- American Road & Transportation Builders Assoc. (ARTBA), **Michael Sakata**
- 11th Street Bridge Project Manager (HNTB Corporation), **Peter McDonough**
- AECOM Project Director, **Said Cherifi**

Background

The initial challenge of the Every Day Counts (EDC) initiative was to accelerate the deployment of ten (10) proven but not widely implemented innovative strategies and five (5) technologies that are aimed at shortening project delivery and enhancing project performance. EDC is about pursuing better, faster, and smarter ways of doing business. Beyond the deployment of the initial 10 strategies and 5 technologies, the STIC will serve as forum for considering the rapid deployment of other innovative strategies and technologies in the future.

Team Member Responsibilities

Provide input on the initiatives to be pursued, appoint agency and industry representatives to the implementation teams, and establish performance goals to measure success. Render STIC decisions by the consensus of all participating members subject to the concurrence of the DDOT and FHWA STIC co-chairs.

Approach

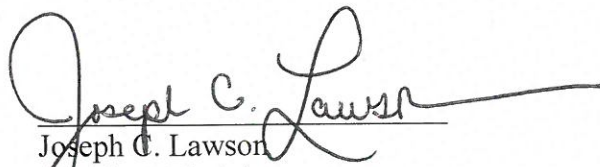

The STIC will convene an annual forum to identify past EDC successes/processes and potential innovations.

Resources

Staff support for the STIC will be provided by DDOT and FHWA Division subject matter experts assigned to lead efforts in the EDC Implementation Plan(s). Funding for travel for the STIC and the implementation teams may be available from FHWA.

Time Frames

The STIC will be an on-going team and will only be disbanded upon agreement of the two STIC co-chairs.

Joseph C. Lawson
Division Administrator
District of Columbia Division

Matthew Brown
Acting Director
District Dept. of Transportation
