The Honourable Deb Miller
Member, United States Surface Transportation Board
395 E Street, SW
Washington, DC 20423-0001

Dear Chairman Elliott and Surface Transportation Board Members,

I am writing you today, to express our support regarding Canadian Pacific Railway Limited's (CP) proposal to acquire Norfolk Southern Corporation (NS).

I represent a company called Messenger Freight Systems. We work in the transportation and warehousing business. We have relationships with many railways from Canada to Mexico.

Our company believes a CP-NS combination will create a transcontinental railroad with the scale and reach to deliver improved levels of service to us and enable us to better serve our own customers and communities, while improving safety and enhancing competition.

CP's proposal is a timely one that introduces a number of positive, future-focussed ideas to vastly improve North America's transportation network. We believe the proposal is in the public interest as it would improve overall service while creating meaningful competition amongst the Class 1s. Specifically, we believe the following points in CP's proposal are key:

- alleviating the long-standing issue of congestion in Chicago
- increasing capacity for all shippers without creating the need for more infrastructure
- creating efficient, reliable single-line service
- eliminating the "bottleneck approach" when quoting rates and instead quoting rates to which gateway the shipper requests
- reducing highway congestion while lowering fuel consumption on the joint network

For the above reasons, Messenger Freight Systems, supports the proposed CP-NS combination. We urge the Surface Transportation Board to judge the proposal on its merits and we look forward to a positive outcome.

Please contact us at 519-631-9604 for more information.

Regards,

Blaine Skirtschak
