Washington, D.C. 20423-0001

RE: Canadian Pacific Railway, Ltd. Proposed acquisition of Norfolk Southern Corporation.

Dear Chairman Elliott:

I am writing to register One Earth Energy, opposition to the Canadian Pacific Railway, Ltd.'s (CP)
Proposed acquisition of Norfolk Southern Corporation (NS).

One Earth Energy is a 125-million-gallon ethanol production plant, our feed stock is corn and by
Products, consist of Dried Distiller's grain and Corn oil. We rely on the day to day performance of
Norfolk Southern to deliver corn to supply the plant its daily grind demand. The finished product
Moves by rail to the East Coast and South in Florida. One Earth success is dependent on the daily
Service and access to markets by way of their existing routes. We have and will continue to expand
Production but we have come to know and trust the rail service with Norfolk Southern, under new
New owner ship, the trust, reliability and service is up in the air.

I have lived in Gibson City, Illinois for over 30 years, the former Illinois Central Railroad is the 2nd
Class 1 carrier in this community. I have seen firsthand what can happen to a railroad under the control
Of Hunter Harrison, I plead with you do not allow this man to gain control of a very successful railroad.
He will cannibalize the Norfolk Southern just as he did the Illinois Central Railroad.

Sincerely,

Steven Kelly

President
