CFR part 1415), and Conservation Security Program (CFR part 1469) are ineligible for CSP. The 2008 Act limits eligibility to private agricultural land; as such, land that is owned by a Federal, State, or local unit of government, with the exception of agricultural land under the jurisdiction of an Indian Tribe, is ineligible, regardless of the status of the operator. Additionally, a participant may not receive payment for land used for crop production after June 18, 2008, that had not been planted, considered to be planted, or devoted to crop production for at least four of the six years preceding that date, unless the land was: previously enrolled in the Conservation Reserve Program; maintained using long-term rotations, such as hayland in rotation; or incidental to the operation but needed for the efficient management of the operation. An example of land considered incidental to the operation that may be eligible for payment is land that had once been used for buildings and is now being used for crop production to square up a cropland field.

Applicant Eligibility:

The program provides equitable access to all producers, regardless of operation size, crops produced, or geographic location. Individual producers, legal entities, corporations, and Indian Tribes may be eligible for the program.

Eligible lands include cropland, grassland, prairie land, improved pastureland, rangeland, nonindustrial private forest land, and agricultural land under the jurisdiction of an Indian tribe (covered in 508 Subpart F, 508.53 and 1470.6b). As stated in the Federal Register, 1470.6a, Applicants must be the operator of record in the USDA farm records management system for the eligible land being offered for enrollment; have documented control of the land for the term of the proposed contract; include the eligible land in their entire operation as represented for other USDA programs; and be in compliance with the highly erodible land and wetland conservation provisions of 7 CFR Part 12, and adjusted gross income provisions of 7 CFR part 1400. The applicants operation must also meet a stewardship threshold (covered in 508 Subpart F, 508.54).

Beneficiary Eligibility:

The program provides equitable access to all producers, regardless of operation size, crops produced, or geographic location. Individual producers, legal entities, corporations, and Indian Tribes may be eligible for the program.

Eligible lands include cropland, grassland, prairie land, improved pastureland, rangeland, nonindustrial private forest land, and agricultural land under the jurisdiction of an Indian tribe (covered in 508 Subpart F, 508.53 and 1470.6b). As stated in the Federal Register, 1470.6a, Applicants must be the operator of record in the USDA farm records management system for the eligible land being offered for enrollment; have documented control of the land for the term of the proposed contract; include the eligible land in their entire operation as represented for other USDA programs; and be in compliance with the highly erodible land and wetland conservation provisions of 7 CFR Part 12, and adjusted gross income provisions of 7 CFR part 1400. The applicants operation

must also meet a stewardship threshold (covered in 508 Subpart F, 508.54).

Credentials/Documentation:

The participant must have control of the land offered for the length of the contract period. NRCS requires all program payments be made by direct deposit unless the participant requests a waiver as described in 31 CFR Part 208.4, paragraph (a). This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

A programmatic environmental assessment has been prepared in association with this rulemaking. The analysis has determined that there will not be a significant impact to the human environment and as a result an Environmental Impact Statement is not required to be prepared (40 CFR part 1508.13). An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. A programmatic environmental assessment has been prepared in association with this rulemaking. The analysis has determined that there will not be a significant impact to the human environment and as a result an Environmental Impact Statement is not required to be prepared (40 CFR part 1508.13).

Award Procedure:

Once applicant and land eligibility are determined, the NRCS field office will assist the producer with completing the CMT resource inventory. CMT will estimate the level of environmental benefit to be achieved by the applicant. The CMT conservation performance scoring will enable NRCS to determine if the stewardship threshold requirement is met, rank applications, and establish payments.

Applicants will be ranked relative to other applicants who face similar resource challenges in State-established ranking pools using conservation performance ranking scores. For approved applicants, NRCS will conduct on-site field verification to substantiate that conservation activity and production system information represented by the applicant was accurate. After the conservation system information is verified, NRCS and the applicant proceed to develop the conservation stewardship plan and contract. Upon approval, the contract will obligate the participant to achieve a higher level of conservation performance by installing additional activities scheduled in their conservation stewardship plan and to maintain the level of existing conservation performance identified at the time of application.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days.

Appeals:

A participant may obtain administrative review in accordance with 7 CFR parts 11 and 614 for an adverse decision. Participants cannot appeal payment rates, payment limits, and cost-share percentages, eligible conservation practices, or other matters of general applicability. Before a participant can seek judicial review, the participant must exhaust all administrative appeal procedures.

Renewals:

At the end of an initial conservation stewardship contract, NRCS will allow a participant to renew the contract to receive payments for one additional five year period, subject to the availability of funds. To be considered for contract renewal, the participant must be in compliance with the terms of their initial contract as determined by NRCS; add any newly acquired eligible land that is part of the agricultural operation and meets minimum treatment criteria as established and determined by NRCS; meet stewardship thresholds for additional priority resource concerns as determined by NRCS; and agree to adopt conservation activities as determined by NRCS.

Formula and Matching Requirements:

Statutory Formula: Subject to the availability of funds, NRCS will offer participants two potential types of payment. As outlined in 508.90, an annual

payment will be made for installing and adopting additional conservation activities, and improving, maintaining, and managing existing activities. A supplemental payment can also be made to a participant receiving annual payments, who also agrees to adopt a resource-conserving crop rotation. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

NRCS will make payments as soon as practicable after October 1 of each fiscal year for activities carried out in the previous fiscal year. CSP payments to a person or legal entity may not exceed \$40,000 in any year and \$200,000 during any 5-year period. Each CSP contract will be limited to \$200,000 over the term of the initial contract period. The above limitations exclude funding arrangements with federally recognized Indian tribes or Alaska Native corporations as described in CPM 440, Part 508, Section 508.95(C). Method of awarding/releasing assistance: lump sum.

Reports:

Program reports are not applicable. Cash reports are not applicable. The Designated Conservationist will review contract implementation with the participant annually. Annual reviews will be completed early enough in the year to allow for completion of any necessary corrective actions prior to issuance of the annual payment. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

This program is excluded from coverage under OMB Circular No. A-133. Recipients are subject to audit by the Office of Inspector General, USDA.

Records:

As stipulated in 508.76 B, the applicant must make available to NRCS upon request appropriate records documenting applied conservation activity and production system information. NRCS will request records when conducting field verification with pre-approved applicants. The designated conservationist does not need to collect, store, or re-calculate the data contained in the applicants records, but instead will examine the field conditions and records to determine whether or not they substantiate the CMT resource inventory information provided by the applicant during the application process. As covered in 508.76 C, NRCS will request written records and conduct on-site field verification to substantiate that the conservation activity and production system information represented by each approved applicant during the CMT resource inventory was accurate.

10.926 CHESAPEAKE BAY WATERSHED PROGRAM

(CBWP)

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

The Food Security Act of 1985, Public Law 99-198.

OBJECTIVES:

The Chesapeake Bay Watershed Program (CBWP) helps agricultural producers improve water quality and quantity, and restore, enhance, and preserve soil, air, and related resources in the Chesapeake Bay Watershed through the implementation of conservation practices. These conservation practices reduce soil erosion and nutrient levels in ground and surface water; improve, restore, and enhance wildlife habitat; and help address air quality and related natural resource concerns. CBWP encompasses all tributaries, backwaters, and side channels, including their watersheds, draining into the Chesapeake Bay.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

The Natural Resources Conservation Service (NRCS), an agency of the United States Department of Agriculture, uses CBWP funds to enter into contracts with eligible producers to share the costs of the applicable conservation treatment on agricultural lands in the Chesapeake Bay Watershed. NRCS provides payments for approved conservation practices and systems and land use adjustments within a time schedule specified by the conservation plan. The CBWP contracts may be modified to increase funds provided the increased cost is the result of a valid contract modification within the original contract scope and intent. The modification must follow the rules of the conservation program used to apply the conservation treatment.

Applicant Eligibility:

Only agricultural producers owning or operating within the Chesapeake Bay Watershed are eligible to participate in CBWP. In addition, NRCS applies the eligibility requirements of the particular natural resource program used to implement CBWP (e.g., the Environmental Quality Incentives Program (EQIP) (16 U.S.C. 3839aa et seq.), the Wildlife Habitat Incentives Program (WHIP) (16 U.S.C. 3839bb-1)). Limited resource producers, small-scale producers, beginning farmers and ranchers, socially-disadvantaged producers, and federally recognized Indian tribes are encouraged to apply.

Beneficiary Eligibility:

To be eligible, the agricultural producers must be in compliance with highly erodible land and wetland conservation provisions at 7 CFR part 12, and in compliance with the Adjusted Gross Income (AGI) payment limitations at 7 CFR part 1400.

Credentials/Documentation:

Evidence that applicant has control over land to be entered into contract and submits an acceptable conservation plan for the farm or ranch unit of concern that incorporates needed natural resource conservation practices and provide either a social security number or individual tax identification number of all proposed beneficiaries. Applicants claiming either limited resource producer or beginning farmer classification may be asked to provide documents to justify their claim. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. Program participation is voluntary. The applicant applies to NRCS at the local USDA Service Center on Form NRCS-CPA-1200. Applications may be filed at any time during the year. The participant develops a CBWP plan of operations that identifies what conservation practices they are proposing to implement.

Technical assistance and conservation payments may be provided to apply needed conservation practices and land use adjustments within a time schedule specified by the conservation CBWP plan of operations. A contract with a participant may apply one or more land management practices or one or more structural practices.

Award Procedure:

NRCS applies the ranking and selection requirements of the particular natural resource program used to implement CBWP (e.g., EQIP, WHIP). NRCS will give special consideration to applicants that address priority natural resource concerns designated. Applications will be periodically ranked and selected for funding based on locally developed ranking process. 10.927 EMERGENCY WATERSHED PROTECTION PROGRAM - DISASTER RELIEF APPROPRIATIONS ACT

EWP - Disaster Relief (Hurricane Sandy)

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

Disaster Relief Appropriations Act, Public Law 113-2, 4 Stat. 127.

OBJECTIVES:

The objective of the EWP Program is to assist sponsors, landowners, and operators in implementing emergency recovery measures for runoff retardation and erosion prevention to relieve imminent hazards to life and property created by a natural disaster that causes a sudden impairment of a watershed.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements or Contracts)

USES AND USE RESTRICTIONS:

All EWP work must reduce threats to life and property and must be economically, environmentally, and socially defensible and sound from a technical standpoint. NRCS may bear up to 75 percent (90 percent within limited resource areas as identified by the U.S. Census data) of the construction cost of emergency measures. The remaining 25 percent (10 percent within limited resource areas) must come from local sources as cash or in-kind services. EWP funds have restrictions. EWP cannot solve problems that existed before the disaster or to improve the level of protection above that which existed before a disaster. It cannot fund operation and maintenance work or repair private or public transportation facilities or utilities. The work cannot adversely affect downstream water rights and funds cannot be used to install measures not essential to the reduction of hazards. In addition, funds cannot be used to perform work on measures installed by another federal agency. EWP funds from this appropriation can only be spent on damage recovery projects from Hurricane Sandy, with a Stafford ACT Designation. (This means that a certain geographical area was declared a major disaster as a result of a Presidential Declaration).

Applicant Eligibility:

For this appropriation, only applicants affected by Hurricane Sandy and only in those areas declared as a major disaster are eligible for assistance through the EWP program.

Public and private landowners are eligible for assistance but must be represented by a project sponsor. Project sponsor means a State government or a State agency or a legal subdivision thereof, local unit of government, or any Native American tribe or tribal organization as defined in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b), with a legal interest in or responsibility for the values threatened by a watershed emergency; is capable of obtaining necessary land rights, and permits; and is capable of carrying out any operation and maintenance responsibilities that may be required. Sponsors are also responsible for furnishing the local cost share and for accomplishing the installation of work. Work can be done either through Federal or local contracts. Emergency watershed protection is authorized in the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, the Commonwealth of the Northern Mariana Islands, and American Samoa.

Beneficiary Eligibility:

None.

Credentials/Documentation:

Sponsors must submit a formal request to the State Conservationist for assistance within 60 days of the natural disaster occurrence, or 60 days from the date when access to the sites becomes available. Requests must include a statement that the sponsors understand their responsibilities and are willing to pay its cost-shared percentage as well as information pertaining to the natural disaster, including the nature, location, and scope of the problems and the assistance needed. This program is excluded from coverage under OMB Circular No. A-87. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is required. An environmental impact statement is required for this program. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. OMB Circular No. A-110 applies to this program. Potential sponsors submit formal requests for assistance to the NRCS state conservationist.

Award Procedure:

Project sponsors seeking EWP assistance must apply to the STC in writing within 60 days of the natural disaster occurrence. Project sponsors may use SF 424 Application for Federal Assistance but must ensure that following information is provided: (1) A description of the problems encountered; (2) Assistance needed, including the following: Nature of the problem; Location; Scope of the problem; Commitment by the sponsor to assume the following responsibilities: local cost-share; Land rights; acquisition; Permits; Operations and Maintenance (O and M), A statement indicating that funds have either been exhausted or are insufficient to provide adequate recovery measures from the applicable hazards; A statement identifying any other State or Federal funding received or application submitted. On receipt of a formal request for EWP assistance, the State Conservationist or designee shall immediately investigate the emergency situation to determine whether EWP is applicable and to prepare an initial cost estimation for submission to the NRCS Chief or designee. The cost estimation will be submitted no later than 60 days from receipt of the formal request from the sponsor. NRCS may not commit funds until notified by the Chief, or designee, of the availability of funds. Before the release of financial assistance, NRCS will enter into a Cooperative Agreement with a sponsor that specifies the responsibilities of the sponsor under this part, including any required operation and maintenance responsibilities. NRCS will not provide funding for activities undertaken by a sponsor prior to the signing of the agreement between NRCS and the sponsor.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Timeline is dependent upon when funding is appropriated. The EWP program is not a line-item funded program and is reliant upon emergency supplemental appropriations.

Appeals:

Only NRCS decisions relating to eligibility for the EWP Program can be appealed. These decisions may be appealed in accordance with 7 CFR Part 614 and 7 CFR 11, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching Requirements: Percent: 75%. NRCS may bear up to 75 percent (90 percent within limited resource areas as identified by the US Census data) of the construction cost of emergency measures. The remaining 25 percent (10 percent within limited resource areas) must come from local sources as cash or in-kind services.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Continues until all EWP Program recovery measures are installed or their

installation is terminated by mutual agreement. See the following for information on how assistance is awarded/released: Submission of Form 270 for Payment.

Reports:

No program reports are required. Cash reports are not applicable. Progress reports are due every 60 days on projects of 220 days duration. Cash reports are not applicable. Final reports are prepared for each project within 90 days of completion. A benefit and accomplishment report is prepared for the fiscal year based upon final reports. Expenditure reports are not applicable. Expenditure reports are not applicable. Performance monitoring is required and conducted by COTR or GR.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

EXAMPLES OF FUNDED PROJECTS:

Not Applicable.

CRITERIA FOR SELECTING PROPOSALS:

EWP projects are eligible when it is determined that the current condition of the land or watershed impairment poses a threat to life, health and property. Assistance includes EWP practices that provide runoff retardation and soil erosion prevention, safeguard lives and property, and relieve an imminent threat that is a result of a sudden impairment of a watershed due to a natural disaster.

10.928 EMERGENCY WATERSHED PROTECTION PROGRAM - FLOODPLAIN EASEMENTS DISASTER RELIEF APPROPRIATIONS ACT

EWP-FPE Hurricane Sandy

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

Disaster Relief Appropriations Act, 2013 , Public Law 113-2, 127 Stat. 4.

OBJECTIVES:

The Emergency Watershed Protection - Floodplain Easement Program (EWP-FPE) provides an alternative measure to traditional EWP recovery where it is determined that acquiring an easement in lieu of recovery measures is the more economical and prudent approach to reducing a threat to life or property (see 7 CFR Part 624). The easement must be restored to the extent practicable to the natural environment and may include both structural and nonstructural practices to restore the flood storage and flow, erosion control, and improve the practical management of the easement. Structures, including buildings, within the floodplain easement must be demolished and removed, or relocated outside the 100-year floodplain or dam breach inundation area.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

NRCS may bear up to 100 percent of costs related to easement acquisition and related acquisition costs. NRCS will determine easement compensation in accordance with applicable regulation and other law. NRCS will not acquire any easement unless the landowner accepts the amount of the easement payment that is offered by NRCS. NRCS reserves the right not to purchase an easement if the easement compensation for a particular easement would be too expensive, as determined by NRCS. NRCS may provide up to 100 percent of the restoration and enhancement costs of the easement. NRCS may enter into an agreement with the landowner or another third party to ensure that identified practices are implemented. NRCS, the landowner, or other designee may implement identified practices. Restoration and enhancement efforts may include both structural and non-structural practices. An easement acquired under this EWP-Floodplain Easement regulations shall provide NRCS with the full authority to restore, protect, manage, maintain, and enhance the functions and values of the floodplain. EWP-FPE funds from this appropriation can only be spent on eligible Floodplain Easement projects that have suffered damage from Hurricane Sandy and are located within a Stafford ACT Designation. (This means that a certain geographical area was declared a major disaster as a result of a Presidential Declaration).

Applicant Eligibility:

For this appropriation, only applicants affected by Hurricane Sandy and only in those areas declared as a major disaster are eligible for assistance through the EWP-FPE program.

Pursuant to 7 CFR 624.10(b)(2), NRCS may determine land is eligible under for EWP-FPE if any of the following apply:

- 1) The floodplain lands were damaged by flooding at least once within the previous calendar year or have been subject to flood damage at least twice within the previous 10 years.
- 2) Other lands within the floodplain are eligible, provided the lands would contribute to the restoration of the flood storage and flow, provide for control of erosion, or that would improve the practical management of the floodplain easement.
- 3) Lands would be inundated or adversely impacted as a result of a dam breach.

NRCS may determine that land is ineligible under this section if any of the following apply:

- 1) Implementation of restoration practices would be futile due to onsite or offsite conditions.
- 2) The land is subject to an existing easement or deed restriction that provides sufficient protection or restoration, as determined by the Chief of NRCS, of the floodplains functions and values.
- 3) The purchase of an easement would not meet the purposes of this part.

Beneficiary Eligibility:

Private and non-federal landowners are eligible for EWP-FPE.

To be eligible for FPE, the NRCS will require participating landowners to

- 1) Comply with the terms of the easement.

- 2) Comply with all terms and conditions of any associated agreement.
- 3) Convey title to the easement that is acceptable to NRCS and warrant that the easement is superior to the rights of all others, except for exceptions to the title

that are deemed acceptable by NRCS.

For projects that include parcels with residential dwellings or other structures on nonagricultural lands (such as flood mitigation efforts intended to assist families in moving from flood-prone areas as part of EWP recovery efforts), a local sponsor will be identified and serve as the local cooperating entity for these efforts. A sponsor will be a local or State unit of government (city, county, conservation district, watershed conservancy district, or State agency) that has a local presence and staff available to assist in the implementation of the program.

Credentials/Documentation:

The landowner must provide a copy of the vesting deed to the land. If the landowner is an entity, the entity must provide a list of the individuals who comprise the entity, including the percent of ownership for each individual, to the Farm Service Agency (FSA). The entity must provide documents to FSA and NRCS that show the entity to be legal and valid in the State and which members have the authority to sign contractual documents on behalf of the entity.

If funds are being requested for the purchase of easements on lands with residences or other nonagricultural structures, the State Conservationist (STC) must provide confirmation that the acquisition is part of a strategy that will facilitate the restoration of an entire reach of the floodplain. The relatively high cost of these transactions requires a greater level of documentation that the benefits to the floodplain outweigh the costs. In addition, the STC must provide confirmation that the project sponsor will acquire fee title to the easement area. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

NRCS state offices in impacted states will submit an assessment of potential level of interest in areas with eligible lands. An environmental impact statement is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. OMB Circular No. A-110 applies to this program. Landowners may only enroll land in the Emergency Watershed Protection for Floodplain Easements (EWP-FPE) Program through a permanent easement. Landowners apply for the EWP-FPE using the Application for Long-Term Contracted Assistance.

Award Procedure:

- 1) States receive applications, gather landowner information, rank applications, conduct preliminary investigations, and determine land and landowner eligibility
- 2) The STC will list all applications received during the announced signup period in rank order, beginning with the highest-ranked easement first.
- 3) States will submit an Easement Request Package to NHQ that includes documentation of land eligibility, landowner eligibility, and evidence of damage related to Hurricane Sandy.
- 4) Easement Request Packages will be reviewed and project selection will be conducted by the Deputy Chief for Programs.
- 5) Selected applications will be notified, either through an intent to continue letter for projects that will be individually appraised or through the issuance of Option Agreement to Purchase for projects with easement compensation determined through the Area-wide Market Analysis and Geographic Area Rate Cap process.
- 6) When the OATP has been signed by the applicant and the STC, the acres are considered enrolled in the program. At this time, the funds are obligated to the landowner as the vendor for the easement purchase cost only. The landowner may choose to assign all or a portion of the easement acquisition payment to the closing agent through a properly executed assignment of payment provided to NRCS along with the signed OATP.
- 7) The effective period of the OATP may not exceed 12 months from the date of the STCs signature. The effective period may be extended when necessary using the Option Agreement to Purchase Amendment. The STC may delegate, in writing, the authority to sign the OATP (and amendments) to the State program manager. No further delegation of this authority is allowed.

- 1) In addition to the above described activities, for EWP-FPE applications on

land with residences or other structures, NRCS will enter into a cooperative or project agreement with the project sponsors prior to the commencing of easement acquisition activities. The agreement must specify the reimbursable tasks to be carried out by the sponsor to expedite the easement acquisition process.

- 2) In order to reduce the administrative burden and easement management cost to NRCS, sponsors are required to purchase the fee simple title from the landowner and enroll properties in a strategic manner that increases the likelihood that the floodplain can be reconnected.

- 3) The FPE warranty easement deed is closed before the fee simple interest is conveyed to the sponsor, unless a different order of recordation is desired by NRCS and authorized by the Office of the General Counsel.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Timeline is dependent upon when funding is appropriated. The FPE program is not a line-item funded program and is reliant upon emergency supplemental appropriations.

Appeals:

Only NRCS decisions relating to eligibility for the EWP-FPE Program can be appealed. These decisions may be appealed in accordance with 7 CFR Part 614 and 7 CFR 11, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

EWP Floodplain easements are a long-term solution and exist for perpetuity. After initial eligibility and project selection, easement acquisition phase requires 12 to 18 months on average. Following easement acquisition phase, restoration implementation phase requires 1 to 3 years until all practices are installed and vegetative practices are considered established. Continues until all EWP-FPE Program measures are installed (relocation or demolition of structures and/or floodplain restoration practices). Maintenance and monitoring of floodplain easements continues in perpetuity. Method of awarding/releasing assistance: lump sum.

Reports:

Program reports are not applicable. Cash reports are not applicable. Easement milestones include enrollment, closing, recording, restoration completion, and monitoring. These milestones are tracked in the National Easement Staging Tool (NEST). NEST reports will be generated quarterly to track milestones. Expenditure reports are not applicable. Landowners are required to comply with the terms of the easement, comply with all terms and conditions of any associated agreement. Convey title to the easement that is acceptable to NRCS and warrant that the easement is superior to the rights of all others, except for exceptions to the title that are deemed acceptable by NRCS.

Audits:

This program is excluded from coverage under OMB Circular No. A-133. The count and condition of closed easements is reported annually in the agency's financial statement pursuant to requirements of the Statements of Federal Financial Accounting Standard 29.

10.931 AGRICULTURAL CONSERVATION EASEMENT PROGRAM

ACEP

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

Food Security Act of 1985

, Title XII, Part Subtitle D, Section 1237, Public Law 99-198.

OBJECTIVES:

To establish an agricultural conservation easement program for the conservation of eligible land and natural resources through easements or other interests in the land. The Agricultural Conservation Easement Program (ACEP) is comprised of two components Agricultural Land Easements (ALE) and Wetland Reserve Easements (WRE). The ALE component provides funding to eligible entities to purchase conservation easements to protect the agricultural use and future viability, and related conservation values of eligible land by limiting nonagricultural uses of that land; and to protect grazing uses and related conservation values by restoring and conserving eligible land. The WRE component provides funding to eligible landowners to purchase easements to restore, protect, and enhance wetlands on eligible land.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Under the ACEP Wetland Reserve Easements (ACEP-WRE) component eligible landowners may offer farmed wetlands, prior converted wetlands, wetlands farmed under natural condition, former or degraded wetlands on lands that have been used or are currently being used for the production of food and fiber, including cropland, rangeland and forest production land, lands substantially altered by flooding, certain riparian areas, along with certain adjacent areas. The goal of ACEP-WRE is to achieve the greatest wetlands functions and values, along with optimum wildlife habitat on every acre enrolled in the program. Enrollment options include permanent easements, 30-year easements, or easements for the maximum duration allowed under State law, and, for acreage owned by Indian Tribes, 30-year contracts. To be eligible for participation, land must be capable of being successfully and cost-effectively restored to wetlands and associated habitats. For easement projects, landowners shall ensure the easement is superior to the rights of all others and shall agree to implement a wetland restoration plan designed to restore and maintain the easement area. Landowners must agree to a permanent retirement of crop acreage bases, allotments, and quotas to the extent that the sum of the crop acreage bases and allotments will not exceed the remaining cropland on the farm.

Participating landowners receive financial assistance for the purchase of the easement and NRCS shall share the cost of carrying out the establishment conservation measures and practices, and the protection of wetland functions and values including necessary maintenance activities to the extent that the Secretary determines that cost-sharing is appropriate and in the public interest. NRCS provides financial and technical assistance to the landowner or a third party as follows:

Permanent easements: Easement duration is in perpetuity; landowners receive up to 100 percent of the cost of the easement. NRCS provides up to 100

percent of the cost for establishment and maintenance of conservation measures and practices.

30-year easements or maximum duration allowed by State law: Easement duration is 30 years or maximum duration allowed by State law; landowners receive the equivalent of 75 percent of the value for a permanent easement and NRCS provides up to 75 percent of the eligible restoration costs.

30-year contracts: Acreage owned by Indian Tribes can be enrolled through the use of a 30-year contract which shall be equivalent in value to a 30-year easement. NRCS provides up to 75 percent of the eligible restoration costs.

States with an approved Exhibit E may enroll easements with reserved grazing rights. The applicable compensation provided to the landowner for these easements will be reduced by 25%.

For both permanent and 30-year easements, ACEP-WRE pays for all the related costs associated with acquiring and recording the easement including recording fees, charges for title abstracts, surveys, appraisal fees, records searches, and title insurance associated with acquiring an easement. These related costs are generally not paid to participants but are provided directly to the vendor performing the service. Therefore, payments appearing on USDAspending.gov will be reflective of payments to participants and payments to vendors for services associated with restoration and management activities and administrative costs associated with acquiring and recording an easement.

The Agricultural Lands Easements (ALE) component provides funds to protect the agricultural use, including grazing, and related conservation values of eligible land through cost-share assistance to eligible entities for purchasing agricultural land easements.

The Federal share for ACEP-ALE acquisition is limited to a maximum of 50 of the appraised fair market value of the agricultural land easement. For ACEP-ALE projects of special significance, as determined by the Chief, NRCS may waive a portion of the eligible entity cash contribution requirement, subject to an increase in the private landowner donation that is equal to the amount of the waiver, if the landowner donation is voluntary and the property is in active agricultural production. The Chief can determine lands as Grasslands of Special Environmental Significance which authorizes a federal share of up to 75 percent of the fair market value of the agricultural land easement. An agricultural land easement plan is required for all ACEP-ALE easements and a Grasslands Management Plan must be included with all lands enrolled as Grasslands of Special Environmental Significance. ACEP Agricultural Land Easements are perpetual easements or maximum duration allowed by State law. A right of enforcement is incorporated in the conservation easement deed for the protection of the Federal investment. A failure of title would require the eligible entity to reimburse the United States for the Federal share of the easement value.

Applicant Eligibility:

For ACEP-ALE an eligible entity that is an Indian Tribe, State government, local government, or a nongovernmental organization which has a farmland or grassland protection program that purchases agricultural land easements for the purpose of protecting agriculture use and related conservation values, including grazing uses and related conservation values, by limiting conversion to nonagricultural uses of the land, and that has pending offers may apply for funds. This program is available in all 50 States, Puerto Rico, the Virgin Islands, Guam, American Samoas, the Mariana Islands, and the Trust Territories of the Pacific Islands. Individual landowners must apply through the local agency or organization that handles the farmland or grassland protection program.

For ACEP-WRE, private landowners, including individual landowners, partnerships, associations, corporations, estates, trusts, and other business or legal entities, and Indian tribes are eligible to apply.

This program is excluded from coverage under E.O. 12372.

Beneficiary Eligibility:

All landowners applying for ACEP must be in compliance with the Wetland Compliance (WC) and Highly Erodible Land (HEL) provisions of the Farm Bill and, within the exception of FY2014, meet the Adjusted Gross Income (AGI) limitations in the Farm Bill.

For ACEP-ALE, applications are submitted by an eligible entity who will be the participant in the program.

For ACEP-WRE, only private landowners, partnerships, associations, corporations, estates, trusts, other business or legal entities and, Indian tribes may submit applications for easements.

Credentials/Documentation:

ACEP-WRE - Eligible applicants must be in compliance with the highly erodible land and wetland conservation provisions in 7 CFR part 12 and, except for FY 2014, the Adjusted Gross Income provisions in 7 CFR part 1400. They must be the landowner of the eligible land being offered for participation. For easement applications, the applicant must have owned the land for the 24 month period prior to the time the land is determined eligible for enrollment. Under limited circumstances a waiver of the 24 month ownership period may be granted from the Chief of NRCS.

ACEP-ALE - Eligible entities must provide documents indicating: 1) they have the relevant experience and resources to administer an ALE easement; 2) commitment to long-term conservation of agricultural lands, rangelands or grassland for grazing or related conservation purposes through legal devices, such as right-to-farm laws, agricultural districts, zoning, or land use planning; 3) use of voluntary approaches to protect farmland from conversion to non-agricultural uses; and 4) their capability to acquire, manage, and enforce conservation easements. NRCS evaluates an entities capacity to acquire, manage and enforce easements; its staffing and the ability of an entity to provide matching funds before entering into a cooperative agreement. If the eligible entity is a nongovernmental organization, they must be: 1) organized for, and at all times since, the formation of the organization and has been operated principally for one or more of the conservation purposes specified in clause (i), (ii), (iii), or (iv) of section 170(h)(4)(A) of the Internal Revenue Code of 1986; 2) an organization described in section 501(c)(3) of that Code that is exempt from taxation under 501(a) of that Code; and 3) described (i) In section 509(a)(1) and (2) of that Code, or (ii) Is described in section 509(a)(3) of that Code and is controlled by an organization described in section 509(a)(2) of that Code. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

All ACEP applicants must submit required documentation as evidence of eligibility. The land itself is evaluated and ranked in accordance with eligibility requirements and ranking criteria developed by NRCS. A programmatic environmental analysis is completed. Individual project selection may be made primarily at the State level by responsible NRCS officials. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. ACEP-ALE - Applications are accepted on a continuous basis by the NRCS State Offices. Applicants are required to provide general information about the location of the project, contact information for the applicant, eligibility and ownership documentation, and designate the type of enrollment desired by the applicant (i.e. permanent easement, 30-year easement or maximum allowed by State law). Applications and supporting information requirements for the application can be obtained from the State Offices of the (NRCS) and USDA NRCS home page. See www.nrcs.usda.gov. Select Programs from the menu.

ACEP-WRE - Applications are accepted on a continuous basis by the NRCS State or local Field Offices. Applicants are required to provide general information about the location of the project, contact information for the applicant, eligibility and ownership documentation, and designate the type of enrollment desired by the applicant.

Award Procedure:

NRCS will rank parcels individually and award funding to the highest-ranked parcels based on ranking criteria established by NRCS in consultation with the State Technical Committee. The ranking factors are developed based on national and state criteria and priorities. NRCS conducts preliminary due

diligence activities on the projects tentatively selected for funding and applicants are provided an offer of enrollment. Projects are enrolled in ACEP through agreements signed by NRCS and the eligible entity under ACEP-ALE or the landowner under ACEP-WRE.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Within a Federal fiscal year (October 1 - September 30), based on funding availability, States establish a single or multiple application batching periods for consideration of current year funding. Eligible entity or landowner applications may remain on sign-up list for subsequent funding consideration.

Appeals:

Applicants or participants may appeal certain determinations regarding this program in accordance with 7 CFR Part 614 and Parts 11 and 780.

Renewals:

The land offered may be re-offered in a future sign-up unless land or landowner is ineligible.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching Requirements: ACEP-ALE NRCS may provide up to 50 percent of the fair market value of the agricultural land easement. An eligible entity will share in the cost of purchasing an agricultural land easement in an amount that is at least equivalent to the Federal share. An eligible entity may include as part of its share a charitable donation or qualified conservation contribution (as defined by section 170(h) of the Internal Revenue Code of 1986) from the landowner if the eligible entity contributes its own cash resources in an amount that is at least 50 percent of the amount of the Federal share. NRCS may authorize a waiver to increase the federal share to 75 percent for grasslands of special environmental significance with respective adjustments to the eligible entity contribution. NRCS may also authorize a waiver of the eligible entity cash contribution requirement for projects of special significance. Each eligible entity is required to fund its own administrative costs in acquiring easements, such as appraisals, surveys, title searches, and costs incurred in managing and enforcing the easements.

Offers will be evaluated based on the environmental benefits and government expenditures on restoration and easement purchase and the requirement that wetland and wildlife functions and values benefits be maximized. Criteria for selecting applications include: The conservation benefits of obtaining an easement or other interest in the land; The cost effectiveness of each easement so as to maximize the environmental benefits per dollar expended; Whether the landowner or another person is offering to contribute financially to leverage Federal funds; The extent to which the purposes of this part would be achieved on the land; The productivity of the land; The on-farm and off-farm environmental threats if the land is used for the production of agricultural commodities; Obtaining permanent easements over shorter term easements; and Acquiring easements based on the value of the easement for protecting and enhancing habitat for migratory birds and other wildlife, in consultation with USFWS. NRCS, in consultation with the State Technical Committee, may place higher priority on certain land types or geographic regions of the State where restoration of wetlands may better achieve State and regional goals and objectives. Priority may also be given to land that is currently enrolled in CRP in a contract that is set to expire within one year from the date of application and is farmed wetland and adjoining land that has the highest wetland functions and values and is likely to return to production after the land leaves CRP.

Renewals:

Extension requests will be considered by the federal program office only if the recipient has submitted all required performance reports. At least sixty days prior to the end of the award, recipients must discuss with their federal program officer expected reprogramming and extensions requests. After preliminary negotiation on proposed projects and extensions, formal written reprogramming and extension requests should be received by the federal program office 45 days prior to the end date of the award. The federal program office will not recommend approval for any retroactive extension request (received after the end date of the award). Recipients should make every effort to submit one extension request for all projects needing an extension (when possible, multiple extension requests should be avoided). With sufficient justification, the federal program office will recommend approval of a six-month extension for the first extension request. First time or cumulative extension requests for more than six months but less than 12 months, will need more compelling justification as to why the project was not completed on time or could not be completed within the first six-month extension. Although the federal program office discourages extensions of more than 12 months, the federal program office will recommend approval in cases where the funds are already obligated. Renewal of an award to increase funding or extend the period of performance is at the total discretion of the Department.

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Uses will be in the following federal program areas: The Coastal Services Center's (CSC) goal is to build leadership skills and capabilities to meet the changing needs within the coastal community. The Coastal Services Center jointly manages the Regional Ocean Partnerships (ROP) funding program with the NOAA, National Ocean Service, Office of Ocean and Coastal Resource Management Program. This grant program advances effective coastal and ocean management through regional ocean governance, including the goals for national ocean policy and comprehensive ocean planning set out in the presidents Final Recommendations of Interagency Ocean Policy Task Force, July 19, 2010. The ROPFP program supported two categories of activities: 1) implementation of a spectrum of regional ocean partnership priorities, with a focus on marine planning activities and 2) support for development and operations for Regional Ocean Partnerships (ROP). CSC manages the Gulf of Mexico Alliance grant program to engage in cooperative agreements with entities from Gulf of Mexico States to implement Action Blueprint Steps identified in the Gulf of Mexico Alliance Governors Action Plan. These projects contribute to the beneficial public outcomes associated with the five priority issues including water quality for healthy beaches and shellfish beds; wetland and coastal conservation and restoration; environmental education; identification and characterization of Gulf habitats; and nutrient reduction as well as Coastal Community Resiliency, a priority issue elevated by the Alliance since release of the Plan. The CSC Pacific Services Center (PSC), located in Honolulu, provides competitive grants through the Bay Watershed Education and Training (B-WET) Hawaii program to foster the development of innovative science programs, partnerships and products throughout the State of Hawaii, as well as support environmental education efforts that align with national and state education standards. B-WET Hawaii projects focus on providing meaningful outdoor experiences for students and professional development opportunities for teachers that target understanding earth system sciences, hazards, community resilience, and climate change. PSC manages the Coastal Resilience Networks grant program to implement activities that enhance resilience of coastal communities to natural hazard and climate risks through a regional or national network. Coastal Resilience Networks (CRest) proposals must leverage, enhance, or create a system in which one or more coastal hazard issues can be addressed through partnerships to improve coordination and collaboration throughout the region. Partnerships must include multiple institutions, disciplines, and sectors at the local, state, and federal levels.

Renewals:

Extension requests will be considered by the federal program office only if the recipient has submitted all required performance reports. At least sixty days prior to the end of the award, recipients must discuss with their federal program officer expected reprogramming and extensions requests. After preliminary negotiation on proposed projects and extensions, formal written reprogramming and extension requests should be received by the federal program office 45 days prior to the end date of the award. The federal program office will not recommend approval for any retroactive extension request (received after the end date of the award). Recipients should make every effort to submit one extension request for all projects needing an extension (when possible, multiple extension requests should be avoided). With sufficient justification, the federal program office will recommend approval of a six-month extension for the first extension request. First time or cumulative extension requests for more than six months but less than 12 months, will need more compelling justification as to why the project was not completed on time or could not be completed within

the first six-month extension. Although the federal program office discourages extensions of more than 12 months, the federal program office will recommend approval in cases where the funds are already obligated. Renewal of an award to increase funding or extend the period of performance is at the total discretion of the Department.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2013: The CSC Pacific Services Center, Bay Watershed and Education Program, sponsored a grant with the University of Hawaii to support student investigations in marine science. The He'eia Ahupua'a project will provide a framework for both developing Science, Technology, Engineering and Math, (STEM) education programs in a new way, and a model for cross-disciplinary work within the university culture. It will also catalyze partnerships between the university, local schools and communities, and provide valuable K-12 teaching experiences for young emerging scientists, fostering future interdisciplinary interests and improved abilities in communicating science to diverse audiences.

The Pacific Services Center, Coastal Resilience Networks program sponsored a project with the Olohana, Inc, to establish a formal network between the Gulf of Mexico Alliance (GOMA) Resilience Team partners and key industry leaders within the Gulf of Mexico states. Because of its relationship with local planners, GOMA intends to utilize existing partnerships with the Gulf Sea Grant programs to bridge gaps that currently exist between the business/industry sector and the local community when planning for resilience at the local level. A steering committee composed of industry professionals and a systems working group will work together to identify the indicators and appropriate strategies to address areas of weakness in business systems that can be addressed in future resilience planning. Resilience, as addressed through this project, means to prepare Gulf residents to live and prosper with the knowledge of vulnerabilities to core systems, including economic downturns, hazardous

events, climate changes, and other coastal stressors that disrupt their lives. Fiscal Year 2014: The Pacific Services Center, Coastal Resilience Networks program is working to sponsor a project with the University of Oregon for development of local recovery plans. The project will also result in a strategy to ensure ongoing and focused efforts to share, transfer, and disseminate and other volunteers to train, disseminate and resilience and recovery planning knowledge and capacity throughout the region following the grant performance period. The Pacific Services Center, Bay Watershed, Education, and Training program is working to sponsor a project with the University of Hawaii titled The Kaneohe Ahupuaa Ridge-to-Reef Project (KARRP): An Environmental Science Education, Stewardship and Research Program for High School Juniors and Seniors in Hawaii. The project is designed to offer an exceptional college-level summer experience in environmental science education and research for high school juniors and seniors during the summer of 2015. Through an intensive six-week summer program, the investigators will broaden students understanding of the Kaneohe Bay watershed and coral reef ecosystem, introduce them to new scientific research areas, add to their knowledge of current scientific methodology, research techniques, and scientific tools, and encourage environmental stewardship. Fiscal Year 2015: The CSC Pacific Services Center (PSC), is planning to provide competitive grants through the Bay Watershed Education and Training (B-WET) Hawaii program to foster the development of innovative science programs, partnerships and products throughout the State of Hawaii, as well as support environmental education efforts that align with national and state education standards (subject to the availability of funding).

PSC is planning to manage the Coastal Resilience Networks grant program to implement activities that enhance resilience of coastal communities to natural hazard and climate risks through a regional or national network (subject to the availability of funding).

CRITERIA FOR SELECTING PROPOSALS:

Proposals are subject to office evaluations, technical reviews, administrative reviews, and externals reviews, if applicable, taking into consideration primarily scientific merit and application to the goals of NOAA and the relevant federal program office.

project expenses related to coral reef conservation activities conducted by U.S. States and Territories, Regional Fishery Management Councils with jurisdiction over coral reefs, and International partners in four key regions, and project costs associated with research studies and conservation activities undertaken by other eligible non-governmental partner organizations in the U.S. The Coral Reef Conservation Act (16 USC6403) stipulates that at least 40% of funding must go to recipients in the Pacific and at least 40% must go to recipients in the Atlantic/Caribbean. In addition, 6403(g) requires that only projects that are consistent with the National Coral Reef Action Strategy and meet the ten specific criteria listed in that section may be funded through this program.

Applicant Eligibility:

Institutions of higher education, non-profit organizations, commercial organizations, local and Indian tribal government agencies, foreign governments, relevant Regional Fishery Management Councils (i.e., Caribbean Fishery Management Council, the Gulf of Mexico Fishery Management Council, the South Atlantic Fishery Management Council, and the Western Pacific Regional Fishery Management Council), and State, Territorial and Commonwealth resource management agencies that were appointed by their respective Governors to serve as the primary point of contact agencies for coral reef conservation activities in each of the jurisdictions of American Samoa, Florida, the Commonwealth of the Northern Mariana Islands, Guam, Hawaii, Puerto Rico, and the U.S. Virgin Islands.

Beneficiary Eligibility:

Organizations and individuals with professional expertise in managing and conserving coral reef ecosystems in the U.S. and internationally.

Preapplication Coordination:

Pre-applications are required for some funding categories. Environmental impact information is required for this program for projects that are not covered by the CRCPs PEA/FONSI. E.O. 12372, "Intergovernmental Review of Federal Programs" applies to some of the funding categories administered by the CRCP. An environmental impact statement is required for this program. An environmental impact assessment is required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Proposals should be submitted through Grants.Gov. Applicants will need to enter the Funding Opportunity and/or CFDA number to access the application package and instructions. No-cost extension requests will be considered by the federal program office only if the recipient has submitted all required performance reports. At least sixty days prior to the end of the award, recipients must discuss with their federal program officer expected reprogramming and extensions requests. After

preliminary negotiation on proposed projects and extensions, formal written reprogramming and extension requests should be received by the federal program office 45 days prior to the end date of the award. The federal program office will not recommend approval for any retroactive extension request (received after the end date of the award). Recipients should submit one extension request per award. With sufficient justification, the federal program office will recommend approval of a no-cost extension. Although the federal program office discourages extensions of more than 12 months, the federal program office may recommend approval in some cases. Renewal of an award to increase funding or extend the period of performance is at the total discretion of the Department.

See Department of Defense Instruction 1342.18.

ED annually provides data to DoD that it has collected from LEAs to determine whether the LEA is eligible for Federal Impact Aid under section 20 U.S.C. 7703. The data provided by ED includes the average daily attendance (ADA) figures for students who are military dependent students, and military dependent students with disabilities who are in attendance at each LEA,

segregated by whether such students reside on or off Federal property.

1. DoD IMPACT AID FOR CHILDREN WITH SEVERE DISABILITIES PROGRAM

a. DoD sends correspondence to each LEA identified by ED as having military dependents with disabilities, inviting them to complete an application for financial assistance for severely disabled military dependents in accordance with the criteria in 20 U.S.C. 7703a. The correspondence includes SD Form 816 and its continuation sheet, SD Form 816C for the appropriate school year, and guidelines for completing those forms in order to apply for financial assistance for severely disabled military dependents.

b. DoD determines which LEAs are eligible for funds and makes payments to eligible LEAs (based on the information the LEAs submit) and certifies on forms SD 816 and 816C. An LEA is eligible for assistance if:

- (1) It has two or more military dependent children with severe disabilities, as defined in this regulation, and
- (2) the Secretary of Defense and the Secretary of Education or their respective designees have determined that the eligible LEA will be unable, without this assistance, to provide the students in the schools of the LEA with a level of education that is equivalent to the minimum level of education available in the schools of the other LEAs in the same state.

c. If the amount available for a fiscal year is insufficient to pay the full amount that each LEAs is eligible to receive, DoD shall reduce the amount paid to each LEA by an equal percentage.

d. No LEA may receive more than \$1,000,000.00 in assistance under this subsection for any fiscal year.

2. DoD SUPPLEMENTAL IMPACT AID PROGRAM

a. Under 20 U.S.C. 7703b, DoD identifies an LEA as eligible for the DoD Supplemental Impact Aid Program during a fiscal year if at least 20 percent (as rounded to the nearest whole percent) of the ADA in that LEA qualified for Impact Aid under 20 U.S.C. 7703 during the previous school year.

b. In determining the amount of assistance available to an LEA, DoD employs a formula that weights the value an LEA may receive for its military dependent students described by 20 U.S.C. 7703(a)(1)(B) and (D) based on whether they reside on or off Federal property.

- (1) Multiply the number of military dependent children who resided on Federal property by 1.0
- (2) Multiply the number of military dependent children who resided on Federal property by 0.35 if the LEA has in excess of 5,000 such children, or an ADA for all children that exceeds 100,000;
- (3) Multiply the number of military dependent children who do not reside on Federal property by .20.

c. No LEA may receive more than \$1,000,000.00 in assistance under this subsection for any fiscal year.

d. Eligible LEAs will be notified of the amount of assistance they are eligible to receive, and asked to submit a Standard Form 3881, ACH Vendor/Miscellaneous Payment Enrollment Form in order to receive payment.

e. DoD then distributes to each eligible LEA the funds described in b. above.

3. DoD IMPACT AID PROGRAM FOR LARGE SCALE REBASING*

a. In accordance with 20 U.S.C. 7703b(b), DoD identifies an LEA as eligible for the DoD Impact Aid Program for Large Scale Rebasing during a fiscal year if:

(1) The LEA is eligible for assistance under subsection 3 of this regulation for the same fiscal year or would have been eligible for such assistance if not for the reduction in military dependent students in schools of the LEA.

(2) During the period between the end of the school year preceding the fiscal year for which the assistance is authorized and the beginning of the school year immediately preceding that school year, the LEA has an overall increase or reduction of:

- (a) not less than five percent in the ADA of military dependent students

in the schools of the LEA, or

(b) not less than 250 military dependent students in ADA in the schools of the local education agency.

(3) The overall increase or reduction in military dependent students in schools of the LEA is the result of one or more of the following:

- (a) The global rebasing plan of the DoD.
- (b) The official creation or activation of one or more new military units.
- (c) The realignment of forces as a result of the base closure process.
- (d) A change in the number of housing units on a military installation.

b. Eligible LEAs will be notified of the amount of assistance they are eligible to receive.

c. DoD distributes funds for the DoD Impact Aid Program for Large Scale Rebasing pursuant to 20 U.S.C. 7703b, equal to the product obtained by multiplying the per-student rate for a fiscal year by the net of the overall increases and reductions in the number of military dependent students of an LEA.

d. The per-student rate for a fiscal year shall be equal to the dollar amount obtained by dividing the total amount of funds made available for that fiscal year to provide assistance under this subsection by the sum of the overall increases and reductions in the number of military dependent students in schools of all local educational agencies eligible for 20 U.S.C. 7703b(b) assistance for that fiscal year.

The Project Manager will then proceed to engage the affected local governments and/or State to confirm their interest and support to undertake the study and implement the study recommendations. Once support from the Installation Commander and affected local governments and/or State is confirmed, the Project Manager will work with the local governments and/or State to craft an effective and responsive program of assistance to ensure civilian growth and development are compatible with the continued operational utility of the military installation. The Project Manager will provide necessary information to assist the State or local government to prepare and submit an application for financial assistance under this program. PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2013: The focus of this program is to assist State and local governments in preparing and adopting a planning study to mitigate or prevent incompatible civilian land use/activity that is likely to impair the continued operational utility of a Department of Defense (DoD) military installation. Technical and financial assistance is available through a Joint Land Use Study to partner with the local military to plan and carry out strategies promoting compatible civilian development adjacent to installations and related ranges, and special use airspace, including military training routes and military operations areas. More than 70 planning studies are underway across the country, providing assistance throughout 25 States and 48 local communities.

During FY 2013, the program responded to 19 new Joint Land Use Study nominations from the Military Services and six Joint Land Use Studies were completed. Although local governments sponsor most Joint Land Use Study projects, some states have led the cooperative, community-driven planning process, particularly when the military operational footprint affects multiple jurisdictions. Some ongoing Joint Land Use Study projects include expansive geographic areas involving multiple states and local jurisdictions to address interdependent military missions and assets, requiring coordination of airspace, range usage, frequency spectrum. Completion of a Joint Land Use Study may result in the establishment of a permanent, multi-jurisdictional partnership with the Military Service to promote long-term mission sustainability and continued regional community development. Fiscal Year 2014: The focus of this program is to assist State and local governments in preparing and adopting a planning study to mitigate or prevent incompatible civilian land use/activity that is likely to impair the continued operational utility of a Department of Defense (DoD) military installation. Technical and financial assistance is available through a Joint Land Use Study to partner with the local military to plan and carry out strategies promoting compatible civilian development adjacent to installations and related ranges, and special use airspace, including military training routes and military operations areas. More than 70 planning studies are underway across the country, providing assistance throughout 25 States and 48 local communities.

During FY 2014, the program is projected to respond to 17 new Joint Land Use Study nominations from the Military Services, potentially providing assistance throughout 11 States and more than 17 local communities. Fiscal Year 2015: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

States, counties, municipalities, other political subdivisions of a State, special purpose units of a State or local government, and tribal nations are eligible for this assistance if a substantial portion of the economic activity or population of the applicant's geographic area is dependent on defense expenditures. The Office of Economic Adjustment must determine, in consultation with the affected state or community, that a substantial portion of the economic activity or population of the geographic area subject to the planning under this program is dependent on Department of Defense (Defense) expenditures. For purposes of eligibility determination, an area is considered Defense-dependent if it can demonstrate: (1) Direct military and civilian employment totals at least one and a half times the national level of Defense employment as a percent of the total U.S. labor force or (2) Defense-related expenditures comprise at least one and a half times the Defense percent of gross domestic product. The National Defense Budget Estimates for FY2012 states that the 2010 Defense employment as a percent of total labor force is 1.4% and the 2012 Defense share of gross domestic product is 4.0%. One and half times the Defense employment as a percent of the total labor force is 2.1%, and one and half times the Defense percent of gross domestic product is 6.0%. Technical and financial assistance is structured through an assigned Project Manager working with a defense-dependent State and/or local government.

FEDERAL AGENCY:

Office of Community Planning and Development, Department of Housing and Urban Development

OBJECTIVES:

To develop viable urban communities by providing decent housing, a suitable living environment, and expanding economic opportunities, principally for persons of low and moderate income.

TYPES OF ASSISTANCE:

USES AND USE RESTRICTIONS:

Recipient communities may undertake a wide range of community-based activities directed toward neighborhood revitalization, economic development, and community services, facilities, and improvements. Entitlement communities develop their programs and set their funding priorities in conformance with the statutory standards, program regulations, and other federal requirements. Specific activities that can be carried out with Community Development Block Grant (CDBG) funds include acquisition of real property; relocation; clearance and demolition; rehabilitation of residential and nonresidential structures; provision of public facilities and improvements, such as water and sewer facilities (which require reviews by the State single point of contact or a Regional Planning Agency in accordance with Executive Order 12372), streets, and neighborhood centers. Within program limitations, CDBG funds can also pay for public services. Recipients may provide assistance to microenterprises or other for-profit entities when the recipient determines that such assistance is appropriate to carry out an economic

development project. Community-based development organizations may carry out neighborhood revitalization, community economic development, or energy conservation activities. Each CDBG eligible activity must meet one of three national objectives: benefit low- and moderate-income persons, aid in the prevention or elimination of slums or blight, or meet other community development needs having a particular urgency that the grantee is unable to finance on its own. Recipients may only carry out eligible activities as listed in 24 CFR 570.201-207 or the statute.

Applicant Eligibility:

Recipients are states; cities in Metropolitan Areas designated by OMB as a central city of the Metropolitan Area; other cities over 50,000 in Metropolitan Areas; and qualified urban counties of at least 200,000 (excluding the population in entitlement cities located within the boundaries of such counties) are eligible to receive CDBG entitlement grants determined by a statutory formula.

Beneficiary Eligibility:

The principal beneficiaries of CDBG funds are low- and moderate-income persons (generally defined as a member of a family having an income equal to or less than the Section 8 low income limit established by HUD). The recipient must certify that at least 70 percent of the grant funds received during a 1, 2, or 3-year period, that it designates, are expended for activities that will principally benefit low- and moderate-income persons.

Preapplication Coordination:

Executive Order 12372 is applicable only where a recipient proposes to use funds for the planning or construction (reconstruction or installation) of water or sewer facilities. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Recipients submit a 5-year Consolidated Plan, an annual action plan, SF Form 424, and certifications to HUD. The Consolidated Plan and annual action plan cover four major formula-distribution HUD Community development programs, including CDBG. The annual action plan must include the local community development objectives and show the proposed use of the funds. If the grantee makes a complete submission within the established deadlines, the Department will make a grant award unless a determination is made by HUD that the grantee's performance is unsatisfactory. HUD will approve the submission generally within 45 days of receipt of the annual action plan and required certifications unless a determination has been made that the grantee has failed to carry out its CDBG program in a timely manner or has failed to conform to the requirements of the statute or other applicable laws. Under such circumstances, HUD may take appropriate actions, including a reduction in the amount of the original formula-allocated grant.

Award Procedure:

14.228 COMMUNITY DEVELOPMENT BLOCK GRANTS/STATE'S PROGRAM AND NON-ENTITLEMENT GRANTS IN HAWAII

State CDBG

FEDERAL AGENCY:

Office of Community Planning and Development, Department of Housing and Urban Development

AUTHORIZATION:

Housing and Community Development Act of 1974, Title I, Section 101-122, Public Law 93-383, 88 Stat. 633, 42 U.S.C 5301-5322.

OBJECTIVES:

The primary objective of this program is the development of viable urban communities by providing decent housing, a suitable living environment, and expanding economic opportunities, principally for persons of low- and moderate-income. Each activity funded must meet one of the program's National Objectives by: Benefiting low- and moderate-income families; aiding in the prevention or elimination of slums or blight; or meeting other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community where other financial resources are not available.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Thirty percent of funds available for distribution under each annual appropriation for the Community Development Block Grant (CDBG) program is allocated among the States and Puerto Rico (which is considered to be a state for the State CDBG program) for use in areas which are not a metropolitan city or part of an urban county (nonentitlement areas). All States except Hawaii have elected to administer these CDBG funds for areas that do not receive CDBG entitlement grants (14.218). HUD awards the formula grants to these States under the CDBG/State Program. In Hawaii, HUD awards the state's share of these funds to the three non-entitlement counties by formula. States must distribute CDBG funds to units of general local government (counties, towns, etc.) in nonentitlement areas. States develop their own programs and funding priorities. Units of general local government then carry out community development activities funded by the State. Eligible activities are directed toward neighborhood revitalization, economic development, or provision of improved community facilities and services. Specific activities that can be carried out with block grant funds include: Acquisition, rehabilitation or construction of certain public works facilities and improvements, such as streets, water and sewer facilities, neighborhood centers, recreation facilities, and other public works; demolition and clearance; rehabilitation of public and private buildings including housing; code enforcement; relocation payments and assistance; economic development; planning activities; certain public services with some restrictions; and administrative expenses. The projected use of funds must be developed to ensure that all activities will meet one of the three national objectives described under "OBJECTIVES". Communities receiving CDBG funds from a state may select subgrantees to carry out approved projects. Such subgrantees may include: Neighborhood-based nonprofit organizations; local development corporations; Small Business Investment Companies; or other nonprofit organizations serving the development needs of nonentitlement areas. Grant recipients may provide assistance to for-profit entities when the recipient determines that the provision of such assistance is appropriate to carry out an economic development project. Communities are restricted from constructing or rehabilitating public facilities for the general conduct of government and from making housing allowances or other income maintenance-type payments. Each State may use a limited portion of its grant, subject to a matching requirement, to administer the program. Each State may also use a limited portion of its grant, with no matching requirement, to provide technical assistance to local governments and nonprofit program

recipients. At least seventy percent of the funds received must benefit low and moderate income persons.

Applicant Eligibility:

Forty-nine State governments and the Commonwealth of Puerto Rico receive funds from HUD under this program. The state of Hawaii does not participate and HUD allocates the state's share of funds to the three Hawaii non-entitled counties. Funds are allocated to each state based on a statutory formula. States must distribute the funds to units of general local government in nonentitlement areas.

Beneficiary Eligibility:

The principal beneficiaries of CDBG funds are low- and moderate- income persons. For non-metropolitan areas, low- and moderate- income is generally defined as 80 percent of the median income for non-metropolitan areas of the State or of the county, whichever is higher, adjusted for family size. For eligible localities in metropolitan areas, low- and moderate-income is generally defined as 80 percent of the median income for the metropolitan area, adjusted for family size.

Credentials/Documentation:

Grantees must certify that they will comply with program requirements specified in 24 CFR Part 91. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. States must follow the fiscal requirements contained in 24 CFR 570.489. Each state and non-entitled Hawaii county must submit a Consolidated Plan, an annual action plan and certifications to HUD. The Consolidated Plan and annual action plan cover four major formula-distribution HUD community development programs, including CDBG. The annual action plan must contain the method by which the State will distribute its CDBG funds.

Award Procedure:

HUD will provide funds after the State or non-entitled Hawaii county submits its Consolidated Plan, annual action plan and Certifications.

Deadlines:

Nov 15, 2013 to Aug 16, 2014 Consolidated Plans may be submitted between November 15 and August 16 of each fiscal year in which the grantee will administer funds.

Range of Approval/Disapproval Time:

HUD will review plan submissions for completeness and consistency with the purposes of the Act, within 45 days of receipt from a grantee.

Appeals:

The procedure is described in regulations (24 CFR Part 570 Subpart I for states and 24 CFR Part 570 Subpart O for non-entitlement counties in Hawaii).

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title 24, Chapter V, Part 570, Subpart A, Public Law 93-383.

Matching Requirements: For state administration of the program, after an initial allowance of \$100,000 with no match, states may take an additional allowance of up to 3% of the grant amount but must match such expenditures on a dollar for dollar basis. There is no matching requirement for the non-entitlement counties in Hawaii.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance is provided to States and non-entitlement counties in Hawaii on an annual basis. Individual States may impose time limitations on the implementation of grants to recipients. Method of awarding/releasing assistance: by letter of credit.

Reports:

Annual performance report covering all programs included in the Consolidated Plan as prescribed at 24 CFR 91.520. For Hawaii counties, SF-425 Federal Cash Transactions Report is required. Annual Performance and Evaluation Report details the state's performance in completing activities undertaken with each allocation of funds. Disbursement reports are a standard feature of the Integrated Disbursement and Information System used to access the grantee's line of credit. Program performance monitoring is conducted by field office staff.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

Records must demonstrate that the State or non-entitlement county in Hawaii has met the requirements of Title I of the Act.

AUTHORIZATION:

McKinney-Vento Homeless Assistance Act of 1987, Title IV, as amended, 42

U.S.C. 11371-78.

OBJECTIVES:

The ESG program provides funding to: (1) engage homeless individuals and families living on the street; (2) improve the number and quality of emergency shelters for homeless individuals and families; (3) help operate these shelters; (4) provide essential services to shelter residents, (5) rapidly re-house homeless individuals and families, and (6) prevent families and individuals from becoming homeless.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

ESG funds may be used for five program components: street outreach, emergency shelter, homelessness prevention, rapid re-housing assistance, and HMIS; as well as administrative activities (up to 7.5% of a recipient's allocation can be used for administrative activities). For specific uses and use restrictions, see 24 CFR part 576, subpart B.

Applicant Eligibility:

Eligible recipients generally consist of metropolitan cities, urban counties, territories, and states, as defined in 24 CFR 576.2. Metropolitan cities, urban counties and territories may subgrant ESG funds to private nonprofit organizations. States must subgrant all of their ESG funds (except for funds for administrative costs and, under certain conditions, HMIS costs) to units of general purpose local government and/or private nonprofit organizations. Each recipient must consult with the Continuum(s) of Care operating within the jurisdiction in determining how to allocate ESG funds.

Beneficiary Eligibility:

The minimum eligibility criteria for ESG beneficiaries are as follows: For essential services related to street outreach, beneficiaries must meet the criteria under paragraph (1)(i) of the homeless definition under 576.2. For emergency shelter, beneficiaries must meet the homeless definition in 24 CFR 576.2. For essential services related to emergency shelter, beneficiaries must be homeless and staying in an emergency shelter (which could include a day shelter). For homelessness prevention assistance, beneficiaries must meet the requirements described in 24 CFR 576.103. For rapid re-housing assistance, beneficiaries must meet requirements described in 24 CFR 576.104. Further eligibility criteria may be established at the local level in accordance with 24 CFR 576.400(e).

Credentials/Documentation:

Recipients must certify they will meet program requirements and applicable federal requirements. Government recipients and subrecipients must comply with OMB Circular No. A-87. Subrecipients that are private nonprofit organizations must comply with OMB Circular No. A-122. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is required. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. In addition to meeting the application submission requirements in 24 CFR part 5, subpart K, each State, urban county, or metropolitan city must submit a consolidated plan, an annual action plan, and certifications to HUD, in accordance with the requirements in 24 CFR part 91, and each territory must submit a consolidated plan, an annual action plan, and certifications to HUD, in accordance with the requirements that apply to local governments under 24 CFR part 91. The consolidated plan and annual action plan cover four major HUD formula programs, including ESG. The annual action plan must describe how the funds will be used. The uniform administrative requirements at 24 CFR parts 84 and 85 apply as specified in 24 CFR 576.407(c).

Award Procedure:

The HUD field office reviews the grantee's Consolidated Plan and, upon plan approval, notifies the applicant of the award and prepares the grant agreement.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Each jurisdiction should submit its consolidated plan to HUD at least 45 days before the start of its program year. In no event will HUD accept a submission earlier than November 15 or later than August 16 of the federal fiscal year for which the grant funds are appropriated.

The plan will be deemed approved 45 days after HUD receives the plan, unless before that date HUD has notified the jurisdiction that the plan is disapproved. If the plan is disapproved, the jurisdiction may revise or resubmit a plan within 45 days after the first notification of disapproval. HUD must respond to approve or disapprove the plan within 30 days of receiving the revisions or resubmission.

Appeals:

Formula allocations may not be appealed. Disapproved plans may be resubmitted in accordance with 24 CFR 91.500.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: The formula for this program is part statutory and part regulatory (see section 414 of the McKinney-Vento Homeless Assistance Act and 24 CFR 576.3). HUD will set aside for allocation to the territories up to 0.2 percent, but not less than 0.1 percent, of the total amount of each appropriation in any fiscal year. The remainder will be allocated to States, metropolitan cities, and urban counties. The percentage allocated to each State, metropolitan city, and urban county will be equal to the percentage of the total amount available under section 106 of the Housing and Community Development Act of 1974 for the prior fiscal year that was allocated to the State, metropolitan city or urban county. If an allocation to a metropolitan city or urban county would be less than 0.05 percent of the total fiscal year appropriation for ESG, the amount is added to the allocation of the State in which the city or county is located. If the recipient or subrecipient is a unit of general purpose local government, its ESG funds cannot be used to replace funds the local government provided for street outreach and emergency shelter services during the immediately preceding 12-month period, unless HUD determines that the unit of general purpose local government is in a severe financial deficit in accordance with 24 CFR 576.101(c).

Matching Requirements: Metropolitan city and urban county recipients must match grant funds with an equal amount of funds from cash or the following in-kind sources: services contributed by volunteers, the donation of materials and buildings, or the value of any lease on a building. States must match all but \$100,000 of their awards, but must pass on the benefit of that \$100,000 exception to their sub-recipients that are least capable of providing matching amounts. Territories are exempt from the match requirement.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Metropolitan cities, urban counties and territories must obligate all funds, except for the amount for administrative costs, within 180 days after HUD signs the grant agreement. States must obligate all funds, except the amount for administrative costs, to subrecipients within 60 days after the date that HUD signs the grant agreement. Each subrecipient that is a unit of general purpose local government must obligate its grant funds within 120 days after the date the State obligates its funds. All grant funds must be expended within 24 months after HUD signs the grant agreement with the recipient. Method of awarding/releasing assistance: by letter of credit.

Reports:

Each recipient must report its program accomplishments for each program year in the Consolidated Annual Performance and Evaluation Report (CAPER). Each recipient's efficient expenditure of grant funds is evaluated through information provided in the program management's information system, known as the Integrated Disbursement and Information System (IDIS). Each recipient must also comply with the reporting requirements under the Federal Funding Accountability and Transparency Act of 2006, (31 U.S.C. 6101 note), which are set forth in appendix A to 2 CFR part 170. Monitoring is "risk-assessment based" with high-risked grantees receiving priority status for monitoring and

review. The performance report shall be submitted to HUD within 90 days after the close of the jurisdiction's program year. Recipients draw down ESG funds from the Integrated Disbursement and Information System (IDIS). This is HUD's primary method of capturing financial and expenditure data from the recipients. Progress reports are not applicable. Through the CAPER and IDIS draw down information, recipients provide reports on expenditures. In accordance with 24 CFR Part 85, recipients are required to monitor their subrecipients for compliance with the ESG requirements.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

Sufficient records must be established and maintained to enable the recipient and HUD to determine whether ESG requirements are being met. All records pertaining to each fiscal year of ESG funds must be retained for the greater of 5 years or the period specified under 24 CFR 576.500(y).

14.269 HURRICANE SANDY COMMUNITY DEVELOPMENT BLOCK GRANT DISASTER RECOVERY GRANTS (CDBG-DR)

Community Development Block Grant Disaster Recovery program for Hurricane Sandy and other qualifying disasters occurring in 2011, 2012 and 2013

FEDERAL AGENCY:

Office of Community Planning and Development, Department of Housing and Urban Development

AUTHORIZATION:

Disaster Relief Appropriations Act, 2013 Public Law 113-2, Public Law 113-2.

OBJECTIVES:

The overall CDBG program objective is to develop viable urban communities, by providing decent housing and a suitable living environment, and by expanding economic opportunities, principally for persons of low and moderate income. CDBG DR program funds appropriated by P.L. 113-2 are for necessary expenses related to disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization in the most impacted and distressed areas resulting from a major disaster declaration due to Hurricane Sandy and other eligible events in calendar years 2011, 2012, and 2013.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Recipients may undertake a wide range of activities directed toward addressing unmet needs of disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization. However, CDBG DR funds may not

be used for activities reimbursable by other sources of funds, such as those made available by the Federal Emergency Management Agency, the Army Corps of Engineers, or private insurance. Grantees must conduct an assessment of community impacts and unmet needs to guide the development and prioritization of planned recovery activities and develop their own programs and funding priorities as long as programs/activities conform to the statutory standards and program regulations. Some of the specific activities that can be carried out with Community Development Block Grant Disaster recovery (CDBG DR) funds include buying damaged properties in a flood plain and relocating residents to safer areas; relocation payments for people and businesses displaced by the disaster; debris removal not covered by FEMA; rehabilitation of homes and buildings damaged by the disaster; buying, constructing, or rehabilitating public facilities such as streets, neighborhood centers, and water, sewer and drainage systems; code enforcement; homeownership activities such as down payment assistance, interest rate subsidies and loan guarantees for disaster victims; public services (generally limited to no more than 15 percent of the grant); helping businesses retain or create jobs in disaster impacted areas; and planning and administration costs (limited to no more than 20 percent of the grant). Eligible activities must meet at least one of three program national objectives: benefit persons of low and moderate income, aid in the prevention or elimination of slums or blight, or meet other urgent community development needs because existing conditions pose a serious and immediate threat to the health and welfare of the community where other financial resources are not available. CDBG Disaster Recovery grants primarily benefit low-income residents in and around communities that have experienced a natural disaster. At least 50 percent of each grantee's CDBG-DR grant award must be used for activities that benefit low- and moderate-income (LMI) persons. These can be either activities in which all or the majority of people who benefit have low or moderate incomes or activities that benefit an area or service group in which at least 51 percent of the population are of low- and moderate-income. Recipients may contract with other local agencies or nonprofit organizations to carry out components of their programs. Grantees must meet the 50 percent LMI expenditure requirement unless a waiver has been requested by the grantee and approved by HUD. Recipients may only carry out eligible activities as listed in 24 CFR 570.201-207 or for which a waiver or alternative requirement has been granted by the Secretary, based upon a determination that good cause exists and that the waiver or alternative requirement is not inconsistent with the overall purposes of Title I of the HCD Act.

Applicant Eligibility:

CDBG Disaster Recovery funds are made available to States and units of general local governments designated by the President of the United States as disaster areas. These communities must have significant unmet recovery needs and the capacity to carry out a disaster recovery program (usually these are governments that already receive HOME or Community Development Block Grant allocations). Grantees may use CDBG Disaster Recovery funds for recovery efforts involving housing, economic development, infrastructure and prevention of further damage to affected areas. However, CDBG DR funds may not be used for activities reimbursable by or for which funds are made available by the Federal Emergency Management Agency or the Army Corps of Engineers.

Beneficiary Eligibility:

The principal beneficiaries of CDBG DR funds are low- and moderate-income persons (generally defined as a member of a family having an income equal to or less than the Section 8 low income limit established by HUD) in communities that have experienced a disaster event. At least 50 percent of each grantee's CDBG-DR grant award must be used for activities that benefit low- and moderate-income (LMI) persons. These can be either activities in which all or the majority of people who benefit have low or moderate incomes or activities that benefit an area or service group in which at least 51 percent of the population are of low- and moderate-income. Grantees must meet the 50 percent LMI expenditure requirement unless a waiver has been requested by the grantee and approved by HUD.

Credentials/Documentation:

Recipients must certify they will meet program requirements and applicable federal requirements. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

As a condition of making any grant under this appropriation, the Secretary is required to certify in advance that grantees have in place proficient financial controls and procurement processes and have established adequate procedures to prevent any duplication of benefits as defined by section 312 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5155), to ensure timely expenditure of funds, to maintain comprehensive websites regarding all disaster recovery activities assisted with these funds, and to detect and prevent waste, fraud, and abuse of funds. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Recipients submit an Action Plan for Disaster Recovery, SF Form 424, and certifications to HUD. In the Action Plan for Disaster Recovery, grantees must describe uses and activities that are authorized under Title I of the Housing and Community Development Act of 1974 (42 U.S.C. 5301 et seq.) (HCD Act) or allowed by a waiver or alternative requirement published in the federal register notice covering the grant funds and also respond to a disaster-related impact. HUD reviews grantee Action Plans within 45 days of receipt and approves the Plan according to criteria identified in the federal register notice covering the grant funds.

Award Procedure:

P.L. 113-2 provides that funds shall be awarded directly to a State or unit of general local government (UGLG) at the discretion of the Secretary. To comply with statutory direction that funds be used for disaster-related expenses in the most impacted and distressed areas, the Department computed direct allocations to eligible grantees totaling \$14,181,892,000 based on the best available data that cover all the eligible affected areas. States and local governments receiving a CDBG DR allocation may carry out programs and/or activities directly or through subrecipients, including local governments, governmental agencies, and non-profit entities. The remaining \$999,108,000 appropriated under P.L. 113-2 will be awarded to eligible grantees based on a competition. These funds will be allocated under a separate CFDA number (14.272).

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

After a grantee receives an allocation under a published Federal Register notice, it must submit an initial Action Plan for Disaster Recovery within a time frame specified in the specific applicable Federal Register Notice.

Appeals:

Administrative appeals process followed if grant funds are withheld or reduced, or repayment proposed for non-compliance or non-performance.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title 24, Chapter 570. To comply with statutory direction that funds be used for disaster-related expenses in the most impacted and distressed areas, HUD computed allocations based on the best available data that cover all the eligible affected areas. P.L. 113-2 specifies that the CDBG DR funds be used for necessary expenses related to disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization in the most impacted and distressed areas resulting from a major disaster and further specifies that the funds are not to be used for activities reimbursable by other available forces of funds such as FEMA, the Corps of Engineers, or private insurance.

For this allocation, similar to prior CDBG DR allocations, the Department makes a determination of unmet needs by estimating unmet needs related to the main intended uses of the funds, including restoration of housing, economic revitalization, and restoration of infrastructure. These estimated needs are then summed together and an allocation is made among the grantee universe based on their proportional share of unmet needs..

This program has no matching requirements. This program has no matching requirements.

This program does not have MOE requirements. This program does not have

MOE requirements.

Length and Time Phasing of Assistance:

To ensure the timely expenditure of funds, section 904(c) under Title IX of P.L. 113-2 that all funds be expended within two years of the date HUD obligates funds to a grantee (funds are obligated to a grantee upon HUDs signing of the grantees CDBG DR grant agreement). Action Plans must demonstrate how funds will be fully expended within two years of obligation. For any funds that the grantee believes will not be expended by the deadline, it must submit a letter to HUD justifying why it is necessary to extend the deadline for a specific portion of funds. Additionally, P.L. 113-2 requires that HUD obligate all funds provided under Chapter 9, Community Development Fund, not later than September 30, 2017. Method of awarding/releasing assistance: by letter of credit.

Reports:

HUD requires grantees to enter information in HUDs Disaster Recovery Grant Reporting (DRGR) system in sufficient detail to permit the Departments review of grantee performance on a quarterly basis through a Quarterly Performance Report (QPR). HUD reviews these quarterly reports to assess grantee compliance and performance. Quarterly reports include information on obligation, expenditures, drawdowns, and accomplishments for all grantee activities. Each grantee must submit a QPR through the DRGR system no later than 30 days following the end of each calendar quarter. No cash reports are required. No progress reports are required. The Quarterly Performance Report (QPR), submitted by grantees on a quarterly basis through HUD's Disaster Recovery Grant Reporting (DRGR) system includes information on expenditures for all their activities. The Department performs regular performance monitoring of grantees both remotely and through annual on-site reviews. The Department determines on-site monitoring priorities based on a risk-analysis of the grantees portfolio of activities or known high-risk areas. For all Headquarters-held grants under this appropriation, HUD staff will conduct at least two annual on-site monitoring reviews.

The Office of Community Planning and Development's CPD Notice CPD -12-02, 'Implementing Risk Analysis for Monitoring Community Planning and Development Grant Programs' describes the Department's risk analysis process. Monitoring exhibits can be found in Chapter 6 of HUD's Community Planning and Development (CPD) Grantee Monitoring Handbook.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. The auditee may elect to have a program-specific audit conducted under certain limited circumstances. CDBG DR grantees shall make reviews and audits, including onsite reviews of any subrecipients, designated public agencies, and UGLGs, as may be necessary or appropriate to meet the requirements of 42 U.S.C. 5304(e)(2), as amended, and as modified by the federal notice covering grant funds. Additionally, grantees must have an internal audit function in place for the detection of fraud, waste, and abuse where the responsible audit staff report independently to the chief officer or board of the organization designated to administer the CDBG DR award.

Records:

Grantees must maintain records with regard to eligibility, national objectives, financial management, citizen participation, relocation, other resources, acquisition, housing assistance to dwelling units and households, equal opportunity, environmental impact, labor standards and other requirements set forth in the program regulations. Records shall be retained for a period of three years from closeout of the grant, except as otherwise prescribed in the regulations.

14.272 NATIONAL RESILIENT DISASTER RECOVERY COMPETITION

FEDERAL AGENCY:

Office of Community Planning and Development, Department of Housing and Urban Development

AUTHORIZATION:

Disaster Relief Appropriations Act, 2013 Public Law 113-2., Public Law 113-2.

OBJECTIVES:

The overall CDBG program objective is to develop viable urban communities, by providing decent housing and a suitable living environment, and by expanding economic opportunities, principally for persons of low and moderate income. The National Resilient Disaster Competition program funds appropriated by P.L. 113-2 are available for resilient recovery projects and necessary expenses related to disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization in the most impacted and distressed areas resulting from a major disaster declared pursuant to the due to Hurricane Sandy and other eligible events in calendar years 2011, 2012, and 2013.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

The competition will support innovative resilience projects at the local level while encouraging communities to adopt policy changes and activities that plan for the impacts of extreme weather and rebuild affected areas to be better prepared for the future. The competition underscores the ability communities have to not only recover from recent disasters but also rebuild better and stronger for the future. It will allow them to engage local stakeholders, nongovernmental organizations and the philanthropic sector to protect their own communities from the impacts of climate change by enhancing resilient infrastructure, building on sound science, and deploying innovative approaches to investments. These funds will enable eligible communities to access resources that help both recover from the previous disaster and make plans, decisions, and investments that make them more resilient to the next disaster. Recipients may undertake a wide range of activities directed toward disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization. However, CDBG DR funds may not be used for activities reimbursable by or for which funds are made available by the Federal Emergency Management Agency or the Army Corps of Engineers. Grantees must conduct an assessment of community impacts and unmet needs to guide the development and prioritization of planned recovery activities and develop their own programs and funding priorities as long as programs/activities conform to the statutory standards and program regulations. Some of the specific activities that can be carried out with Community Development Block Grant Disaster recovery (CDBG DR) funds include buying damaged properties in a flood plain and relocating residents to safer areas; relocation payments for people and businesses displaced by the disaster; debris removal not covered by FEMA; rehabilitation of homes and buildings damaged by the disaster; buying, constructing, or rehabilitating public facilities such as streets, neighborhood centers, and water, sewer and drainage systems; code enforcement; homeownership activities such as down payment assistance, interest rate subsidies and loan guarantees for disaster victims; public services (generally limited to no more than 15 percent of the grant); helping businesses retain or create jobs in disaster impacted areas; and planning and administration costs (limited to no more than 20 percent of the grant). Eligible activities must meet at least one of three program national objectives: benefit persons of low and moderate income, aid in the prevention or elimination of slums or blight, or meet other urgent community development needs because existing conditions pose a serious and immediate threat to the health and welfare of the community where other financial resources are not available. CDBG Disaster Recovery grants primarily benefit low-income residents in and around communities that have experienced a natural disaster. Generally, grantees must use at least half of Disaster Recovery funds for activities that principally benefit low-and moderate-income persons. These can be either activities in which all or the majority of people who benefit have low or moderate incomes or activities that benefit an area or service group in which at least 51 percent of the populous are of low- and moderate-income. HUD can only waive this requirement on a showing of compelling need." Recipients may contract with other local agencies or nonprofit organizations to carry out components of their programs. Recipients may only carry out eligible activities as listed in 24 CFR 570.201-207 or for which a waiver or alternative requirement has been granted by the Secretary, based upon a determination that good cause exists and that the waiver or alternative requirement is not inconsistent with the overall purposes of Title I of the HCD Act.

Applicant Eligibility:

CDBG DR competitive funds are made available to States and units of general

local governments designated by the President of the United States as disaster areas. These communities must have significant unmet recovery needs and the capacity to carry out a disaster recovery program (usually these are governments that already receive HOME or Community Development Block Grant allocations). Grantees may use CDBG Disaster Recovery funds for recovery efforts involving housing, economic development, infrastructure and prevention of further damage to affected areas. However, CDBG DR funds may not be used for activities reimbursable by or for which funds are made available by the Federal Emergency Management Agency or the Army Corps of Engineers.

Beneficiary Eligibility:

The principal beneficiaries of CDBG DR funds are low- and moderate-income persons (generally defined as a member of a family having an income equal to or less than the Section 8 low income limit established by HUD) in communities that have experienced a disaster event. Generally, grantees must use at least half of Disaster Recovery funds for activities that principally benefit low-and moderate-income persons. These can be either activities in which all or the majority of people who benefit have low or moderate incomes or activities that benefit an area or service group in which at least 51 percent of the populous are of low- and moderate-income. HUD can only waive this requirement on a showing of compelling need."

Credentials/Documentation:

Recipients must certify they will meet program requirements and applicable federal requirements. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

As a condition of making any grant under this appropriation, the Secretary is required to certify in advance that grantees have in place proficient financial controls and procurement processes and have established adequate procedures to prevent any duplication of benefits as defined by section 312 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5155), to ensure timely expenditure of funds, to maintain comprehensive websites regarding all disaster recovery activities assisted with these funds, and to detect and prevent waste, fraud, and abuse of funds. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Recipients submit a comprehensive application to be considered for funding, SF Form 424, and certifications to HUD. The Application must meet the criteria of the NOFA and must identify the proposed use(s) of the grantees allocation, including criteria for eligibility, and how the uses address long-term recovery needs. Application for CDBG-RDR waiver and alternative requirement. The requirements for CDBG actions plans, located at 42 U.S.C. 12705(a)(2), 42 U.S.C. 5304(a)(1), 42 U.S.C. 5304(m), 42 U.S.C. 5306(d)(2)(C)(iii), 24 CFR 91.220, and 91.320 are waived for funds provided under the Appropriations Act. Instead, each grantee must submit to HUD an Application for CDBG-RDR. During the course of the grant, HUD will monitor the grantees actions and use of funds for consistency with the application, and meeting the performance and timeliness objectives therein and in this Attachment A. Per the Appropriations Act, and in addition to the requirements at 24 CFR 91.500, the Secretary may disapprove an amendment to an application if it is determined that the amended application does not satisfy all of the required elements identified in this NOFA.

14.314 ASSISTED LIVING CONVERSION FOR ELIGIBLE MULTIFAMILY HOUSING PROJECTS

(ALCP)

FEDERAL AGENCY:

Office of Housing-Federal Housing Commissioner, Department of Housing and Urban Development

AUTHORIZATION:

Section 202b of the Housing Act of 1959, as amended by the Section 202 Supportive Housing for the Elderly Act of 2010 (Public Law 111-372), 12 U.S.C 1701q-2.

OBJECTIVES:

To preserve the current elderly housing stock by converting units with a grant into Assisted Living Facilities (ALFs) or Service-Enriched Housing (SEH) for the frail elderly aging in place, as defined in Section 232(B)(6) of the National Housing Act and 202(k). The program is expected to promote aging in place and prevent premature institutionalization of the target population.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Assisted living facilities (ALFs) are designed to accommodate frail elderly persons and people with disabilities who can live independently but need assistance with activities of daily living (that is, assistance with eating, bathing, grooming, dressing and home management activities.) ALFs must provide support services such as personal care, transportation, meals, housekeeping, and laundry. Service-Enriched Housing (SEH) is housing that is designed to accommodate frail elderly persons or elderly persons with service needs who are aging in place. Residents are able to live independently but need assistance with activities of daily living comparable to services typically provided in a licensed assisted living facility, such as healthcare-related services. These supportive services must be available through a licensed or certified third party service provider. Typical funding will cover basic physical conversion of existing project units, as well as related common and services space. The ALCP provides funding for the physical costs of converting some or all of the units of an eligible development into an ALF or SEH, including unit configuration, common and services space and any necessary remodeling, consistent with HUD or the State's statute/regulations (whichever is more stringent). There must be sufficient community space to accommodate a central kitchen or dining facility, lounges, recreation and other multiple-areas available to all residents of the project, or office/staff spaces in the ALF or SEH. Funding for the supportive services must be provided by the owners, either directly or through a third party.

Applicant Eligibility:

Only private nonprofit owners of eligible multifamily assisted housing developments specified in Section 683(2)(B), (C), (D), (E), and (F) (Section 202 projects for the elderly, Rural Housing Section 515 projects receiving Section 8 rental assistance, projects receiving project-based rental assistance under Section 8, projects financed by a below-market interest rate loan or mortgage insured under Section 221(d)(3) of the Housing Act, or housing financed under Section 236 of the National Housing Act) that have been in occupancy for at least five years are eligible for funding. To be eligible, owners must meet the following criteria: (1) Must be in compliance with Loan Agreement, Capital Advance Agreement, Regulatory Agreement, Housing Assistance Payment Contract, Project Rental Assistance Contract, Rent Supplement or LMSA Contract, or any other HUD grant or contract document; (2) Must be in compliance with all fair housing and civil rights laws, statutes, regulations, and executive orders as enumerated in 24 CFR 5.105(a).

Beneficiary Eligibility:

Eligible residents who meet the admissions/discharge requirements as established for assisted living by State and local licensing, or HUD frailty requirements under 24 CFR 891.205 if more stringent. The residents must be able to live independently but may need assistance with activities of daily living (that is, assistance with eating, bathing, grooming, dressing and home management activities).

Service-Enriched Housing is designed to accommodate elderly persons and people with disabilities with a functional limitation, meaning residents who are unable to perform at least one activity of daily living.

Credentials/Documentation:

Assisted Living Facilities must be licensed and regulated by the State (or if there is no State law providing such licensing and regulation, by the municipality or other subdivision in which the facility is located). For Service-Enriched Housing, supportive services must be available through a licensed or certified third party service provider. For both ALF and SEH, the application must include a firm commitment for the supportive services to be offered at the ALF or SEH as part of the application. The Notice of Funding Availability contains all the necessary information for applicants to apply for the grant. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

14.534 STRONG CITIES STRONG COMMUNITIES (SC2) NATIONAL RESOURCE NETWORK**FEDERAL AGENCY:**

Office of Policy Development and Research, Department of Housing and Urban Development

AUTHORIZATION:

Consolidated and Further Continuing Appropriations Act, 2012: This program is approved by HUD's authority and administered under the Transformation Initiative (TI) account. , Public Law 112-55.

OBJECTIVES:

The purpose of the SC2 National Resource Network is to help strengthen local communities and spur economic growth. The SC2 Network will provide economically distressed communities with short-term technical assistance in basic operational areas as well as programmatic issues, dictated by local need. In addition, the SC2 Network will aggregate public and private resources to serve a wide range of governments and connect them through a peer-to-peer learning network.

The objectives of the programs are as follows:

- Provide communities facing long-term economic challenges with easily accessible and comprehensive technical assistance that can help retool them for future economic growth;
- Build capacity in distressed communities by connecting them with philanthropic organizations, non profits, public and private sector entities to facilitate long-term partnerships and economic investments;
- Develop a set of best practices and policy recommendations that can be disseminated and shared across all communities facing similar economic challenges;
- Improve the alignment of federal resources as well as strengthen federal and local partnerships.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

- Eligible costs include: salaries for program staff and technical experts, traveling expenses, expenses related to the eligible activities in the NOFA such as providing operational assessments, developing the clearinghouse and Peer to Peer network, tracking performance metrics, building Local Resource Networks, and evaluating the program. 1) Funding will only be provided to applicants who meet the standards for eligible applicants. 2) Funds will not be used to pay for activities outside the scope of the NOFA. 3) Grant funds awarded under this program may not be used to pay for computer hardware. 4) Honorariums cannot be charged against awards under this program. 5) An organization may not provide assistance to itself. 6) An organization may not provide assistance to another organization with which it contracts or sub-awards funds to carry out activities under this award. 7) No fee or profit may be paid to any recipient or contractor of an award under this NOFA. 8) Contractors providing technical assistance/capacity building

services/products are not consultants and thus are not subject to the salary provisions applicable to consultants in the FY2012 General Section. HUD will determine whether the salary rates are reasonable and customary for the skill set provided and the area(s) being served.

Applicant Eligibility:

The grantee of the SC2 Network, will have five categories of eligible activities:

1. Structure Development: Develop the SC2 Network structure that would include a team of expert technical service providers (pro bono or paid) that represent the breadth of relevant expertise needed to address the long-term economic challenges of communities. This responsibility also includes developing a Peer-to-Peer network to share lessons learned and best practices.
2. Engagement: Develop the engagement strategy for how the network will assist economically-distressed cities. This responsibility also includes systematizing how cities are engaged, prioritizing the level of assistance for each city, and matching the level of assistance based on the needs of each city.
3. Capacity building: Increase the capacity of participating governments in the area of intervention, not just to provide a one-time service that they cannot replicate. This responsibility might also include establishing a Local Resource Network (LRN) for communities with potential private and philanthropic resources to sustain local capacity building over a longer term.
4. Evaluation: Carefully document and evaluate interventions to build a series of best practice strategies that can benefit places with similar challenges, and develop forums for sharing this knowledge.
5. Policy Recommendation: Identify for the SC2 Council how federal policy changes could help local governments better achieve their economic development visions, and other policies, systems, and practices that support holistic and sustainable economic development.

In addition to these five categories, the Administrator will also work with the other three components of SC2 (described under I.A.1. SC2 Components), as well as the SC2 Council (described under I.A.2 Executive Order) to meet the broad goals and objectives of the initiative.

Beneficiary Eligibility:

The grantee must also have a demonstrated ability to obtain other community, private sector, and federal resources that can be combined with HUDs program resources to achieve program objectives. In general, an ideal Administrator will have most or all of the following characteristics:
Place-based: The selected applicant, buoyed by support of agencies and the philanthropic community, will have experience working in many distressed communities, and will be able to match these communities to relevant technical experts quickly and efficiently.

Resource-maximizing: The selected applicant will have a national scope and will be well-accustomed to the challenge of distributing scarce resources across communities with distinct needs. The ability to effectively evaluate requests for service will be paramount to using the SC2 Networks resources to their greatest potential.

Nimble, responsive, and service-oriented: The SC2 Network will be designed to provide very timely assistance that can thoroughly understand and adapt to needs on the ground. Therefore, the selected applicant will have, or can quickly pull together a deep team of technical experts, and, when necessary, develop partnerships between experts on issues that require multiple skill sets and excellent customer service skills.

Objective: In some cases, procedures or regulations may be a barrier to local capacity building. The selected applicant will facilitate local partnering and provide honest feedback to HUD and the other SC2 agencies for relieving burdens on local governments, while retaining accountability for results.

Sustainable: The selected Administrator will have the nonprofit management expertise required to make the SC2 Network financially sustainable, and as an outside entity, can attract philanthropic funding and leverage HUDs investment several times over.

Approved programs which have completed coal mine reclamation in their state or on lands within their jurisdiction may use funds for other activities as authorized in SMCRA. Please contact the headquarters office more information.

Applicant Eligibility:

The program is restricted to States with (1) an approved coal mining regulatory program, (2) lands eligible for reclamation, and (3) active coal mining operations within their borders that are paying coal reclamation fees into the Abandoned Mine Reclamation Fund; and to federally-recognized Indian Tribes with (1) eligible lands, and (2) active mining operations paying fees into the Fund. An eligible State or Tribe may submit a State reclamation plan to the Office of Surface Mining (OSM) for approval.

Beneficiary Eligibility:

Coal field citizens and the general public benefit from reduced exposure to safety and health risks from abandoned mine lands.

15.252 Abandoned Mine Land Reclamation (AMLR) Program

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2013: The Pittsburgh Botanic Garden is being developed on land within Settlers Cabin County Park, near Pittsburgh, PA. The Botanic Garden will contain 460 acres consisting of an arboretum, classical & educational gardens, production facilities and two visitors centers. An AMD discharge from an abandoned underground mine exists at the site that contains high aluminum levels. This discharge is the primary source of water for what will be the Asian Woodland Garden pond. Successfully treated water will support plants and fish in the pond as well as serve as an educational feature that highlights mining legacy at the site and the successful treatment of the AMD. This effort is supported by financial partners including the Pennsylvania Dept. of Environmental Protection Growing Greener Program, the Foundation for PA Watersheds, Trout Unlimited, Allegheny County Conservation district, Colcom Foundation and one anonymous Foundation. OSMRE provided a total of \$98,750 via two grant awards during 2013 that was combined with \$ 233,802 from the non-OSMRE partners.

In 2013, OSM awarded \$ 45,596 to Trout Unlimited to allow for the successful completion of the Robbins Hollow Passive Treatment Watershed Project. This project was selected by the Pennsylvania Governors West Branch Susquehanna Task Force as one of two priority watersheds in the West Branch of the Susquehanna River basin. The goal was to reduce acidity and metals loading and to add alkalinity to Two mile Run, so that it could be restored to a native brook trout fishery along its two mile length. Total funding for this project, with non-OSMRE partners, was \$263,464. Fiscal Year 2014: Information not available. Fiscal Year 2015: Information not available.

CRITERIA FOR SELECTING PROPOSALS:

Section 404 of Public Law 95-87, State certification of eligibility is required. No opposition to the project from the State Abandoned Mine Land (AML) agency. All applicable Federal and State clearances and permits must be secured. The project should propose to use proven or innovative technology that has a high probability of success and produce tangible results, e.g., fishery restored, stream miles improved, educational and community benefits, pollutants removed from the streams. Funds must be used for the construction phase of a project and there must be demonstrated public support for the project. Also, there must be a plan to address any ongoing operation/maintenance considerations.

15.253 Not-for-Profit AMD Reclamation

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2013: While OSMRE does not directly fund "projects" the funding provided supports non-profit, voluntary, community watershed associations whose projects engage their communities in identifying AMD problems as well as potential solutions and address related watershed/community projects.

Fiscal Year 2013

Western Hardrock Watershed Team:

OSM/VISTA team member serving with the Mosquito Range Heritage Initiative (MRHI) in Alma, CO, has been busy raising important funds for the site this quarter, furthering the organizations goal of conserving unique natural areas, preserving historic & cultural mining sites, promoting diverse recreation, and developing community business opportunities. MRHI serves Park County, an area characterized by historic and current hardrock mines of great cultural significance, as well as a wealth of resources, both ecologic and economic. With the money raised by Edinburg this quarter, MRHI will continue its mission of improving access to and safety of historic mining sites as a tourist draw local economy boom. One such annual project is the maintenance of the Paris Mill, a historical structure the community hopes to transform into a mining museum. The team member organized a membership drive for MRHI through the one-day Colorado Gives fundraiser hoping to secure \$1,000 through donations for this event. At the conclusion of Colorado Gives Day (December 10th), they raised \$7,455. Of the total amount raised, \$1,455 was designated for program support and general operating costs. The remaining \$6,000 was to be used for a scholarship fund for graduating seniors at the local high school, and to support MRHIs Environmental Steward for their Rare Plants and Trails project. The scholarship fund is offered to local high school students, in honor of former MRHI member JoAnn Dufty. It will focus on those pursuing careers in the natural science field. Because MRHI is in a rural, low-income area, scholarships like this will help fund college educations for young adults who otherwise couldnt afford higher education. The remaining portion will be used to support operations and existing programs, such as MRHIs Outdoor Adventure Series and interpretive trail creation giving visitors access to historic mining sites.

For the past three years, OSM/VISTAs with the Gila Resources Information Project (GRIP) have been working to clean-up large historic mine tailings piles at the San Vicente Mill Site in downtown Silver City, NM. Past OSM/VISTAs have applied through the Office of Natural Resources Trustee (ONRT) for remediation funding for the clean-up of the site. This past winter, that funding was successfully awarded and distributed. The New Mexico Environment

Department (NMED) will oversee and manage the implementation of this Restoration Project. The clean-up of the San Vicente Mill Site began in May of this year and will be completed this July. GRIPs current OSM/VISTA Andrew Lindlof has been actively involved in the clean-up, by attending the Restoration Projects meetings and visiting the San Vicente tailings site throughout the stages of NMEDs clean-up to monitor the progress. The Restoration Project actions include determination of the nature and extent of mill tailings and contaminated soils, removal of contaminated materials, transportation and disposal of contaminated materials, and restoration of disturbed areas. The tailings are being removed in conjunction with the Silver City Main Street Project effort to create a Master Plan for a trail system that would enhance the economic and recreational development of downtown Silver City; as well as revitalize existing trails and their natural riparian surroundings along the Pinos Altos, Silva, and San Vicente Creeks.

An OSM/VISTA team member raised \$3,000 in in-kind donations of films and public performance rights for a February 2014 Frozen River Film Festival, a fundraiser for LFVC projects and as part of LFVCs education program with Lake City Community School. This year, the goal is to raise \$1,000 to continue the river enhancement project and cover difficult-to-fund operating costs. LFVCs river project works to restore the health of Henson Creek, which has been found to hold high levels of zinc and cadmium. The project aims to remediate the local Hough Mine, which has contributed about 95% of this metal loading to the headwaters. The weekend of films provides a much needed tourist draw and economic boom to Lake City during the slowest part of the year, when locals are scraping by on summer earnings. Daly initiated this fundraising event in 2013, and counted more than 100 locals and visitors from surrounding communities. The non-restricted funds the LFVC gets from this event are vital to maintaining basic operations, and also gets locals involved who would otherwise not be exposed to the LFVCs message. This event goes a long way in enriching Lake Citys economy. Additionally, this event enriches Lake Citys cultural offerings in a way that can inspire environmental stewardship and promote physical activity to reduce obesity. This is an all-age, all-abilities, low-cost activity that provides lessons about climate change, careers in science, environmental engineering, multiculturalism, the value of wilderness, and the importance of exercise, among other topics. Films not screened in February will be used throughout the year as part of LFVCs new science education initiative at Lake City Community School.

Appalachian Coal Country Team

OSM/VISTA team member serving with the Schuylkill Headwaters Association (PA) organized and conducted a watershed clean-up project near their Silver Creek AMD remediation site. The project addressed an illegal dumpsite for old tires, along a road where illegal waste disposal commonly occurs, and a public pond. It was a group effort involving a local 4x4 group, a Girl Scout troop, Schuylkill Trout Unlimited, and other concerned citizens. In addition to encouraging local community members to take pride in their own land by cleaning up a site commonly considered a wasteland, the newly revitalized area will promote the health of the Silver Creek and the Schuylkill River.

OSM/VISTA team member and her host, the Harpeth River Watershed Association (TN), organized four stream cleanups and one tree planting in the final three months of 2012. The cleanups focused on a section of Pages Branch Creek near an urban, low-income area of Nashville still damaged from 2010 flooding. The planting added 70 native trees to the campus of Ensworth High School. These five events brought 132 volunteers out to participate. About half of the volunteers were from the Nashville area and remembered the flood and understood the catastrophic nature of the event, making their participation all the more significant.

OSM/VISTA team member serving with Friends of Deckers Creek (FODC) in West Virginia focused his energies on building awareness and capacity at FODCs Outdoor Learning Park. FODC was recently awarded \$5,000 from the Chesapeake Bay Trust Foundation, Environmental Education Capacity Building grant. The grant is funding the development and installation of three interpretive signs that will be installed at Outdoor Learning Park (OLP). These signs will discuss Backyard Conservation: How you can help wildlife!, West Virginias Celebrated Trees, and Ecosystem Services: How nature

provides for us. The grant will also fund the development and production of an educational guide and kit that can be used in conjunction with the interpretive signs. A member of FODC recently donated seven native trees/shrubs to the OLP, a value of approximately \$500. In addition to the trees, FODC received a \$2,000 contribution from the owner of a local restaurant to build a picnic area and shelter at the OLP. The shelter will provide an area for individuals to rest and eat while they visit the OLP. He also provided a trash can and wood chips for the OLP from Morgantowns Board of Parks and Recreation Commissioners. Prior to this request there were no trash receptacles present at the OLP. The wood chips will be used to enhance the trail system at the OLP. They will improve aesthetics at the park, are a cheap alternative to paving a trail, and are much more environmentally friendly due to the fact the wood chips still allow rain water to percolate into the ground unlike paved, impervious surfaces. Fiscal Year 2014: Information not available. Fiscal Year 2015: Information not available.

CRITERIA FOR SELECTING PROPOSALS:

Each proposed watershed project must clearly enhance the sustainability of the watershed organization and must contribute directly to the remediation of acid mine drainage. Candidates must be able to organize their work, work well with community groups and on their own, have an understanding of acid mine drainage remediation and the national Clean Streams program, and write well.

15.255 SCIENCE AND TECHNOLOGY PROJECTS RELATED TO COAL MINING AND RECLAMATION

FEDERAL AGENCY:

Office of Surface Mining, Department of the Interior

AUTHORIZATION:

Surface Mining Control and Reclamation Act of 1977 (SMCRA), Public Law 95-87; Federal Grant and Cooperative Agreement Act of 1977, Public Law 95-224.

OBJECTIVES:

The Office of Surface Mining Reclamation and Enforcement (OSMRE) Science and Technology Grants Program support two separate but related efforts:

(1) projects that develop and demonstrate improved technologies to address public safety and environmental issues related to the mining of coal and reclamation of the lands affected after mining (applied science projects),

(2) projects that convert into digital form, mine permit data and maps related to evaluating the impacts of coal mining so that the information may be used in a geographic information system (GIS) accessible by all Federal, state, and tribal agencies for assessing impacts of coal mining and reclamation on the environment (data conversion projects). Data conversion projects may also convert existing legacy databases to modern database software, and/or provide hardware and programming assistance for states to transition to managing and using this digital data.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Projects must focus on issues related to mining in the United States and its territories. Funding will be limited to projects that can be completed without additional funding from OSMRE. Projects that are long term in nature or larger in scope that can be accomplished with funds available this fiscal year, must be described such that OSMRE can identify specific measurable accomplishments associated with the requested funds.

Applicant Eligibility:

Applied Science Projects: Recipients may be any of the following: public, private, or non-profit entities; Federal, state, local or Tribal governments; and colleges, and universities located in the United States.

Data Conversion Projects: Recipients may be in any state or tribe where coal mining or reclamation activities authorized under SMCRA are occurring.

Beneficiary Eligibility:

Communities impacted by coal mining and reclamation of the land after mining.

15.421 ALASKA COASTAL MARINE INSTITUTE

(ALASKA CMI)

FEDERAL AGENCY:

Bureau of Ocean Energy Management, Department of the Interior

AUTHORIZATION:

43 U.S.C. 1345 (e); 43 U.S.C. 1346 Section 20.

OBJECTIVES:

The Bureau of Ocean Energy Management (BOEM) provides major economic and energy benefits on a national and local level to the taxpayers, States and the American Indian community. The BOEM oversees the exploration and development of oil, natural gas and other minerals and renewable energy alternatives on the Nations outer continental shelf. BOEM continues to look for better ways to serve the American people and to ensure that the Nation receives the best value for its resources now and into the future. The program not only supports decisions made within the Department of Interior, but also provides coastal States and local governments with the information necessary to ensure that all stages of offshore energy and mineral activities are conducted in a manner to protect both the human and natural environments. Outer Continental Shelf Lands Act (OCSLA) Section 1346 mandates the conduct of environmental and socioeconomic studies needed for the assessment and management of environmental impacts on the human, marine, and coastal environments which may be affected by oil and gas or other mineral development. OCSLA Section 1345 authorizes the use of cooperative agreements with affected States to meet the requirements of OCSLA, including sharing of information, joint utilization of available expertise, formation of joint monitoring arrangements to carry out applicable Federal and State laws, regulations, and stipulations relevant to outer continental shelf operations both onshore and offshore. The purpose of the Alaska Coastal Marine Institute is to use highly qualified scientific expertise at local levels to collect and disseminate

environmental information needed for OCS oil and gas and marine minerals decisions; address local and regional OCS-related environmental and resource issues of mutual interest; and strengthen the BOEM-State partnership in addressing OCS oil and gas and marine minerals information needs.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The Environmental Studies Program allocates up to \$100,000 per year for cooperative research at the University of Alaska. The University of Alaska invites proposals that are reviewed by a Technical Steering Committee including the University, State of Alaska, and BOEM, and funds individual awards. Applications must be for scientific research projects which are within the BOEM' area of responsibility. The majority of funds are used to support research that will enhance understanding of long-term effects of oil and gas, and marine minerals projects. Funds can also be used for attendance at national conferences for the dissemination of project results. Funds are not normally used for capitalization.

Applicant Eligibility:

University of Alaska may make application for support by a named principal investigator. Non-UA scientists may participate in collaboration with a UA principal investigator.

Beneficiary Eligibility:

Research scientists, Federal, State and local decision-makers, Native American Organizations, and the general public will ultimately benefit from the program.

Proposals must include a full statement of work, estimated budget, and resumes. The standard SF-424 application forms required by 2 CFR Part 215.12, and the Department of the Interior Code of Federal Regulations at 43 CFR Part 12, Subpart F, or its revisions, must be used.

Award Procedure:

Awards are made on the basis of a competitive peer review of proposals by a panel consisting of government research managers and external reviewers, as appropriate. Criteria for judging proposals include mission relevance, technical merit, and the quality and appropriateness of the personnel including past performance and publication record, project management, logistics plan, safety management, permits and interagency coordination, outreach, budget/matching funds, and where appropriate, minimization of impacts. OBJECTIVES:

The Bureau of Safety and Environmental Enforcement (BSEE) program provides major economic and energy benefits on a national and local level to the taxpayers and states. The Agency oversees the exploration and development of oil, natural gas and other materials and renewable energy alternatives on the Nation's outer continental shelf. BSEE continues to look for better ways to serve the American people and to ensure that the nation receives the best oversight and regulation of National resource development now and into the future. The program not only supports decisions made within the Department of the Interior, but also provides coastal states and local governments with the information necessary to ensure that all stages of offshore energy and mineral activities are conducted in a manner to protect both the human and natural environments. The Outer Continental Shelf Lands Act (OCSLA) Sections 1347 and 1348 respectively mandate the development and enforcement of regulations that protect safety, health and the environment. OCSLA Section 1345 authorizes the use of cooperative agreements with affected States to meet the requirements of OCSLA, including sharing of information, joint utilization of available expertise, formation of joint monitoring arrangements to carry out applicable Federal and State laws, regulations, and stipulations relevant to outer continental shelf operations both onshore and offshore. OBJECTIVES:

Title XVI of Public Law 102-575, as amended (Title XVI), directs the Secretary of Interior, acting through the Commissioner, to undertake a program to identify and investigate opportunities to reclaim and reuse wastewaters and naturally impaired ground and surface water in the 17 Western States and Hawaii. Title XVI also provides authority for the Secretary to provide up to the lesser of 25 percent of, or the Federal appropriations ceiling (typically \$20

million), for the cost of planning, design, and construction of specific water recycling projects, as well as up to 50 percent of the cost of Title XVI feasibility studies.

TYPES OF ASSISTANCE:

Formula Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

The Title XVI Program applies to reclamation, recycling, and reuse of municipal, industrial, domestic, and agricultural wastewater and to naturally impaired ground and surface waters. Through this program, Reclamation provides financial and technical assistance for feasibility studies, demonstration projects, and full-scale construction of facilities to deliver and/or treat wastewater for reuse applications. For purposes of the Title XVI Program, a water reuse project is a project (including the necessary facilities and features) that reclaims and reuses municipal, industrial, domestic, or agricultural wastewater and naturally impaired groundwater and/or surface waters. Consistent with State law, reclaimed water can be used, for a variety of purposes including, but not limited to, environmental restoration, fish and wildlife, groundwater recharge, municipal, domestic, industrial, agricultural, power generation, or recreation. Funds can be used for water treatment features where the improvement of the water quality is necessary to allow for reuse. Reclamation has general authority to participate in planning, research and demonstration of water recycling projects. Specific project authority is required for Reclamation to participate in the construction of a project.

Applicant Eligibility:

Eligible recipients of Title XVI funding are identified under the 1902 Act and include a State, regional, or local authorities; Indian tribes or tribal organizations; or other entities such as a water conservation or conservancy district, wastewater district, rural water district, all located within the 17 Western States or Hawaii. To be eligible to receive funding for construction activities, a water reclamation and reuse project must be specifically authorized under Title XVI.

Beneficiary Eligibility:

Water users, including municipal, industrial, and agricultural, that benefit from the additional drought resistant water source created.

Credentials/Documentation:

To be eligible to receive funding for construction activities, a water reclamation and reuse project must be specifically authorized under Title XVI. Funds for construction activities associated with an individual project will not be disbursed until all Title XVI pre-construction requirements have been met for that project. These include: (1) a finding that the feasibility study meets the requirements of Title XVI; (2) complete compliance with the National Environmental Policy Act and other environmental clearances; (3) an approved determination of financial capability; and (4) an executed grant or cooperative agreement for financial assistance. OMB Circular No. A-87 applies to this program.

This project will eliminate the need for potable water to be used in the Alamitos Barrier.

The City of San Jose, California San Jose Area Water Reclamation and Reuse Program received \$4,000,000 in FY 2013 Title XVI funding. This is a joint effort of local municipalities and water districts administered by the City of San Jose to serve recycled water throughout Santa Clara County. Recycled water is used for multiple purposes, including environmental restoration, urban agriculture, landscape and industry.

The Albuquerque Metropolitan Area Water Reclamation and Reuse Project, Albuquerque Bernalillo County Water Utility Authority, received \$1,887,317 in FY 2013 to design and construct an expanded treatment system at the Southside Water Reclamation Plant. The project is expected to save 2,500 acre-feet of water annually in addition to the 3,000 acre-feet of reclaimed water being produced by other components of the Albuquerque Metropolitan Area Water Reclamation and Reuse Project. Fiscal Year 2014: Information not available. Fiscal Year 2015: Information not available.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2013: Since 2012, 55 WaterSMART Grant projects have been funded, combining more than \$33 million in Federal funding with local partnerships to construct over \$106 million worth of water management improvements in 14 western states. Once completed, those projects are expected to result in over 161,000 acre-feet of conserved water each year.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2013: A number of projects will address the connection between water use and energy use. For example, the Consolidated Irrigation Company in Idaho will convert 6 miles of open canal with pipe expected to result in 9,484 acre-feet of water savings annually. The Company will also install a 500-kilowatt hydropower facility as part of the project.

Several projects will save energy through water conservation. For example, the Avra Valley Irrigation and Drainage District in Arizona will line 3.2 miles of open canal and will install flow meters and two new, more-efficient electric motors on irrigation pumps, expected to result in 525 acre-feet of water savings annually. The District estimates that completion of the project will decrease pumping needs and reduce energy consumption by approximately 2,635,918 kilowatt-hours per year.

Other projects are expected to make contributions to environmental restoration by conserving water or making other improvements that benefit endangered or threatened species. For example, in Oregon, the Central Oregon Irrigation District will undertake water management improvements with expected savings of 2,552 acre feet of water annually. Through a partnership with the Deschutes River Conservancy, 2,000 acre-feet of conserved water will be allocated as a permanent instream flow in a critical reach of the Crooked River.

Examples of all projects funded to date are available at <http://www.usbr.gov/WaterSMART/weeg/>. Fiscal Year 2014: Information not available. Fiscal Year 2015: Information not available.

CRITERIA FOR SELECTING PROPOSALS:

Projects should seek to conserve and use water more efficiently, increase the use of renewable energy and improve energy efficiency, protect endangered and threatened species, facilitate water markets, or carry out other activities to address climate-related impacts on water or prevent any water-related crisis or conflict.

OBJECTIVES:

Under this authority, Reclamation will fund various activities for the benefit of at-risk terminal lakes and associated to carry out research, support, and conservation activities for associated fish, wildlife, plant, and habitat resources in Nevada and California.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements or Contracts)

USES AND USE RESTRICTIONS:

Funding is directed to be used for terminal lakes and associated watersheds in the State of Nevada and California. For further information please contact the regional office.

Applicant Eligibility:

State and local public agencies, Indian tribes, nonprofit organizations, and individuals may submit a proposal which will be considered by Reclamation. Foreign entities and Federal agencies are not eligible to apply.

Beneficiary Eligibility:

State and local entities, public nonprofit institutions/organizations, other public institutions/organizations, Federally recognized Indian Tribal Governments, individuals, small businesses, profit organizations, private organizations, quasi-public nonprofit organizations, other private institutions/organization, general public, native American organizations, higher education institutions, irrigation districts, municipal water authorities, farmers/ranchers/agriculture producers, and land/property owners.

Credentials/Documentation:

(1) A detailed written technical proposal including background data regarding the applicant, technical approach proposed to accomplish the work, a scope of work that separates the work into major tasks, type of personnel implementing the proposal, experience in performing this type of work, benefits to be received by implementation of the project(s), environmental impact(s), timeline(s), the level of cooperation with other parties involved in the proposal, and other information that may be useful for proposal evaluation. (2) A detailed cost proposal by project including a budget covering labor categories, salaries and wages with estimated hours, fringe benefits, travel, equipment, supplies, subcontracts, indirect cost rates, other funding sources and commitments, cost-sharing, value of in-kind contributions of good and services, and a narrative discussion. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Funding is allowed for work that will for the benefit of at-risk terminal lakes and to carry out research, support, and conservation activities for associated fish, wildlife, plant, and habitat resources in Nevada and California. An environmental NEPA document may be required depending on the nature of the proposal and its impact on the environment. Compliance with National Historic Preservation Act and Endangered Species Act may also be required.

Pre-application Coordination: Although it is not mandatory, Reclamation strongly encourages offerors to submit a pre-proposal to eliminate the possibility of submitting a full proposal that would not be considered for award.

The pre-proposal should describe 1) how the proposal will provide benefits to a terminal lake or associated watershed, 2) the quantity of water anticipated to be provided if part of the proposal or benefit to the associated riparian and watershed resources, 3) the associated estimated cost, 4) potential environmental impacts, 5) state, local and other permits or approvals needed to implement the proposal. Pyramid Lake Pre-application Coordination: Initially

pre-proposal solicitation announcement was issued by Reclamation; the initial solicitation occurred in FY05. No additional solicitation announcements have occurred.

This program is excluded from coverage under E.O. 12372. No additional solicitation is planned in FY14. An environmental impact statement is required for this program. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. Funding is allowed for work for the benefit of at-risk terminal lakes and to carry out research, support, and conservation activities for associated fish, wildlife, plant, and habitat resources in Nevada and California. For Summit Lake, Reclamation will only accept proposals from the Summit Lake Paiute Tribe, since the lake is entirely within the reservation boundaries and any proposal affecting the lake would need the consent of the Tribe; the exception is if DTL funding is reprogrammed in another DTL grant for Summit Lake. For all other terminal lakes, Reclamation may accept applications after the applicant provides enough pre-application information to Reclamation to assure that the proposed work will be for the benefit of at-risk natural desert terminal lakes and associated riparian and watershed resources in Nevada and California or fund designated activities, the associated cost is reasonable, and it is likely Reclamation can satisfy its federal Indian trust, endangered species, environmental, and other responsibilities. Discretionary funding opportunities will be posted on Grants.gov. Submission of a complete technical proposal and a project budget proposal in accordance with the instructions in the FOA is mandatory. In addition, applicants must submit all applicable SF424 forms, which are referenced in the FOA. Reclamation does not anticipate accepting unsolicited applications in FY14.

Award Procedure:

Terminal Lakes Proposals will be evaluated using a merit-based review process.

Some past Pyramid Lake proposals were also reviewed on the basis of a competitive, merit-based review process, and were rated in accordance with the evaluation criteria stated in the FOA. Reclamation made awards to the highest-rated proposals based on the amount of funding available at that time. Reclamation reserves the right to prioritize projects based on availability of funds and to ensure balance among the program objectives listed in the FOA.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Contact Reclamation for the range of time when proposals are approved or disapproved.

Such programs shall consist of cost-effective measures and associated works to reduce salinity from saline springs, leaking wells, irrigation sources, industrial sources, erosion of public and private land, or other sources. For ARRA funded projects and in addition to the program objectives above, the section 3 of the ARRA states the following objectives:

- (1) To preserve and create jobs and promote economic recovery.
- (2) To assist those most impacted by the recession.
- (3) To provide investments needed to increase economic efficiency by spurring technological advances in science and health.
- (4) To invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits.
- (5) To stabilize State and local government budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

Some projects may require compliance with the National Environmental Policy Act and Endangered Species Act. Information regarding whether these requirements must be met will be included in the funding opportunity announcement posted on www.grants.gov. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Environmental compliance for this program may be required depending on the scope of the specific project funded. This may result in the need for an environmental impact assessment or environmental impact statement prior to the commencement of project activities. An environmental impact statement is required for this program. An environmental impact assessment is required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Award Procedure:

Reclamation will solicit proposals and award funding through a Funding Opportunity Announcement (FOA) process. The FOA will request proposals from public and private sectors that would control salinity based on cost per ton. The proposals will be ranked based on their cost effectiveness for preventing salt from entering the Colorado River system. The ranking would consider risk factors that might affect the project's performance. Upon receipt of applications/proposals by the date identified in the announcement(s), the applications will be reviewed to determine if application/proposal(s) are consistent with requirements identified in the announcements. The application/proposal(s) are reviewed against identified criteria by a Federal technical team of experts, that may include representatives of states as advisors. EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2013: One example of a current funded project is the Lower Stewart Pipeline Project which involves piping a portion of the Stewart Ditch & Reservoir Companys existing unlined canals in a tributary to the North Fork of the Gunnison River near Paonia, Colorado. In September 2011, Reclamation entered into an agreement to provide up to \$6 million from the Basinwide Program to pipe 11.5 miles of existing canals with an expected salt load reduction of about 10,920 tons per year. Construction began in the fall of 2012 and is expected to be completed in 2014. A habitat replacement plan has been implemented concurrent with the canal piping project. Fiscal Year 2014: No information available. Fiscal Year 2015: No information available.

CRITERIA FOR SELECTING PROPOSALS:

In 1984, the Salinity Control Act was amended to direct the Secretary of the Interior to give preference to units which reduce salinity at the least cost per unit of salinity reduction (or cost-effectiveness). Cost-effectiveness is defined as the Salinity Program's annual cost per ton of salt prevented from entering the Colorado River system. Conceptually, cost-effectiveness is analogous to determining the cost per mile to own and operate a car. That computation combines the annual expenses (loan payments, gas, maintenance, etc.) and divides by the miles traveled each year. The key to understanding this approach is to appreciate that the government evaluates all projects as if the money is borrowed from a loan institution and repaid in annual installments over the life of the project. This economic evaluation principle is required by the "Economic and Environmental Principles Guidelines for Water and Related Land Resources Implementation Studies", March 1983. This method lends consistency in the comparison of non-federally financed alternatives (which must borrow funds) to Federally financed projects. Each proposal will be evaluated by a technical review panel in accordance with the following criteria and corresponding percentage weights: (a) Technical merit - those passing will be evaluated further, (b) Cost effectiveness 70 percent of the annual cost for each ton of salt load reduction, expressed in dollars per ton, (c) Performance risk 30 percent of performance risk will evaluate the cost and effectiveness risks of the proposal. More detailed information will be included in each funding announcement or may be obtained from the Salinity Control Program contacts listed above. For Recovery Act projects: The purposes are among others, to quickly and prudently commence activities that preserve and create jobs and to promote economic recovery, and to invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits. To meet these purposes, Reclamation will allocate funds based on the criteria set forth in the Recovery Act and the accompanying conference report, and will target activities that quickly infuse money into the economy.

To-date, the Anadromous Fish Screens program (AFSP) has completed 41 high priority screens on CVPIA watercourses. The Trinity River Restoration program continues to fund projects to reach fish doubling in the Trinity River. The program also carries out projects that increase spawning habitat and reduce fine sedimentation, and 30 of 47 restoration projects have been completed in the Trinity mainstem and 3 side channels. The Modeling Program has developed 8 of 9 readily usable and broadly available hydrologic and ecologic models and supporting data to evaluate existing and alternative water management strategies.

Water Operations programs annually provide instream water for fish actions, including 700,000 AF in 2013 for Dedicated Project Yield, and maintain minimum reservoir storage in Shasta and Trinity Reservoirs.

The Refuge Program has constructed infrastructure to provide water to 15 of 19 CVPIA refuges. The program annually acquires and delivers water to these refuges, and as of 2013, the program acquired an average of 97,997 AF of Incremental Level 4 water and delivered an average of 383,603 AF of Level 2 water supply and 66,588 AF of Incremental Level 4 water.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2013: Cost-share cooperative agreements were awarded to a number of non-federal partners, such as states or counties, in an effort to facilitate planning and development of recreation and fish and wildlife facilities on various Bureau of Reclamation water project recreation areas. These projects were identified primarily through existing resource management plans (RMPs), budget availability, and in coordination with managing partners. Provided below are just a few of the many examples of cost-share funded projects in Reclamation.

The Eastern Colorado Area Office cost-shared with Lake Pueblo State Park to rehabilitate recreation facilities to comply with accessibility laws and regulations and also improved overall visitor experiences and access. The ECAO also worked with partners to address critical invasive species issues at four reservoirs, minimizing the threat to native vegetation and desirable species. The Nebraska Kansas Area Office (NKAO) worked with managing partners to assist with a fish entrainment system in Lovewell Reservoir to improve the fishery; and worked with the Lower Loup Natural Resource District to provide security lighting, water hydrants and electrical upgrades to address public safety. NKAO also worked with the Nebraska Game and Parks Commission to address critical noxious weed and vegetation treatment projects for the purpose of wildlife habitat enhancement, with direct benefits to ecological resources and biodiversity. The Oklahoma Texas Area Office facilitated infrastructure repairs with their managing partner to address tornado damage, as well as provided assistance for facility rehabilitation to comply with ADA requirements. In an effort to maintain public access and provide safe environment for the public, the Montana Area Office worked with Liberty County to repair several roads that were severely damaged by 2011 flood events. The Wyoming Area Office worked with managing partners to improve access to visitor facilities, and upgrade services to address public health and safety needs.

All projects help meet Reclamation goals and objectives identified in resource management planning efforts, and are planned and implemented in cooperation with managing partners. Cost sharing many of these projects leverages federal funds, promotes shared stewardship responsibilities, advances the mission and goals of the agency, while promoting recreation opportunities and access to public lands. Local communities and partners benefit from the added investment in their communities, increased visitation and tourism dollars.

There were continued cost-share arrangements with Colorado, New Mexico, and Utah to rehabilitate facilities and perform accessibility retrofits, including continued improvements to the water and wastewater systems at Pine, Sims, and Cottonwood recreation areas (Navajo Reservoir); construction of accessible fishing piers at Cottonwood Campground (San Juan River) improvements to the visitor center at Brantley Lake State Park, New Mexico (completed 2013); phase II rehabilitation of recreation facilities at Starvation Lake State Park in Utah, including expansion of Mountain View Campground to increase capacity to meet demand (completed 2013); activities to begin reconstruction of the entry area at Jordanelle Reservoir, Utah, including new entrance station,

widening of road to add a second lane to accommodate traffic volume, accessible parking and hardened walkway between features (2013);

As a result of a potential turnback at Grand Coulee North Dam Park, funds were utilized for O&M and repair public health and safety structures such as replace electrical systems and replace dilapidated wood and roof on structures. Howard Prairie Resort was a turn back from concession operations. Local partner faces major rehabilitation and repairs so funding was used to replace old restroom with accessible model, accessible parking and access routes; continued improvements to the water and wastewater systems at Pine, Sims, and Cottonwood recreation areas (Navajo Reservoir); construction of accessible fishing piers at Cottonwood Campground (San Juan River) improvements to the visitor center at Brantley Lake State Park, New Mexico (completed 2013); phase II rehabilitation of recreation facilities at Starvation Lake State Park in Utah, including expansion of Mountain View Campground to increase capacity to meet demand (completed 2013); activities to begin reconstruction of the entry area at Jordanelle Reservoir, Utah, including new entrance station, widening of road to add a second lane to accommodate traffic volume, accessible parking and hardened walkway between features (2013); There were continued cost-share arrangements with States of Colorado, New Mexico, and Utah to rehabilitate facilities and perform accessibility retrofits, including continued improvements to the water and wastewater systems at Pine, Sims, and Cottonwood recreation areas (Navajo Reservoir); construction of accessible fishing piers at Cottonwood Campground (San Juan River) improvements to the visitor center at Brantley Lake State Park, New Mexico (completed 2013); phase II rehabilitation of recreation facilities at Starvation Lake State Park in Utah, including expansion of Mountain View Campground to increase capacity to meet demand (completed 2013); activities to begin reconstruction of the entry area at Jordanelle Reservoir, Utah, including new entrance station, widening of road to add a second lane to accommodate traffic volume, accessible parking and hardened walkway between features (2013);. Fiscal Year 2014: Information not available. Fiscal Year 2015: Information not available.

CRITERIA FOR SELECTING PROPOSALS:

In no priority order and at the discretion of each Reclamation office, cost-share funding that will: (a) Provide for the public's health and safety; (b) Comply with Federal, State, and local laws and regulations; (c) Protect critical resources such as wetlands, critical wildlife habitat, endangered and threatened species, and cultural resources; and (d) Modernize existing facilities to meet current standards.

For ARRA funded projects: The purposes of the Recovery Act are, among others, to quickly and prudently commence activities that preserve and create jobs and to promote economic recovery, and to invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits. To meet these purposes, Reclamation will allocate funds based on the criteria set forth in the Recovery Act and the accompanying conference report, and will target activities that quickly infuse money into the economy.
