<u>2015-TSFO-00130</u>	2/24/2015	Geha, Joseph	-	<p>"I request access to and copies of all records pertaining to perimeter fence breaches at Mineta San José International Airport (SJC), Oakland International Airport (OAK) and San Francisco International Airport (SFO) . In further detail, I am requesting these documents for any instances in which the perimeter was breached by an unauthorized party, be it a person or persons, a vehicle, or a remote-controlled vehicle such as a drone that flew into airport airspace over the perimeter fence. This would at minimum include a basic incident report for each instance, and to the fullest extent possible, a report or reports from the TSA, and or The San Jose Police Department Airport Division, or any combined reports from these and other relevant agencies such as the F.B.I. In addition to perimeter breaches, I am requesting the same information as listed above pertaining to any persons who managed to either A) gain access to the airport terminal spaces without first going through a TSA security check, and B) those who passed through a TSA security check without a boarding pass/flight ticket. As an example to help clarify my request in this particular instance, I am referring to instances similar to, but not limited to the type of breach that happened when one Marilyn Hartman went through the TSA checkpoint at SJC in August of 2014 without a boarding pass. "In August, Hartman traveled on a Southwest Airlines flight from San Jose to Los Angeles without a ticket, then pleaded no contest to a misdemeanor trespassing charge and was released with the warning not to set foot at LAX again unless she has a valid ticket. Hartman evaded San Jose airport security and made it through TSA ticket checkpoint, after three failed tries, by blending in with a family and then boarding a Southwest flight." (San Jose Mercury News, 2015. February, 10.) For these instances as well, I would request all relevant data and documentation, including full police/TSA/SJC reports and ancillary documents, including statements from people who are detained or arrested for this kind of breach. For all of the above instances, I would request these records, documents, and any related data, etc., to be collected in the date range of January 1, 2010 until February 11, 2015."</p>	2/11/2015
